ALL 12 ONLY

$2.00 postpaid

Earl May's **GREAT APPLE TREE OFFER**

★ **VALUABLE FREE GIFTS**

I am giving many valuable free gifts with nursery and garden seed orders. See page 2 for their natural pictures.

This is a Red Jonathan bearing heavily on good Nebraska soil. It's the Joy Morton orchard at Nebraska City. You know his father, J. Sterling Morton, was the father of Arbor Day. These trees came from me. That's me in the picture.

BUY WITH CONFIDENCE

Earl May's Nursery Stock and Seeds Grow and Satisfy

FROM MISSOURI

"The $1.00 collection of garden seeds was the best I ever brought. Never had sueh a garden. Wish I had a picture to send you."—Mrs. J. W. C., Carrollton, Missourl.

FROM NORTH DAKOTA

"I am writing to you about the strawberry plants I secured from you this spring. Well, they certainly are some dandies. Some plants havo as high as I6 berries, and they are sueh strong looking plants. I may set out some more next year as these are surely doing fine."—Mrs. J. M. C., Madison, North Dakota.

FROM INDIANA

"I just had to sit down this morning and congratulate you on the gladiolus that I bought of you. I had spikes that were four feet high and had as high as 20 flowers to a spike. I had gladiolus that were 5½ inches aeross the flowers—some of the most gorgeous gladiolus I ever saw.

"My advlce to anyone that wants to get good stocks of flowers is to buy of Mr. Earl E. May for a square deal and true to name varieties. That is just what I would telI you face to face."—W. W. R., Bremen, Indiana.

FROM WISCONSIN

"Just a few words to let you know how pleased I was with my large Garden Vegetable Collection. It was great and I think you are most generous. I will have an all 'Earl May Garden' thls summer."—Mrs. J. L., Westby, Wisconsin.

FROM NEW YORK

"The collection of Spirea Van Houtte reaehed me in good condition. We are so pleased that we would like another. The ones we reeeived were the nleest plants we have received for a long tlme."— Mrs. D. W. H., Sloatsburg, New York.

FROM WYOMING

"The peonies I ordered from you several years ago bloom beautifully every year, and my Spirea hedge is lookIng grand."—Mrs. J. E. H., Powell, Wyoming.

FROM IOWA

"In 1934 I bought 4 Kieffer pear trees from you. Every one said it was too dry for them to grow, but they would not be diseouraged, even though some other pear trees that we had secured from another company, dried by their side."—A. V. E., Montezuma, Iowa.

"Your $1.00 garden seed eollection we ordered from you is certainly a grand collection and so many seeds in each package. We are very well pleased with them. Thank you."—Mr. R. B., Prairie City, Iowa.

FROM ILLINOIS

"I want to tell you how pleased I am wlth my Mrs. May's collection of everblooming roses.

"These certainly are beautiful. All have bloomed and as each one would bloom I'd just say to myself, 'How can the others that have not bloomed be any more beautiful than these?'

"Many thanks for sending me such nice vigorous healthy plants."—Mrs. C. B. L., Nilwood, Illinois.

FROM NEBRASKA

" 'The proof of the pudding is in the eating' so I am sending you some fruit I raised from your trees out here in West Central Nebraska. The plums in this box are from trees we set out two years ago. The peaches were set out in 1932. The Elberta tree had 5 bushel on it. I had to drive steel posts by those plum trees and tie the branches all together and still some of the limbs broke. We had all the cherries we could use for two years and the apricot tree and crab apple had fruit on this year.

"When a fellow sells good stuff like you do, I believe in telling him about it."—M. E. B., Lexington, Nebraska.

FROM KANSAS

"I have been a regular and well pleased customer of yours for several years and am more enthusiastic than ever now so am enclosing another order. Thank you."—Mrs. G. F. M., Potwin, Kansas.

BUY WITH CONFIDENCE

I have these letters in my files and many hundreds more just like them. You can "Buy With Confidence" from Earl E. May.

140—McNEILLY'S NEW HYBRID SWEET CORN

Finest Flavor and Big Yield, Too, in This Great New Sweet Corn

Friends, you all know Mr. McNeilly is one of our most successful corn hybridizers. He's developed a new Sweet Corn for you. It's sweeter, tenderer, matures in 80 to 85 days and is one of the biggest yielders. With lots of butter, salt and pepper, it's the best corn I can offer you. His sweet corn has a straight stout stalk and in many instances will bear up to 5 ears of corn on a stalk. You can usually depend on 50 percent greater yield from McNeilly's New Hybrid Sweet Corn.

Pkt., 10c; ¼ lb., 25c; lb., 50c; 3 lbs., $1.25; 5 lbs., $1.90, Postpaid.

MY HYBRID SWEET CORN SEED COLLECTION

Plant these and eat Fresh Corn in July and August.

Best Eating Quality—50% Greater Yield

No. 16

½ lb. Sweet Corn—McNeilly's New Hybrid $0.35
½ lb. Sweet Corn—Hybrid Tendergold .. .18
½ lb. Sweet Corn—New Hybrid Stowell's Evergreen ..... .25
(Regular Value) $0.78

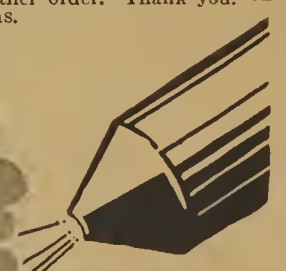
Special COMBINATION OFFER

Earl May's Bug Dust and Duster



The great new non-poisonous Bug Dust. Sure death to the bugs, and absolutely non-poisonous to human beings. You can dust it on your vegetables and eat them without any harmful effects. You probably wouldn't even know it was on there. Down in South America where this basic material comes from, the natives dump this material into their fishing grounds. The fish then float to the surface, either stunned or dead, and the natives then eat them without any harmful effects.

Yet it is 40 times more powerful than lead arsenate as a stomach poison; 15 times more powerful than nicotine as a contact poison.

Here Is My Special Offer to You

3 lbs. of this marvelous new, powerful Bug Dust and a Duster so you can apply it, all for Only **$1.00 postpaid**

FREE: **READ CAREFULLY** Dear Friend: When you send me your order, pick out 5 neighbors who do not get my catalog but who you personally know need a vegetable garden—flower garden—trees or shrubs—baby chicks—or farm seed. For mailing these carefully selected names to me I will give you 3 big packets of our finest flower seed—the famous **Gold Medal Trio (value, 45c)**—which includes **New Jubilee Gem Bachelor's Button, Orange Flare Cosmos,** and **Rosamond Larkspur.** Each of these is an All America Winner.

If any of your friends whose name you send me, or the combined group, buy a total of **$4.00** or more from me before **July 1, 1938,** you can pick out any item in my catalog worth up to 50c, free.

IMPORTANT. These people must not now be customers of mine. Hurry! The sooner you act, the better. If two people send the same names and addresses, credit will be given the one who sends first. Act quick.

(All Names Must Be Mailed to Me by March 15)

EARL MAY'S Complete NURSERY AND SEED CATALOG

PRICES HAMMERED DOWN

Dear Friends

I AM proud to offer you for 1938 this new and complete, up-to-date catalog. As you look through this book you will find many new tried and tested varieties of fruits, flowers and shrubs. You will also see pictures of many of them growing on my own trial farm near Shenandoah. You who have never ordered from us can do so with perfect confidence. We send you only first quality nursery stock, the finest strains and varieties of seeds and always give you accurate and dependable advice on what to plant.

If you don't find exactly what you want in this catalog, write me a letter, as we can furnish most any variety that grows. Even if you don't send an order this year, be sure and write and tell me how you like the catalog and where it can be improved.

Your friend,

Earl E. May

1200 TRIED AND TESTED, NEW AND BEST HARDIEST VARIETIES AND SIZES OF NURSERY STOCK AND SEED FOR YOU

How to Order

Use the handy index to find what you want. There are two big order blanks in this book and one **POSTAGE PAID** envelope. I will mail you more if you want them. No order is too small or too large for us to take care of properly.

Most Prices Are Prepaid

All garden and flower seeds are postpaid and most items of nursery stock. Shade trees and large size fruit trees are so large that Uncle Sam won't let us send them by parcel post. I pay the transportation charges on all nursery orders of $10.00 or more even including the large size fruit and shade trees. Balled Evergreens are excepted from prepayment of transportation.

How to Send Money

Your personal check is good with me. Money orders and bank drafts are always good and safe. Send cash only in a **registered** letter. Many of my friends send me signed blank checks to be filled out for the correct amount. If you care to do this, I pledge that your check will be filled out for only the actual amount of your order at the lowest prices in effect the day your order is received. Cash remittances travel at your own risk unless **registered.**

C.O.D. Orders

Strawberries, perennial plants and vegetable and flowering plants cannot be sent C.O.D. You can save money by remitting the full amount of your order as the Post Office Department and Express Company make a slight extra charge for C.O.D. collections.

FREE **POSTAGE PAID ENVELOPES**—I am enclosing an envelope for you just like this one in the picture. I'll pay the postage on it. Use it for orders.

I know you will appreciate my low prices on first quality garden seeds, nursery stock, farm seeds, baby chicks and many other necessities this Spring. I'll be waiting for your order to come back to me in this envelope. If you want another postage paid envelope for your orders, let me know and I will send it to you.

My Guarantee on Nursery Stock

I guarantee all nursery stock purchased of me to reach you in good, live growing condition. If not received in good condition, notify us **AT ONCE ON RECEIPT OF THE STOCK** and we will replace free. If any stock secured of me this spring fails to grow with proper care, notify me by October Ist and I will replace at half price.

If any nursery stock is proven untrue to description, under which it is sold, we will, upon proper proof, replace all such nursery stock that may prove otherwise, or refund the amount paid, but in no case shall we be liable for any sum greater than the amount originally received for said nursery stock.

South Haven

Hardiest Dry Weather Varieties

Peaches picked fresh from your own orchard are the finest flavored and best. Only a few cents a tree now and one crop of fruit pays for the tree many times over. Plant only 15 ft. apart. Use as fillers in apple orchards until your apples come into bearing. They usually come into bearing within 3 years.

Polly—Most Delicious of All

Polly is the outstanding hardy peach, originated by the Iowa State College. The Carter Orchards, at Glenwood, Iowa, tested Polly, the tree producing the first crop in 1920. For 10 years out of the next 12, Polly produced a big crop every year. Judged on its orchard performance, Polly is probably our hardiest peach.

Large size fruit, 2½ to 3 inches in diameter, a pale, creamy-white overlaid with a deep red blush, freestone, white meated, juicy and of the highest quality; ripens about the middle of August.

ELBERTA. This tree is a heavy bearer. Ripens in early September. Freestone, large yellow with red cheek. Keeps well. Flesh is yellow.

CHAMPION. Has a wonderful flavor, large fruit, white meated. Ripens in August. Very hardy in the Central States.

GOLDEN JUBILEE. Yellow Freestone. Considered one of the earliest peaches, ripens two weeks before Elberta.

J. H. HALE. Larger and a week earlier than Elberta. Distinct red blush over golden yellow. A freestone which often bears when 2 years old. The fruit averages ⅓ to ½ larger than Elberta and better in flavor. The flesh is yellow and the peach practically fuzzless.

MAMMOTH HEATH CLING. The beautiful, large creamy-white clingstone peach. White meated, excellent quality; a wonderful keeper. Ripens 3 weeks after Elberta. Delicious preserved or pickled.

SOUTH HAVEN. One of the finest quality yellow peaches ever introduced. Originated in the Michigan Peach Belt so you know it's extremely hardy. It's a heavy bearing tree, freestone fruit, and ripens about August 15th.

PRICES ON PEACHES

	Per 4	Per 10	Per 25	Each
Express or freight, branched 4-6 ft.	$1.45	$3.40	$7.95	$0.42
Postpaid, branched, 3-4 ft.	1.12	2.59	5.95	.32

HALE HAVEN. Unsurpassed in size, beauty and flavor. Every Hale Haven peach is a luscious tempting sweetness of the finest quality. Colors to a rich yellow and brilliant red on the tree before fully ripe. Ripens ten days before Elberta, is completely freestone. The trees are rapid growers, bear young, produce heavily and have stood 26 degrees below zero without winter injury.

Gives you the large size and beautiful appearance of J. H. Hale with the extra firm shipping and canning quality of South Haven. Try it. You will like it.

ROCHESTER—Hardiest of All

Three years ago when many peach trees were killed out through temperatures of 30 below zero, Rochester came through and produced a big fruit crop the next year. Commercial peach growers are finding Rochester their biggest money-maker.

It's sweet and highly flavored. Ripens early in the season. The fruit is an orange yellow blushed deep dark red. The skin is thick and tough, making it a good shipping peach. It keeps well, too. It's juicy, extremely hardy and starts bearing early, producing a big crop every year. The flesh is yellow stained with red near the pit.

MAYFLOWER—Earliest of All

Ripens in the middle of July. Blooms late, escaping late frosts. Is often called "The Frostproof Peach." Bears young, has good size and fine color, being red all over. Almost a freestone. If you have trouble growing peaches, try Mayflower.

APPLES

Full of Vitamins, Delicious Flavors, and Health

Apples are the most delicious of all fruit. Today we have varieties which bear within 2 and 3 years after being planted. We have new flavors. We also have the good old standbys like Jonathan, Grimes Golden, Tolman Sweet, which will never pass out of the picture. All apples we offer are simply loaded with good health. The apple keeps us immune from constipation, old age and disease. It is extremely rich in Vitamins "A" and "B" and excels as a food for both children and adults.

Home grown apples take on the characteristics of the soils and climate in which they are grown. They live a lifetime. My trees all have heavy roots on them and are selected from the earliest bearing and heaviest fruiting trees. Every one is true to name, too.

My own Planting Book tells you how to plant and how to grow fruit trees successfully. It is FREE with every nursery order!

I prepay to your door everything in the nursery line except large size fruit trees and shade trees, and I prepay charges on them if your total nursery order is $10.00 or more. Balled evergreens are F. O. B. Shenandoah, Iowa.

Choose Your Apple Varieties at the Following Prices

	Size	Per 4	Per 10	Per 25	Each
Express or freight, 2-yr. heavy...	4-6 ft.	$1.89	$4.45	$10.35	$0.49
Postpaid; 2-yr. stocky	3-5 ft.	1.43	3.39	7.95	.39

Ben Davis →

The great varieties pictured on the front cover and described below, are recommended in these larger, heavier branched, quicker bearing sizes.

In planting apples 35 feet each way, you set 35 trees to the acre and use from 80 to 90 fillers.

SPECIAL COLLECTION OFFER

These Are the Varieties on the Cover

12 Trees, 2 of each of these for only $2.00, postpaid. 2 to 4 ft. trees.

YELLOW DELICIOUS. Finest flavored of all apples. Herc's the Genuine Yellow Delicious Apple for you—the apple that has the most wonderful flavor of all. Yellow Delicious comes into bearing early. Many tell us they bear heavily on 5 and 6 year old trees.

Yellow Delicious has a flavor all its own. It is a cross between the spicy tang of Grimes Golden and the supreme sweetness of the Delicious. It is a large, perfect yellow apple.

ALL-RED DELICIOUS. The King of All Apples, and rightly named Delicious. This is the Double Red Delicious, so named because it colors early—beautiful, solid, deep blood-red.

You must taste its crisp, juicc-laden flesh in order to appreciate the alluring aroma that it has. You can pick All-Red while the apple is still hard, crisp and full of juice. They will then keep until late Spring, never getting mealy when picked early.

JONATHAN. A wonderful orchard tree, as it bears young and early. Has exceptionally fine eating quality. Deep red in color and loaded with juice; produces heavily everywhere exccpt the extreme South. Plant plenty of Jonathan.

WEALTHY. Ripens between Duchess and Jonathan. Extremely hardy. The fruit is striped bright red, of wonderful quality, and is very popular. A good home orchard variety.

YELLOW TRANSPARENT. The finest July apple. Yellow in color, juicy, sweet and tender. It's hard to beat Yellow Transparent for eating and cooking. Exceptionally hardy, bears young, and is loaded with apples every year. The first yellow apple to ripen.

STAYMAN'S RED WINESAP. Bigger and better than the old-fashioned Winesap. Juicy, dark red, large in size; makes an excellent long keeping market, cider, eating and cooking variety.

FREE GIFTS With Your Garden Seed and Nursery Orders, See Page 2.

MORE MAIN CROP APPLES

ORCHARDISTS: If you are planting more than 100 fruit trees of any variety, please send us your variety list as we can often make lower prices on large quantities.

BEN DAVIS. This is the great pollenizer for other varieties. You should have one of these to every 12 or 15 trees of other kinds. A Ben Davis to every dozen trees oftentimes doubles their yield. You can see why it is valuable. It bears young, too. The fruit is large size, red striped, good keeper.

DELICIOUS. This is the original Delicious Apple, one of our leading varieties everywhere. Sweet, crisp, juicy, and the finest flavored of all. A few years ago at the Minneapolis Fruit Show, Delicious grown in Minnesota were the outstanding apples on display. You can see it's extremely hardy.

JANET. (Improved Jeniton.) This is the apple which our grandfathers used to grow, except we have the improved variety, which is much larger than the small Jeniton. Will keep until the first of May. Especially fine for cider and eating. Very juicy.

NORTHWESTERN GREENING. Long keeper, keeping until April. Very hardy. Apples extremely large. Pale greenish-yellow. Excellent flavor. Fine for North.

RED WINESAP. Smaller and juicier than Stayman's Winesap, and a favorite everywhere. A good keeper; dark red and juicy.

TOLMAN SWEET. This is the sweet apple. Beautiful yellow color slightly tinged with red. Put away late in the Fall and keep until April. Unexcelled for baking, cooking, pickling and eating if you like this exceptionally sweet apple.

YORK IMPERIAL. A great home orchard tree. Tastes and looks about like Jonathan, but is better colored, the flesh a little more crisp and juicy.

WHITNEY. Our finest Crab Apple. Splendid for jelly, preserves, and pickles. Flesh sort of yellow, crisp, juicy, and nearly sweet. Ripens in late August or early September.

SUMMER APPLES—Early Season Varieties

DUCHESS. No apple is finer flavored than a juicy, red striped Duchess. Good eating and cooking apple. Bears large crops even in the extreme Northern apple sections. Very hardy. Fruits in August.

EARLY HARVEST. Pale yellow, season July. Very fine for eating and cooking. One of the very best apples for home use. Always bears a crop.

RED JUNE. The early sweet Red June is my favorite for early eating and cooking because it's the first apple in the summer.

FALL OR AUTUMN APPLES

FAMEUSE or SNOW. Everyone likes the crisp, snow-white flesh of the Snow Apple. Has a wonderful flavor. **Hardy, good keeper.**

Yellow Transparent and Wealthy described to the left.

Duchess

EARL MAY'S FAMILY APPLE ORCHARD

A Collection of our leading varieties. I recommend them to you. A lot of people want only large size trees. Well, here they are and they should continue to develop fastest for you. 8 trees—all large, 2-year old, branched and heavily rooted, 4 to 6 ft. size—for ONLY $3.89. Here's what you get:

2 Jonathan 1 Delicious
1 Grimes Golden
1 Whitney 1 Wealthy
1 Yellow Transparent
1 Anoka

8 For Only $3.39 Express or Freight

APPLES That bear way ahead of time

Great NEW APPLES

SHARON A new Super McIntosh. Better flavored and tested. Our own Iowa Experiment Station originated this variety and says it's most excellent for home planting and one that should be in every orchard everywhere. Fruits way into Minnesota so you know it's extra hardy. The flavor and quality is wonderful. It's a splendid keeper, crisp, juicy and tender and the tree is very disease resistant.

JOAN You get more fruit per tree per year from Joan than any other variety that is now known. It is hardy enough to produce fruit as far north as St. Paul and Minneapolis. It's fruiting in the Black Hills of South Dakota. Somewhat similar to the Jonathan and has a characteristic bright red color with just a little green showing on top. Has a wonderful eating flavor and is also good for cooking. Joan is another Iowa State College apple which is proving very popular wherever it is planted.

Prices for Anoka, Joan, Sharon, Red Cortland	Size	Per 4	Per 10	Per 25	Each
Express or freight, 2-yr. heavy	4-6 ft.	$2.25	$5.40	$12.95	$0.59

DOLGO The WONDER CRAB

For Jelly—Pickling —Flowers

A wonderful new jelly and pickling crab. Bears young, oftentimes within 2 or 3 yrs. after being planted. It has a brilliant flaming red color, is good sized and cone-shaped.

YIELDS HEAVY CROPS

Bears heavy crops when very young. One peck of fruit can make 42 glasses of jelly and 9 quarts of jam without the addition of other pectin, simply adding sugar and water. It's a beautiful flowering tree, too. It's covered with pinkish red blossoms. Plant Dolgo for jelly, pickling and flowers.

Red Cortland

Prices for Dolgo Crab	Each	Per 4	Per 10
Postpaid 3-5 ft.	$0.49	$1.85	$4.30
Postpaid 2-3 ft.	.39	1.45	3.30

GRIMES GOLDEN

The most popular yellow eating apple. A fine, juicy, spicy Grimes Golden makes the finest baked apple, the finest apple pie and the tastiest sauce. They have a very fragrant, spicy aroma and are crisp, tender and rich in juice; flavored much different than any other apple. **Same price as other apples on Page 4.**

Anoka

Apples One Year After Planting

ANOKA Earliest Bearing APPLE

PLANT SPRING 1939 — SMALL CROP FALL 1939 — BIG FULL CROP FALL 1940

This is the earliest and heaviest bearing apple we know. Anoka has a record of bearing 8 big crops of apples from a tree only 10 years old. You get lots of apples quickly when you plant Anoka. The fruit is large, red and yellow streaked, of excellent quality, very juicy and rich in flavor. It ripens in August but can be used several weeks before fully ripe. Unequalled for either cooking or eating. Stocks of this wonderful tree are short again this year so get your order in to me early. It's perfectly hardy in all climates and bears fruit even after 35 to 40 degrees below zero weather. Remember, it bears a big full crop only 2 yrs. after planting.

RED CORTLAND Another early bearing apple, Cortland is a fitting companion to Anoka as it comes into bearing very early, too. We have known of many trees producing fruit 2 yrs. after being planted. The fruit is similar to the McIntosh but I believe of better quality. It holds to the tree better, is a beautiful dark red, the flesh is fine grained, crisp, juicy, white, and firm. You are sure of a crop of apples every year from Cortland. Order and plant this spring, 1938; your tree will have some apples on it in 1940 and heavy bearing in 1941.

Grimes Golden

ALL SEASON CHERRIES

FOR THE FIRST TIME **New!**

"SWEET SEPTEMBER" Sweet Cherry

Bears Deliciously Sweet Ripe Red Cherries in September

Something New! A Cherry that is hardy, that produces sweet cherries and bears them in the fall. The tree blossoms at the same time as other standard varieties. We think it is a fitting companion to the hardy yellow sweet cherry, the Yellow Glass. They are an attractive dark red, are sweetly flavored, and the quality is excellent for eating fresh or for canning.

Often bears the second or third year after planting.

The original tree from which these stalks were produced now stands 30 feet high and has produced a crop year after year, even as high as 15 bushel which it produced in 1932. **The fruit is practically all sound and perfect in every way—no worms, rot, or leaf spot without spraying.** See picture in color, third cover.

The cherries hang on the tree over a long period of time as they do not rot but hang until picked. Try Sweet September—the wonderful new Fall bearing Cherry. U. S. Plant Patent No. 94.

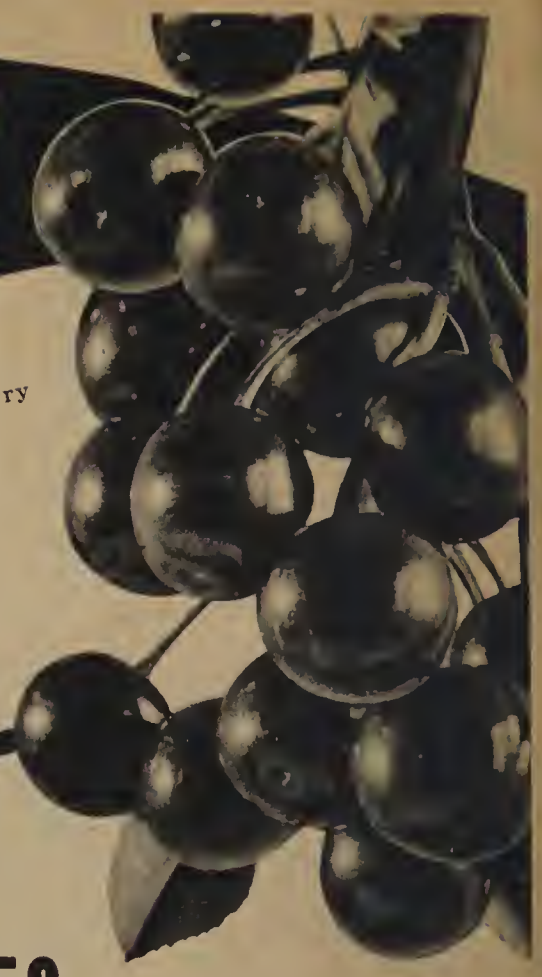
4 of our finest two-year old cherry trees, all about 2½ feet high.

1 Montmorency
1 Early Richmond
1 Hansen's Bush Cherry
1 English Morello

All 4 Postpaid. ONLY $1.59

If you order 2 collections, or 8 trees, we will put in one of the Yellow Glass hardy sweet cherries **free.** Price of the 8 trees and extra Yellow Glass, **$3.00,** postpaid.



Early Richmond

HARDY RED CHERRIES

They stand more dry weather than any other fruit tree!

Productive Everywhere—Drought Resistant

Cherries are our most dry weather resisting trees. They come into bearing young, make a crop every year and do better without attention than any other fruit tree. They will grow most anywhere in the U. S. Our Central States soils are just what cherry trees need for thrifty, vigorous growth.

Even as dry as it was last year, cherries produced a wonderful crop everywhere. These fine hardy Red Cherries are the country's leading varieties.

There is nothing finer than a good cherry pie made with fresh cherries. Can lots of them for winter use; use them fresh for sauce, preserve them too.

LARGE MONTMORENCY—The Big Red Cherry

These are genuine LARGE Montmorencies. Large size fruit and the tree is a very strong grower. Wherever a space of 10 to 20 feet is available, you can plant Montmorency. Montmorency is the perfect variety for pies, preserves and puddings.

They are refreshing, luscious, hardy, and sure bearers. A Montmorency when fully ripe is really sweet. Canning factories throughout the country prefer Montmorency and pay top prices for them. It ripens 8 to 10 days after Early Richmond. See third cover page.

ENGLISH MORELLO—The Black Cherry

This is the big, dark, wine-red Cherry. Wine rich in flavor, too. It comes on after Montmorency is done. A great canning variety, richly flavored with that tart, subacid, deep red juice. Wonderful for preserving, too.

EARLY RICHMOND—First in the Spring

Plant Early Richmond for your early crop of Cherries and Montmorency for a crop a week or ten days later. Early Richmond is a sure bearer; has fine flavor, juicy and extremely hardy. The fruit is round and dark red; the flesh, very tender and meaty. Also known as the early red pie Cherry.

Bears young YELLOW GLASS

The Golden Yellow Sweet Cherry

Extra Hardy—Productive—Vigorous Growing

The original Yellow Glass tree is standing right here in Shenandoah on one of my places. Bud stocks are taken from this tree each year so you get genuine original tree bud selection when you purchase Yellow Glass from me. Never has failed to provide a crop of waxy, golden cherries for the past 10 years. The tree is as beautiful as any shade tree. Gets about 30 feet in height and is simply loaded with those sweet flavored, golden yellow, solid color Cherries. The famous Yellow Glass is hardy everywhere south of Ames, Iowa. Try it! See picture in color, third cover.

The New Sensational HANSEN'S BUSH CHERRY

A New One All of Us Can Plant Everywhere

It May Bear Fruit This Year—Second Year Sure

Professor Hansen of the South Dakota State College at Brookings told me he considers this his greatest achievement in over 30 years of untiring selection work and hybridization. The Bush Cherry comes into bearing early. It may bear this year. It is the most remarkable fruit you have ever tasted for jams, jellies, and cordial, while the plants are bushy and rarely get over 4 or 5 feet tall; they are simply loaded with fruit. It is the most outstanding new fruit introduced in recent years. See page 2

HARDY PLUMS

Large sweet flavored plums. Wild plums are generally small but these new improved domestic varieties I offer have wonderful flavors and are larger in size. They are very healthful and eating them gives you vim, vigor and vitality.

Plant two or more varieties of plums together so the blooms of each can fertilize the other. They bear much better if this is done. Plant 15 to 20 feet apart. If the fruit sets on too heavily to ripen easily, shake part of it off.

Notice Our 2 Super Hardy Varieties on Page 8

They are real beauties and excellent eating

Hardy Hybrid and Improved American Plums

Superior Flavored Varieties

Often bear first year after planting. Always loaded with delicious fruit.

	Size	Per 4	Per 10	Per 25	Each
Exp. or freight, 2 yr.	4-6 ft.	$1.70	$4.10	$9.45	$0.48
Postpaid, 2 yr.	3-5 ft.	1.35	3.20	7.50	.37

APRICOT PLUM. Think of a plum with a delicious apricot-like flavor. Wonderful for eating off the tree. The fruit keeps its fragrance and aroma when canned and made into jellies and jams. The fruit is reddish-purple; the skin is tender; pits are small; meat yellow; and fruit fairly large. Ripens the middle of August.

GOLDEN MINNESOTA. Here is a clear yellow skinned, yellow meated plum you will enjoy eating. It is very juicy, tender and sweet. Finest quality, small seeded, freestone. Ripens in August.

OMAHA. The great Nebraska plum. This tree bears lots of fruit most everywhere. I think it is the best native variety. Ripens middle of August. Fruit is large, dark red, flesh yellow, juicy and sweet.

OPATA. Middle of July. Fruit is purplish-red; green flesh, thin skin and small pit. Extremely early. Pleasant flavor, sweetly acid. Earliest of all plums.

SAPA. An excellent home and market variety. Purplish-black fruit and rich purple meat loaded with juice. Excellent for canning as the skin entirely disappears with cooking. Ripens late July.

UNDERWOOD—The Best Early Plum

Underwood comes into bearing early—sometimes the first year after being planted. The Underwood is large, cone-shaped, and has a rich red skin. The meat is golden yellow in color and is juicy, tender and sweet.

..DELICIOUS-- EXTREMELY HARDY

Generally Bear First Year After Planting Grow Anywhere and Everywhere

Omaha Plum

Golden Minnesota

Hardy European Plums— Varieties for the Central States

Exceptionally High in Quality—Splendid Market and Eating Plums

These varieties are very hardy and large bearers in the southern half of Central States. **These 3 same price as Japanese Plum. See below.**

BLUE DAMSON. This is the small Blue Damson Plum. Generally used for canning. Bears every year, fruiting in early September.

GERMAN PRUNE. Probably the best European Plum. Tree is very vigorous, producing large crops. A fine eating and market variety. Fruit is medium size, oval shape, purplish-black color, excellent flavor, very juicy. Ripens late August.

GREEN GAGE. Everybody likes this round greenish-yellow, rich, juicy, sugary plum. Medium size fruit, ripening the middle of August. It should bear a crop every year.

Compass Cherry Plum

Fruits Second Year Sure

Compass is hardy everywhere, neither a cherry nor a plum, yet it combines all of the good qualities of both fruits. Extremely hardy and produces fruit where others fail. You folks in Kansas, Nebraska, Wyoming, Montana, the Dakotas, Minnesota and other places where extreme hardiness is necessary in a fruit will find Compass gives you more perhaps than any other variety you can plant. It makes wonderful preserves and cans well; the fruit is bright red, juicy, and has a tart flavor; larger than our hardy cherries when fully ripe. It is dark red in color.

	Size	Per 4	Per 10	Per 25	Each
Exp. or freight, 2-yr. heavy	4-6 ft.	$1.70	$4.10	$9.45	$0.48

Imperial Japanese Plum

IMPERIAL JAPANESE PLUM

Superior in Size, Flavor and Quality

These are similar plums to those you have been getting in the grocery store. Large in size, dark reddish-purple and of wonderful eating quality. Its deep yellow flesh is very firm, yet it is juicy, sweet tasting and freestone. Though comparatively a recent introduction to the Central States, yet it is proving very popular. Ripens late in August and is our hardiest variety of Japanese eating plums. Especially recommended for delicious eating. A new sweet, satisfying flavor you will enjoy.

Fredonia Grape

Portland Grape

SWEETEST, NEWEST, BEST GRAPES

CACO Sweet red. The best, hardy, red grape for home gardens or vineyards. It is sweet, is rich wine-red in color, makes wonderful juices and wine, and bears a large crop. Ripens 10 days to 2 weeks before Concord. A richer colored, richer flavored grape. Has stood 35 degrees below zero and still produced a crop.

FREDONIA The sweet black grape. Ripens early—10 days before Moore's Early. Its flavor is delicious; it's juicy, sweet and the fruit ranges larger than Concord. Fredonia is a great one for all of us to plant and fruit will soon be the leading black grape.

PORTLAND—The White Sweet Grape

Portland is the earliest of all grapes to ripen. The fruit is large, white and has a spicy luscious sweet flavor you will enjoy. Portland Grapes in my Farm Orchard bear every year, are very sweet and can be eaten before fully ripened.

Youngberry

Red Wing Plum

Waneta Plum

TWO SUPER HARDY PLUMS

Tried, Tested and Proven Most Satisfactory

RED WING

Among all of the varieties of hardy hybrid plums produced by the University of Minnesota Fruit Breeding Farm, Red Wing seems to be among the best. It's a large plum, solid red in color; I have seen them this year 2½ inches in diameter. It is yellow meated, very firm and sweet. It ripens early enough that it can be grown clear up to the Canadian line and still give a wonderful crop of plums. If you are looking for a plum that simply melts in your mouth with its juicy sweet flavor, Red Wing is the one you want.

WANETA

The fruit is very large, often 2 inches in diameter. Very deep red in color, yellow flesh and a delicious flavor. Perfectly hardy and a rapid grower. At age of four years it is not unusual for a Waneta to produce four bushels. Excellent for eating off the tree. Ripens middle of August.

	Size	Per 4	Per 10	Per 25	Each
Express or freight, 2 yr.	4-6 ft.	$1.70	$4.10	$9.45	$0.48

Try YOUNGBERRIES

FOR UNUSUAL FLAVOR AND LOTS OF FRUIT

(Loganberry and Dewberry Cross)

If you want something different in the fruit line, try this one. A heavy bearing plant. The fruit has a tasty, rich delicious flavor. Fine to eat fresh and makes wonderful sauce, too. The fruit is a handsome dark wine red in color. Tender and has no hard core. In the North it should be protected by covering with straw, leaves or a little dirt, over winter. Heavy selected tips.

Size	Per 5	Per 10	Per 25	Per 100
Heavy Selected Tips	$0.25	$0.40	$0.80	$2.89
2yr. Heavy Transplants	.50	.85	1.85	6.95

Eat GRAPES for Health

Famous Concord

Grapes Grow and Thrive Most Everywhere

I have selected only varieties which are hardy throughout this country. They grow and thrive even on poorest soil; in fact, ground too rich often produces vine growth rather than fruit. Concord, Caco and Moore's Early have records of surviving and fruiting after temperatures of 35 degrees below zero. Diet books say grapes are the most healthful of all fruits. The grape makes new blood, purifies the old blood and lengthens life many, many years. Grapes made into jelly, jam, juice and wine or canned whole and eaten as fresh fruit are hard to beat.

Get Fruit Next Year

In planting grape vines you want fruit as soon as possible. You get it by planting these heavy selected 2-year-old vines. They have a wonderful root system, are full of pep and vitality, and may bear for you next year. They produce big crops of big grapes year after year. My "How to Plant" book which is sent free with every nursery order tells you exactly how to plant and care for these vines. It tells you how to prune them, too.

Sweet, Tasty Luscious, Hardy

BLACK OR BLUE GRAPES

CONCORD. The greatest grape. It is the purest, sweetest and best of all. It is a well balanced complete fruit, containing all of the essential elements for maintaining the body at its highest efficiency. It is juicy, sweet, tender, hardy and most productive. Concord helps keep us immune from constipation, old age and disease. It is almost a "fountain of youth" in itself.

MOORE'S EARLY. Very early. Bunch is medium, berries very large. Its earliness makes it desirable for an early market, and it is particularly adapted to the northern portions of the United States. Ripens two weeks before Concord.

WORDEN. Worden is another seedling of Concord, but is sweeter, larger and the fruit will ripen about ten days earlier than Concord.

The Black Grape for the Extreme North

BETA. Beta is a medium sized black grape, quite acid, very early, prolific and healthy, and does exceptionally well far into the North. It is a very fine Grape for jelly, grape juice and wine. Beta is also a splendid Grape to use in covering arbors. Very hardy.

WHITE GRAPES

DIAMOND. Just as hardy as Concord. Very sweet and delightful flavor. Ripens ten days after Moore's Early. Recommended as one of the best white grapes for planting anywhere.

NIAGARA. This is the standard White Grape, occupying the same position among the white varieties as Concord among the blacks. Bunch and berries large, green changing to pale yellow when fully ripe. Excellent for arbors.

STRAWBERRIES · Flavors

BERRIES

Dorsett

DORSETT

An Early Royal Strawberry

A variety originated by the United States Department of Agriculture. A cross of Premier and Royal Sovereign. This royal blood makes it a brighter red than Premier, gives it a longer fruiting season and flavor and eating qualities even superior to the Premier.

Actual tests have proven that Dorsett will almost double the yields of Premier. 6,640 quarts per acre is the record of Dorsett. It's a large sized berry which ripens a little earlier than Premier and continues its bearing over an extremely long period of time. Order quickly as our supply of this new, reliable, heavy fruiting variety is limited.

FREE GIFTS—With Your Nursery Order. See Page 2

SENATOR DUNLAP

Greatest Berry for Us All

The old, reliable main crop strawberry for planting everywhere. Bears well every year, producing largest crops of good size marketable berries. Every home gardener, every commercial planter and every experimenter relies on Senator Dunlap as a sure producer every year. It's a great drought resister, too.

My extra select fruiting strain gives you all the productiveness of the original strain plus improved quality of the berries. The greatest main crop berry.

Almost the Year Around

Delicious, Sweet, Fresh Ones—From Your Own Garden

This has been a great year for strawberry production. Those who had a nice planting of these fine, hardy varieties had all the delicious, fresh strawberries they could use. You can have fresh berries from your own garden from early spring until freezing weather simply by planting an assortment of these best of all varieties.

The earliest ones in the spring are Fairfax and Dorsett. Senator Dunlap and Blakemore are the two leading main crop varieties. Mastodon, Gem and Wayzata give you big crops in May and June and large quantities of berries in August, September, October and November. Plant some of all of these and have fresh strawberries almost the year around.

Carefully Selected Fruiting Strains

My strawberry plants are selected and propagated from the highest yielding plants that have fruited true to name and have produced extra quality fruit. You get these extra quality and extra select fruiting strains at no additional cost to you when you order Earl May's Selected Fruiting Strains of Strawberry Plants.

When to Plant—Spring is Best

Plant your berries just as early in the Spring as you can get into the ground. That is the one best time to set them out. You can plant them on low ground; they like light soil. For garden planting set the rows 2 feet apart, plants 1 foot apart in rows.

You folks in the South can get your strawberry plants early in February and March. Usually we are able to take care of orders up until the first of May. Order early so we can ship early.

Different kinds of strawberries do not mix so June bearing varieties, such as Dunlap or Everbearing varieties like Mastodon can be planted together. All varieties I offer you are perfect flowered and do not need any other kind planted with them to produce fruit.

Fresh Dug—Shipped Separately

I send you only fresh dug plants. Strawberries are not shipped with other nursery stock. They are sent by themselves in open-end packages carefully packed to reach you in first class condition.

Senator Dunlap

All POSTPAID

that Satisfy

GEM—The Greatest Everbearer of All

Three Best Everbearers

GEM—Queen of the Everbearers

Gem has certainly proven itself a fit companion for Mastodon. The flavor is different. It is just as sweet and as highly flavored a berry as you could desire. Requires very little sugar for eating or canning. Gem has real size, larger than the ordinary berry. Even in the hot dry summer of 1936, Gem berries were large and fresh, bearing clear up until the cold freezing weather. You will be amazed with the number of berries you get from each plant. Gem produces as many berries as the old-fashioned Progressive but they are much larger, firmer, plumper and more uniform in size. They are just as large at the end of the season as they are when they first start to come on. The berry is firm, rich, sweet and practically coreless.

WAYZATA

The New Everbearer from Minnesota

Customers who planted Wayzata last year are enthusiastic about the wonderful crops of berries it produced. In spite of unusual growing conditions in many parts of the country, Wayzata has done a great job. The berries are just a little smaller than the Giant Mastodon or the Gem, but I believe they're a little sweeter and I know it makes more berries on each plant. Plants are still scarce. I offer you Genuine Wayzata; I think it will outyield any other Everbearer and its superb quality makes it a variety for all parts of the country.

I guarantee you will be more than pleased with the deliciously sweet flavor of this new superior strawberry. Bears early in the spring and gives you loads of fruit in the fall.

FAIRFAX

Extra Early—High Quality

Fruits over a longer period of time than most early varieties and a great yielder. One of the earliest berries known, and the berries average larger and are more fancy in quality than any other. The fruit is of the highest possible quality, a uniform deep red in color, rich in flavor and very sweet. A great variety for the home garden and a great money-maker for those who wish to plant strawberries for market.

Fairfax will help you cash in on the early berry market.

BLAKEMORE

Early Main Crop

Just a little earlier than Dunlap and a big vigorous growing plant. A heavy producer everywhere; has an exquisitely sweet flavor and is handsomely colored a deep red. A very firm variety, will stand rough handling, shipping and keeps extremely well.

Blakemore holds its color and flavor after picking and will keep two or three days without spoiling if left on the vines.

GIANT MASTODON

Bears 90 Days from Planting

Mastodon bears 90 days after being planted. Plant early in the Spring. Berries start coming on in July and continue clear down until freezing weather. Superior to any other Everbearing Strawberry except Gem. Mastodon has set a record of producing berries in the past few dry years. It has come right along year after year producing a big crop of Spring berries and another crop in the Fall clear down until snow flies.

King of the Everbearers

Mastodon is King because more Mastodon are planted than any other everbearing variety. Though Gem is a comer yet Mastodon is still the biggest selling market and home garden berry. It is extra large, sweet, juicy and every plant is a bearer. They're frost proof, too. They grow big and rank so the blossoms and berries are protected from frost and from the hot scalding sun. They work day and night, never tiring of producing berries for you. It is necessary to clip the blooms or runners on Mastodon. Let them do as they please and they will produce larger and better crops for you.

Early Bearing Heavy Fruiting BERRY PLANTS

RASPBERRIES

Grow lots of raspberries. They're easy to grow; they're hardy practically everywhere; they thrive and grow in almost any soil. Plant 4 ft. apart in rows 6 ft. apart. As soon as black caps have fruited the old wood should be cut out. Thin out the canes of the red varieties each spring to 5 or 6 per hill. Pinch the canes of black raspberries when they reach a height of 2 ft. You may plant red varieties twice as thick as black caps if you wish.

BLACK RASPBERRIES (Black Caps)

Sweet and Delicious Fresh or Canned

Two-year plants are heavier and bear more fruit quickly than one-year tips. The two-year plants are winter hardened, are a year older and more satisfactory.

30 LARGE Two-Year Old Raspberry Plants

My Choice of All for the Most and Best Fruit

10 Chief—Earliest Red.
10 Latham—Biggest Red.
10 Cumberland—Largest Black.

Just right for your home garden. All hardy, heavy fruiting two-year old plants.

30 for ONLY $1.25 Postpaid

RED RASPBERRIES

The Three Finest and Hardiest

Prices on Chief and Latham, postpaid:

Per 5	Per 10	Per 25	Per 100
$0.25	$0.40	$0.75	$2.50

These are Selected Heavy Plants Generally Called 2-yr. Olds.

CHIEF. Earliest Red. At the Minnesota State Planting Farm, many consider it better than Latham because it yields heavier and is 10 days earlier. Produces more fruit than any other red raspberry and the quality is extra high. It has that brilliant red color of Latham and is equally firm, juicy and tasty. I consider Chief our best one.

LATHAM (The Biggest Red). Latham is one of the finest red raspberries for the entire country. A Minnesota production, extra hardy and bears tremendous crops of large size berries. The berries are large and solid and don't mush. Almost always bears first year.

FLAMING GIANT

Sensational Fruiting Red

Flaming Giant (Ohta) really proved itself this year in flavor, size, hardiness and color. It is unsurpassed; it is an excellent shipper. Supreme in quality for the home garden. They have that rich, alluring red color, firm flesh, and are hardy clear to the Canadian line. They fruit exceedingly well in the Middle West and clear to the South, too. Reports from some Southern States say that Flaming Giant has never been equalled there by any other red raspberry. A giant in size, flaming in color, and delicious in flavor.

Postpaid	Per 5	Per 10	Per 25	Per 100
Select Plants	$0.30	$0.45	$0.85	$2.95

NEW LOGAN

Early—Sweet—Juicy

Ripens about a week before Cumberland. It is a hardy, sturdy grower and the heaviest yielder of large, jet-black, sweet, juicy berries. Genuine selected heavy fruiting strain. **Same price as Cumberland.**

RUBY RED RHUBARB

New, different, strain of Rhubarb. Red all the way through. Twice as large as ordinary rhubarb. Plant some this year. Each **45c**; 3 for **$1.25.**

ASPARAGUS ROOTS

Grow Your Own Fresh, Healthful Asparagus Tips Quickly

Plant my two-year old extra heavy roots. Ordinarily you should be able to cut tips from them the second year. Asparagus is a complete food in itself. It is non-starchy, highly alkaline, and is a wonderful tonic. It is also a laxative and health builder of the highest quality. Plant on richest soil.

The Best in Asparagus

PEDIGREED WASHINGTON RUST PROOF

This pedigreed rust-resisting strain produces very large stalks. It might be called "cut and come again." Plant these two-year-old heavy roots and get 3 months of heavy production each year.

Postpaid	Per 10	Per 25	Per 50	Per 100	Per 200	Per 500
2 yr.	$0.30	$0.50	$0.85	$1.50	$2.75	$6.50
1 yr.	.20	.35	.60	1.00	1.85	4.00

RHUBARB (Pie Plant)

The first plant to furnish fresh sauce and pie in the spring is rhubarb. It grows from a root like a peony, and will last forever, or practically so. Rhubarb likes rich soil, and heavily manured soil will produce many juicy stalks. Plant in rows 4 feet apart with roots 3 feet apart in the row.

BIG SEEDLESS

This variety is practically seedless, and is propagated from root divisions and not from seed. It is juicier because the stalks do not spend their vitality and time in developing a seed crop. Stalks that do come from seed are inclined to get woody at certain times of the year. **20c** each; 6 for **85c**; 12 for **$1.50**, postpaid.

GIANT VICTORIA (Wine Plant). This is the largest and best of the seedling varieties. Good, heavy stalks, juicy stems. Rich wine red in color. 5 for **35c**; 10 for **55c**; 25 for **$1.00**; 100 for **$3.50**, postpaid.

10 for 55c Postpaid

Fresh Berries from your own Garden

My heavy fruiting grape vines produce grapes like these on my own farm. You, too, can have plenty.

Eldorado Blackberries

PLEASE NOTICE

IMPORTANT. If you live in the following States, please send us the legal description of land (taken from your Tax Receipt), where you will plant the Gooseberries and Currants you order—Michigan, Minnesota, Ohio, Wisconsin, New York, Pennsylvania, or New England States.

The Federal Government requires us to secure a Special Permit to ship Gooseberries or Currants into parts of the above States where White Pine Blister Rust Control Areas are established. There is no charge for this service but we must have this Legal Description of your land to secure the Permit for you.

CURRANTS

Best for Jelly

IMPROVED PERFECTION. Queen of all. These beautiful red currants with the long stems and bright red berries are the largest of all red varieties. Highest quality, too.

DIPLOMA. A great new currant from New York State. Very productive, of good size, red fruit. A fitting companion for the large fruiting variety, "Perfection."

Postpaid	Each	Per 5	Per 10	Per 25
2 yr. Heavy Select.. ..	$0.25	$1.00	$1.75	$3.95

FAY'S PROLIFIC. The leading market currant. Extra large stems and berries. Uniform in size and easily picked.

Postpaid	Each	Per 5	Per 10	Per 25
2 yr. Heavy Select.....	$0.20	$0.75	$1.30	$2.95

GOOSEBERRIES

For Pies, Jam, Sauce

A lifetime of fruit! My plants are full fruiting, easy to grow and produce abundantly. They grow well in full sun or partial shade.

DOWNING. The largest gooseberry. Downing is a large handsome pale green berry of splendid quality. I have seen Downing berries an inch in diameter. You can have them, too.

HOUGHTON. I like Houghton because it is sweet and tender. The bushes are always heavily loaded with fruit. Pale red when fully ripe.

JOSSELYN or RED JACKET. Also called the Old English Gooseberry. Slightly smaller than Houghton, being bright rich crimson in color and sweeter than either of these other two berries. Plant a few of these. I have and I like them.

Postpaid	Each	Per 5	Per 10	Per 25
2 yr. Heavy Select.....	$0.25	$1.00	$1.75	$3.95

BLACKBERRIES

The Dish of Kings

My blackberries are grown only from root cutting plants and are extremely heavy rooted and hardy. The fruit is simply delicious. Plant in rows 6 to 7 feet apart, plants 3 to 4 feet apart in the row.

ELDORADO. One of the very hardiest and best. Berries jet black, sweet and delicious. Excellent for eating, canning, cooking and market. Berries have no hard core and keep well after picking. Per 5, **25c**; per 10, **40c**; per 25, **75c**; per 100, **$2.65**, postpaid.

EARLY HARVEST. The old standby, very early. Does well in Missouri, Kansas, Oklahoma, Tennessee and Kentucky. Per 5, **25c**; per 10, **40c**; per 25, **75c**; per 100, **$2.65**, postpaid.

SNYDER. This is the hardiest blackberry grown. Fruit medium size, good market sort, will stand the cold winters of most any of the northern climates. Per 5, **25c**; per 10, **40c**; per 25, **75c**; per 100, **$2.65**, postpaid.

LUCRETIA DEWBERRIES (Coreless Blackberries). Sweeter, juicier and larger than blackberries. They are vigorous and hardy and the fruit is jet black in color. The bush is a vigorous grower, low trailing and resembles blackberries. My plants are grown from thrifty, vigorous root cuttings and are much superior to the ordinary 1-yr. or 2-yr. old plants. No. 1 Strong plants. Per 5, **25c**; per 10, **40c**; per 25, **75c**; per 100, **$2.65**, postpaid

BOYSENBERRY

You can see natural colored photographs of the Boysenberry on the inside back cover in this catalog. It has all of the flavors and good points of the Loganberries, Blackberries and Raspberries. The fruit averages one inch in width up to more than 1½ inches in length. The excellent flavor and firm flesh make it a favorite with those who have tried it. It should be mulched heavily over winter in the north; the fruit will repay you many times over for this trouble, however.

Postpaid	Per 2	Per 5	Per 10	Per 25
Heavy Select	$0.29	$0.60	$1.00	$2.25

HORSE RADISH

Selected Bavarian variety. Excellent for home use; easy to grow. The crowns are the whole root and will make hills the first year. The cuttings are piece roots. We can furnish either crowns or cuttings. Crowns, 5 for **60c**; 10 for **$1.00**; 25 for **$2.25**. Cuttings, **30c** per 10; **60c** per 25; **$2.00** per 100, postpaid.

SAGE PLANTS

The good, old fashioned kind that you use for seasoning sausage and in dressing for chicken, turkey and duck. Order a dozen plants as the home grown product is far superior in quality and seasoning to that which is grown and packed commercially. 3 for 40c; $1.25 per 10, postpaid.

HARDY NUT TREES

These Iowa Pecans I am offering are hardy in the Central West, will bear fruit and are very desirable.

IOWA PECAN. A medium soft shelled pecan of great hardiness that will fruit in Iowa. 2-3 ft., **85c** each; 2 for **$1.65**, postpaid.

PECAN SEEDLINGS

I have about 1000 Pecan Seedlings, 2-yr. old, 12-18 in. in size. I am going to offer these to you in lots of 6 for **$1.00**, postpaid, or 12 for **$1.85**, postpaid.

LARGE FRUITING MULBERRIES

The dessert mulberry. Excellent to eat. Birds prefer mulberries to cherries, so a few trees planted near the orchard will save your fruit crops.

DOWNING EVERBEARING. Bears large, black sub-acid fruit. Bears all season long. Good to eat. 5-6 ft. express size, **70c** each; 4 for **$2.65**. 4-5 ft. express size, **60c** each; 4 for **$2.25**. 3-4 ft. postpaid, **50c** each; 4 for **$1.85**.

For Your Backyard or Orchard

HARDY APRICOTS of Delicious Flavor

PEARS best varieties are easy to grow

Chinese Golden Apricot

Bartlett Pear

WILL BEAR FRUIT

Are Easy to Grow—Hardy—Sweet

These two fine varietles are just as hardy as the hardiest peaches. They will fruit over most of the Middle West. Our Chinese Apricot was fruiting this year in Southwestern Iowa. Plant one of each kind to get the biggest yield and the most delicious fruit. Plant apricots on a north or a west slope 15 to 20 feet apart. (See picture in color, third cover.)

CHINESE GOLDEN APRICOT. Hardiest of all. About 80% of the commercial Apricot plantings in Utah and Idaho are of this variety. Commercial planters like it because of its hardiness, its strong, vigorous growing habits, and heavy, early bearing qualities.

The fruit is all of the highest quality, deep yellow with a wonderful red cheek. The fruit is large, 2 inches in diameter, and by pruning the tree back each season, it produces heavy annual crops. The same Apricots that are used by commercial canners can be raised in your own back yard or your fruit orchard if you plant Chinese.

WENATCHEE. This is another new and very productive Apricot for the Middle West. We consider it superior to any other variety we have ever tried, except the famous Chinese. It's very hardy, too. Golden increases the productivity of both. Wenatchee is very sweet, and very delicious for eating off the tree.

SPECIAL low prices on these special feature varieties.

	Size	Each	Per 4	Per 10
Express or freight 2 yr..	4-6 ft.	$0.59	$2.15	$5.25
Postpaid 2 yr.	3-4 ft.	.45	1.50	3.59

Pears 3 to 4 ft. Size 49¢ Each Postpaid

Pears grow in almost any soil but do best in heavy clay loam or sod. Do not cultivate. Plant 18 to 20 feet apart. Plant two or more varieties so they can pollenize each other.

Standard Pears

The Vigorous Growing Kinds and Varieties

BARTLETT. A summer Pear; large, rich golden yellow with a soft blush. One of the finest for canning and shipping. Bartlett is the Pear by which all others are judged.

KIEFFER. The best known and most widely planted winter Pear, of extra large size. Rich golden color tinted with red. When full ripe is fine for canning and baking. The tree is a very vigorous and hardy grower.

SUGAR PEAR (Seckel). The delicious sweet satisfying flavor gives it the name of Sugar Pear. One of the best dessert and eating Pears grown. Small in size but rich in sugar sweetness. (See third cover.)

DOUGLAS. The Blight Proof Pear. A winter Pear of wonderful quality. Golden yellow in color with a faint blush on the cheek. The fruit has a small seed cavity and is large and uniform in size. The tree grows vigorously and produces large crops every year after starting to bear. Douglas bears early, too, so you can start getting fruit quickly. A hardy variety for the Northern States. Try it!

MENDEL. New, Super-Hardy. Requires no winter protection. Best by orchard test. A tree near Rochester, Minnesota, this year in the middle of September was simply loaded with fruit. The quality is extra good; the fruit is a trifle longer and larger than Bartlett; very sweet and juicy; its color when fully ripe is a beautiful golden yellow. You folks who want an extremely hardy pear, one that is blight resistant, just try Mendel —it is a pear for the North, South, East and West.

	Size	Each	Per 4	Per 10
Express or freight, budded 2 yr.....	4-6 ft.	$0.64	$2.45	$5.50

Grow Your Own Fresh Fruit

ABOVE: My Giant Seedless Rhubarb makes juicy, tender stalks like these in my own planting.
AT RIGHT: I certainly enjoy fresh, tasty plums. These trees are fruiting on my own farm.

Earl May's Hardy Flowering and Climbing VINES

Living walls of Beauty

Bittersweet

ALL VINES POSTPAID

All These Hardy Vines are Postpaid

Vines brighten up and cover barren walls, fences, trellises, porches and rockeries. Boston Ivy and Engelmann's Ivy cling to brick or stone without support. The other varieties have attractive flowers and berries. All are permanent, hardy and beautiful in their habits of growth. I offer you only the extra heavy two-year old outdoor nursery grown vines which will start giving you effects this year.

Vines for Shady Places

BOSTON IVY (Ampelopsis Veitchi). This is the small leaved Ivy that clings to brick or stone. Very effective for north side planting. Called by many, Japanese Creeper. It clings without any aid. **25c** each; 2 for **45c**; 4 for **85c.**

TRUE BITTERSWEET. Bittersweet is a native climber with handsome, glossy green leaves and very attractive orange colored fruit that comes and stays on all Winter. Great winter bouquets. **35c** each; 2 for **60c**; 4 for **$1.10.**

TRUMPET VINE. The orange-scarlet trumpet shaped flowers on the tips of the branches make a gorgeous show. A very strong vigorous grower. The flowers attract humming birds. **25c** each: 2 for **45c**; 4 for **85c.**

MADEIRA VINE. This popular old-fashioned vine will cover a large space in a short time. Fleshy heart-shaped leaves of light green; numerous racemes of feathery white flowers of delicious fragrance. Strong tubers. Grows best in sunny place. Take bulbs up in fall like gladiolus. 4 for **25c**; 12 for **60c**; 25 for **$1.10, postpaid.**

Honeysuckle Scarlet Trumpet

Clematis Paniculata

Vines for Sunny Places

ENGELMANN'S IVY. Plant this on the east, south or west. Will stand lots of heat and grows six to ten feet in a season. Will cling to brick, stone or wood without artificial support. Grows in practically every soil and is extremely hardy. **20c** each; 2 for **35c**; 4 for **65c.**

SILVER LACE VINE (Polygonum). A beautiful quick-growing vine, fine for pergolas. In the fall it is covered with foamy flower sprays, beautiful creamy white in color and will grow about 20 feet in a season. One of our newest and best hardy vines for you. **35c** each; 2 for **65c**; 4 for **$1.20.**

Wisteria

PURPLE. Grown from blooming plants so you will secure the true flowering varieties. One of the most handsome of the flowering vines for porches, trellises, etc. Has drooping clusters of pea-shaped, purple flowers. **33c** each; 2 for **60c**; 4 for **$1.15.**

Chinese Matrimony Vine

Prevents Washing or Erosion and Holds Banks

The best hardy vine for this purpose. Has a big mass of bushy roots which help hold the soil in splendid shape. It resists dry weather, grows on all kinds of soil and will stand severe trimming. Only **25c** each; 2 for **45c**; 4 for **85c.**

Honeysuckle

SCARLET TRUMPET. Fine for porches and trellises. Bright scarlet flowers, trumpet shaped. **25c** each; 2 for **45c**; 4 for **85c.**

Clematis

The most beautiful of all the Climbing Vines from a flowering standpoint. The large-flowering Clematis are unusually attractive for porch blooms. The small-flowered Paniculata holds the lead as a shade producer and an abundance of blooms, and its flowers have an unusual perfume. They need rich, deep soil, good drainage, abundance of water, and most important of all, they should be planted with the crowns three inches beneath the surface of the soil.

Large Flowering Clematis

Most beautiful of all, with large bell-shaped flowers. All of my large Flowering Clematis Vines will bloom this summer for you. 2 yr. plants. **60c** each; 2 for **$1.10**; 4 for **$2.00.**

JACKMANI. Large, very showy, rich purple flowers.

M. E. ANDRE. A large purplish-red flower, deep color.

Summer Flowering Clematis

"SCARLET-BELL." New. Large bell shaped, beautiful scarlet flowers. Very attractive foliage. Blooms late summer until frost. Vine hardy. **25c** each; 2 for **45c**; 4 for **85c.**

PANICULATA (Sweet Autumn Clematis). The sweet-scented white Clematis from Japan. Hardy. Blooms late August and September. Medium size blooms come in immense sheets. This vine is a wonderful sight when in full bloom. **25c** each; 2 for **45c**; 4 for **85c.**

Earl May's SHADE and FLOWERING TREES

Cool summers are yours if you have lots of shade around the house. Plant some of my shade trees. They have all been transplanted at least once and have mature roots. They are all specimens with big, heavy, thrifty roots and shapely tops. Be comfortable and plant lots of Shade Trees.

Fast Growers

Chinese Elm grows 6 to 8 feet a season. Not far behind it in rapidity of growth is the Moline Elm and American Elm. The Willows and Poplars are fast growing, too.

Unusual and Beautiful Trees

An unusual and outstanding flowering tree is Hopa, the Red Flowering Crab. For beauty, plant the Cut Leaf Weeping Birch, American Linden, Schwedler's Maple, American Sycamore and Fire Tree.

Chinese Elm

Quickest growing shade tree. Drouth resisting and hardy year after year. My Chinese Elm customers report unusual success with my trees. In spite of drouth, heat or alkali soil it grows from 6 to 8 feet per season. Where other trees die out, Chinese Elm thrives year after year. Temperatures way below zero as well as hot, dry temperatures, have no effect on Chinese Elm. It grows and thrives on light sandy soil, too. It is an ideal grower everywhere.

This strain of Chinese Elm I offer you is the genuine, small leaved Northern China type; the hardiest and most beautiful of all. It seems to grow a little quicker, too.

For windbreak, Chinese Elm gives the quickest and best results. Do not prune Chinese Elm, if you want them for a windbreak because their natural habit of growth is to make a dense, bushy growth from the ground all the way up.

These trees I offer you are nursery grown, vigorous rooted, have been transplanted, and I honestly believe that they will give you better results than any other Chinese Elm you can buy.

	Each	Per 4	Per 12	Per 25
5-6 ft. light	$0.29	$1.00	$ 2.75	$ 4.95
6-8 ft.	.89	3.25	8.75	17.50
8-10 ft.	1.25	4.50	12.95	24.50

Schwedler's Red Maple

Cut-Leaf Weeping Birch

Most Beautiful Tree of All

Plant Early

This is the tree with the beautiful white bark. It is a natural weeper. The young tree has speckled grayish-red bark which turns to white as the tree gets three or four years old. Our stock is spring-dug, fresh, and you should plant without exposing the roots to sun or wind. It's a good idea to wrap the Cut-Leaf Weeping Birch with wet burlap when planting and, of course, give it lots of water.

	Each	Per 2	Per 4
4-5 ft.	$1.50	$2.85	$5.50
5-6 ft.	1.95	3.75	7.25
6-8 ft.	2.50	4.75	9.00

MOUNTAIN ASH, EUROPEAN. A hardy tree, medium size, smooth bark and a regular, dense head. Usually covered from July until late winter with clusters of large bright red berries. Plant this tree for quick results.

	Each	Per 2	Per 4
5-6 ft.	$1.45	$2.75	$5.25
6-8 ft.	1.75	3.35	6.50

AMERICAN SYCAMORE. Also called the American Plane tree. With its large, handsome leaves, smooth light cream-colored bark, it is very interesting and most beautiful. It is a very rapid, straight, upright grower and hardy as far north as the Minnesota line.

	Each	Per 2	Per 4
4-5 ft.	$0.65	$1.20	$2.10
5-6 ft.	1.00	1.90	3.60

POPLAR, LOMBARDY. Grows tall and symmetrical; large leaves. Branches close to ground and for this reason is fine for screen purposes. In landscape work, breaks the monotony of lower round-top trees.

	Each	Per 4	Per 12
5-6 ft.	$0.25	$0.90	$2.25
6-8 ft.	.40	1.50	4.00
8-10 ft.	.69	2.55	6.95

NOTE: Transportation charges are prepaid on orders for nursery stock amounting to $10.00 or over. Ornamental trees under $10.00 by freight or express at customer's expense. All balled Evergreens are f. o. b. Shenandoah, Iowa.

WEEPING WILLOW, NIOBE GOLDEN. I like Niobe because of its graceful drooping form and lovely golden bark. Rapid grower with silvery under foliage, vigorous and hardy.

	Each	Per 4	Per 12
3-4 ft.	$0.35	$1.30	$3.50
4-5 ft.	.60	2.25	5.95
5-6 ft.	.89	3.35	9.50

HOPA RED FLOWERING CRAB. Compact and symmetrical. Hopa is covered with a glorious mass of deep pink or light red blossoms in the spring. Its foliage is pretty in the summer, while the reddish-colored bark brightens the winter landscape. This perfectly hardy tree flowers every year.

	Each	Per 2	Per 4
3-4 ft.	$0.69	$1.25	$2.35
4-5 ft.	1.00	1.90	3.65

MAPLE, SCHWEDLER'S RED. Hardy vigorous tree with red leaves in spring. Grows like Norway Maple.

	Each	Per 2	Per 4
5-6 ft.	$1.40	$2.60	$4.95
6-8 ft.	2.25	4.20	7.95

AMERICAN ELM

Chosen One of America's 3 Most Popular Trees

The National Life Conservation Society conducted a poll and the AMERICAN ELM was chosen by nearly three million American citizens as one of our 3 most popular trees.

The Big Tree Redwood was first with 788,115 votes: American Elm second, 754,756 votes; the Pine was third, 666,677 votes. As you know, the Redwood Big Tree is grown only in the Sierra Nevada Mountains, while the American Elm is and can be grown most everywhere.

A GREAT TRIBUTE TO A GREAT TREE

These American citizens have paid a wonderful tribute to this great tree. The best tribute I can pay it is to say, "For roadside plantings, streets, avenues, boulevards and home; and for shade, nothing compares with the wide branched, spreading American Elm." Outside of Chinese Elm this is probably our most rapidly growing tree. It gives you lots of shade in just a few years after planting.

	Each	Per 4	Per 12
5-6 ft.	$0.45	$1.55	$4.35
6-8 ft.	.65	2.40	6.75
8-10 ft.	.90	3.35	9.50

FLOWERING RED BUD. Grows about 15 to 20 feet. Is a blaze of beautiful bright red flowers in May. One of these in a yard is a sight to behold. Hardy, vigorous; grows in symmetrical shape and sure to please.

	Each	Per 2	Per 4
2-3 ft.	$0.50	$0.90	$1.75
3-4 ft.	.70	1.30	2.50

My Prices Are Lower This Year

Grown Especially for Wind Break and Wood Lot

These splendid shade tree seedlings are nursery-grown, well rooted and vigorous. Those which are marked "postpaid" are postpaid. The larger sizes are F.O.B. Shenandoah, but if you add some of these to your nursery order amounting to $10.00 or more, I pay the express or freight on them to you.

How to Lay Out a Grove Planting

First, mark out your rows the desired distance apart, not less than 8 feet. Then, with the plow, run a furrow as deep as possible, throwing the dirt both ways. Next, lay the seedlings in the trench with the tops resting on one side. Then, with one horse run the plow along the opposite side to throw the dirt back on the roots. Next, straighten the trees and tramp the dirt firmly around the roots. **Chinese Elms** are the most rapid growing of all, and if left unpruned. they make a dense windbreak. Set **Willows** not more than 3 feet apart in the row. **Ash, Elm** and **Maple** are best set at least 8 feet.

Black Locust, Carolina Poplar and the **Willows** are good to plant in ditches to prevent soil washing. Order quickly as our stocks of **Black Locust** are not large and, on account of the many erosion projects, are in big demand.

Catalpa and **Osage Orange** make fine wood and fence posts. Plant them about 3 feet apart and then when they get up to fence post size, cut out every other tree.

Earl May's HARDY ORNAMENTAL

For Lawn and Windbreak Planting

I have planted 39 different varieties of Evergreens in my new flower garden here in Shenandoah. You can see exactly how these beautiful shapely evergreens look at all stages of growth. I can supply you with any size, any hardy variety adapted to our territory you want for windbreaks, hedges, formal gardens, rock gardens or foundation plantings.

Plant Transplanted Balled and Burlapped Evergreens for Quickest Growth

My Evergreens are all 3 and 4 times transplanted which insures a heavy root system that will develop a successful top growth. They are deep rooted, thus do not become loosened up in the ground in heavy windstorms.

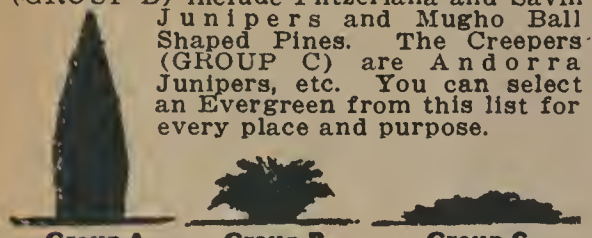
My "How to Plant" book tells you exactly how to plant Balled and Burlapped Evergreens. It is free for the asking.

Plant a Living Christmas Tree

Living, growing Christmas trees are the greatest modern Christmas touch. Plant your Christmas tree out of doors so you can light it up over the Holiday season. They will continue to grow and become more beautiful each year.

An Evergreen Type for Every Purpose

Most folks like the Junipers best for foundation planting. We have the Pyramidal Type Junipers (GROUP A) for corner, porch and accented plantings. In this group are Blue Cedars, Colorado Silver Cedars, Irish Pyramidal Junipers and Red Cedars. Spreading and semi-upright types (GROUP B) include Pfitzeriana and Savin Junipers and Mugho Ball Shaped Pines. The Creepers (GROUP C) are Andorra Junipers, etc. You can select an Evergreen from this list for every place and purpose.



Group A Group B Group C

Arborvitae

SIBERIAN ARBORVITAE. This is the hardiest of all Arborvitaes. It grows compact. The foliage is dark green in the light and bluish in the shade. It holds its color well during the winter. 18-24 in. **$2.25** each.

Japanese Yew

(Taxus cuspidata.) Fine for planting on shady side of buildings. Waxy, shiny, deep green leaves with bright scarlet berries. Good for Rock Gardens and foundation plantings. Very hardy. 18-24 in. **$3.45** each.

Junipers or Cedars

You can shear or trim all of these.

ANDORRA JUNIPER. Our finest Creeping Juniper. Beautiful silvery green foliage in the spring which turns to a rich bronzy purple in the fall. The Andorra Junipers in my home planting have stood these dry years in splendid shape and are a wonderful show. Creep right along on the ground. 15-18 in. **$2.60** each.

BLUE CEDAR (Virginiana Glauca). Is a rapid grower, specimen tree, becoming 15 to 20 feet high. Has a striking silvery blue color. 2-3 ft. **$4.25** each.

COLORADO SILVER JUNIPER. A native of Colorado, being very hardy, symmetrical and upright growing. The leaves have a uniform silver green color. The tree attains a natural height of 12 to 15 feet. 18-24 in. **$2.75** each.

IRISH PYRAMIDAL JUNIPER. An even growing upright type, similar to the Red Cedar but more compact, erect and pyramidal. It has bluish tinted foliage on the young shoots, is hardy but prefers a south or east side or partially protected planting. Does best in full sun. Mature height 7 to 8 feet. 18-24 in. **$1.85** each.

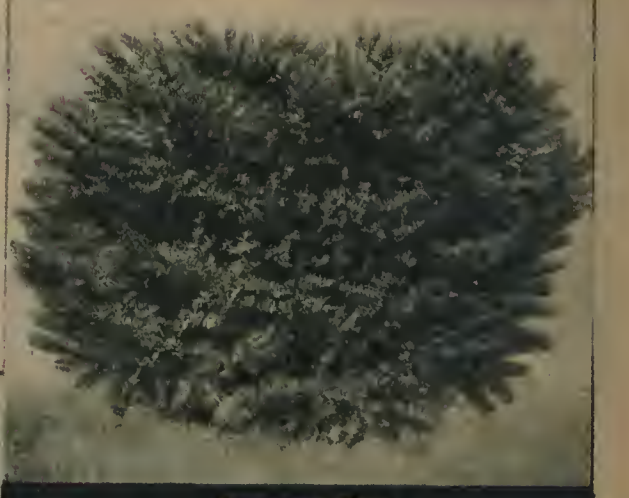
PFITZER JUNIPER. This tree grows in the form of a low inverted pyramid. Foliage is of a feathery type, uniform even green and thrives just as well in a hot dry situation as in the cooler temperature of the north. Will stand shade, too. 15-18 in. **$3.15** each.

RED CEDAR. America's best advertised Evergreen. Grows naturally in gravelly hillsides, will do well in poor, sandy soils. Pyramidal growing. Bears blue and silver berries. The foliage is feathery and deep green. 18-24 in. **$2.45** each.

SPINY GREEK JUNIPER (Excelsa Stricta). A dwarf growing upright Evergreen. Foliage is bluish green in color, the tree seldom reaches more than four or five feet high. A good one for foundation planting or rock garden. 12-18 in. **$1.65** each.

SAVIN TRAILING JUNIPER. Grows a trifle more upright than Pfitzer with fan-shaped branches. Is equally as hardy and has the same deep green foliage. Withstands smoky conditions in cities. 18-24 in. **$3.15** each.

Andorra Juniper



Japanese Yew

10 Fine Evergreens for $1.00, postpaid

All these nice ornamental evergreens have been transplanted one or more times. They will run about 9 to 12 inches in height; are properly labelled so you can tell exactly what each is; mailed to you at the proper time for planting, direct from our grower.

40 fine bushy evergreen plants

Only $1.20 Postpaid

(Value, $2.14)

EVERGREENS

Fir

CONCOLOR FIR. The silvery blue hardy fir. I think this is even a more beautiful tree than the Moerheim Blue Spruce. It is a strong upright grower, long lived and makes a beautiful specimen Blue Fir. 18-24 in. **$3.15** each.

DOUGLAS FIR (Abies). The foliage of Douglas Fir is an attractive, soft green color. It is a strong, upright grower, long lived, good for windbreak or specimen planting. Will grow anywhere in America. Reaches 60 feet in height and its branches will spread 12 to 18 feet. Branches slope slightly downward. 18-24 in. **$1.95** each.

Spruce

BLACK HILL SPRUCE. The hardiest of all spruce. Reaches 25 to 40 feet in height and the branches spread from 10 to 12 feet in each direction. A beautiful landscape tree, foliage varies from green to a bluish tint, and all trees are remarkable for their bright, live color. Makes an ideal living Christmas Tree. 18-24 in. **$1.95** each.

COLORADO BLUE SPRUCE. Everyone admires the beautiful color of this tree. Its blue color is brightest in late spring when the new growth develops. Colorado Blue Spruce should be planted as a specimen tree in the yard. Likes plenty of sunshine. 18-24 in. **$3.65** each.

MOERHEIM BLUE SPRUCE. Superior to all other Blue Spruce. This is without doubt the bluest of all evergreens. They retain their rich, bluish color throughout the entire season and are known as "shiners." These specimens are very compact growers and we cannot recommend them too highly. 2-3 ft. **$7.25** each.

NORWAY SPRUCE. A very hardy windbreak tree. It branches close to the ground, is a rapid grower, grows from 1 to 2 feet each season. The color is a deep green, makes an excellent windbreak and the ultimate height is 60 to 80 feet. 18-24 in. **$1.65** each.

PRICES—Balled and Burlapped Evergreens in most cases will have to go by freight on account of their bulk and weight.

VARIETY	Size	Each	Per 2

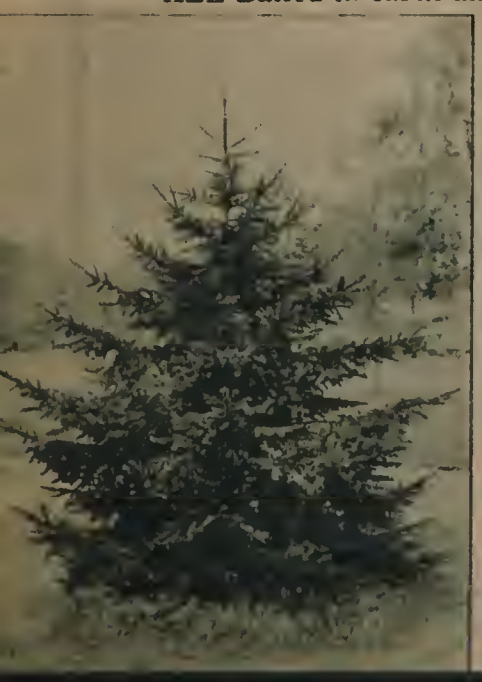
These prices are Freight or Express Collect, boxing free. My stores all carry a complete assortment of popular varieties and sizes of freshly dug evergreens in the planting season.

ALL Balled in earth and securely burlapped.



Norway Spruce

Black Hill Spruce

Austrian Pine

Mugho Pine on my own place. Can you locate my son Edward?

Pines

AUSTRIAN. I consider this our finest windbreak tree. I have a windbreak of these on my own farm. I find it a very compact grower, long medium growing needles. Stands lots of heat and is extremely hardy and dry weather does not seem to hurt it at all. Austrian Pine will reach a height of 60 to 70 feet. 18-24 in. **$2.15** each.

MUGHO DWARF PINE. Dense, low growing tree. Plants are thickly covered with heavy, dark green needles. Mugho Pine never grows over 3 to 4 feet in height and can be kept trimmed back so it creeps right along on the ground. Grows naturally in a dwarf ball shape. 15-18 in. **$2.60** each.

SCOTCH PINE. One of the hardiest of all Pines. Well adapted to the Farm Belt, makes an excellent windbreak. We sell thousands of trees every year for this purpose. Needles are short, light green in color, the tree is extremely hardy, of rapid growth and grows in practically any soil. Reaches a height of from 40 to 50 feet. 18-24 in. **$2.15** each.

SEEDLING AND ONCE TRANSPLANTED EVERGREEN TREES

Freshly Dug—Perfectly Packed—For Windbreaks and Hedges

Here you are! Selected, freshly dug evergreen Seedlings (S) and Transplants (T). Line out these Seedlings in the garden or in beds for the first two years and care for them just like you would cabbage plants. Cultivate very shallow. Give them shade the first year. Laths running north and south about an inch and a half between each lath makes ideal shade. Transplants, with reasonable conditions and care, can be transplanted in their permanent location. Simply shade them by placing a shingle on the south side a few inches away from the plant. This gives protection during the hotter part of the day.

The smaller Transplants (T) are cheaper in the long run than Seedlings (S) and I would rather see you plant them. However, they are all thrifty, vigorous, well rooted and in fine shape for shipping early in the season. Mulch these smaller evergreens the first year early in the Fall, using lots of straw or leaves around the base of the tree.

Evergreens for Windbreaks

We advise 8 feet apart in a single row, 10 feet apart in two rows, 14 feet apart in three rows. The ideal windbreak is a four or five row windbreak, planted 14 feet apart in the row and the rows 20 feet apart. Every other row should have the trees planted even with the open spaces of the previous row, in other words, zig-zag.

Postpaid Delivered Prices

These Evergreen Seedlings are shipped by parcel post, these prices being postpaid, and they come to you in a separate package direct from the grower.

Earl May's PEONIES

The Best "Blue Ribbon" Varieties

Largest Flowers—Best Varieties—Prize Winners

Live and Bloom a Lifetime

It is not unusual for you to get large flowers 8 to 9 inches across in these newer and better varieties. These good peonies cost you no more than common ordinary sorts. My reputation for good peonies is nation-wide.

HIGHEST RATING IN ALL AMERICA

Among these splendid peonies you will find some of the highest rating peonies in the country. When these bloom for you they will be the sensation of your neighborhood. In the official rating system 9.5 and up is practically perfect, 9.0 to 9.5 is extra fine, 8.5 to 9.0 is extra good, 8.0 to 8.5 is good. We put the rating on each peony so you can see what the National Peony Society thinks of these varieties I offer you.

LOWEST PRICES ON GREAT BIG, VIGOROUS GROWING, 3-YEAR OLD ROOTS

ORDER NOW!—I wish to call to your attention the fact, friends, that peonies can be planted successfully in the spring. They get a six months' start over fall planted roots.

ALL THESE PEONIES ARE LARGE AND DOUBLE

YOUR CHOICE, any 4 for $1.00, POSTPAID

THE BEST IN PERENNIAL PLANTS

Every perennial I offer you is a strong, hardy, outdoor nursery grown plant. They have been transplanted, which gives them a heavier, bushier root system and gives you better flowers quicker.

Sure to Bloom This Year

Plant this spring—get flowers this year. Guaranteed to arrive in perfect condition. Perennial plants are packed perfectly and shipped by themselves so they reach you in the finest possible condition for planting. If not, notify me within 30 days and complete replacement will be made without question.

Perennials should not be planted after May 20th.

ARABIS ALPINA. A bushy, compact, little plant growing 6 inches high, covered with multitudes of pure white flowers in June. A beautiful rock garden plant.

ARTEMESIA SILVER KING. A compact, beautiful, silvery foliaged plant. Grows about 3 ft. high. Fine for mixing in winter bouquets.

Aquilegia or Columbine

Our finest perennial for early flowers and early cutting. Blooms profusely in May and June, preferring partial shade.

MRS. SCOTT ELLIOTT'S HYBRID STRAIN. Very long spurred flowers in wonderful shades of lavender, mauve, blue, purple, white, cream, yellow, pink, and red.

CRIMSON STAR. A new color in Aquilegia. The plant carries lots of flowers which are very large. Crimson center, crimson spurs, and pure-white petals. **29c** each; 2 for **50c.**

IMPERIAL HYBRIDS. Described on page 25 and pictured in color on page 26.

Rose Cushion

Beautiful—New—Unusual!

Think of a bushy low-growing densely compact flowering plant, perfectly hardy, and covered with scarlet flowers. An unusual rock garden plant, too.

ALL POSTPAID

Canterbury Bells

Hibiscus or Marshmallow

Old-Fashioned Bleeding Heart

As hardy as the peony and easy to grow. Its graceful, drooping branches are covered with many heart-shaped lavender rose colored flowers in May. Prefers a moist, shady location. Blooms this year. **35c** each; 2 for **60c,** postpaid.

FERN LEAVED EVERBLOOMING BLEEDING HEART. Described on page 25 and pictured in color on page 26.

FREE GIFTS with Your Perennial Order. See p. 2

Delphinium

Prices: Your choice of any perennial on pages 22 and 23 (unless otherwise priced).

2 for 35c 8 for $1.00 postpaid.

Your choice, assort them any way you wish.

Canterbury Bells or Campanula

Does best in partial shade. Covered with lovely bell-shaped flowers all along the stems. Grows 2 ft. high. Your choice of colors—**blue, rose, white.**

Fireflame Carnation—Everblooming

Fragrant, brilliant red, and hardy. The color dazzles you; the spicy fragrance pleases you. Colorful in your garden all summer long.

HARDY CARNATIONS. Described on page 25 and pictured in color on page 26.

Hibiscus or Marsh-Mallow

Marvels of size and color are these Rose Mallows, Marsh-Mallows or Hibiscus. Large as a good sized plate; fine for damp places. Your choice, **red, pink** or **white,** with crimson eye.

Shasta Daisy

GIANT ALASKA. Selected strain of the largest freest flowering daisies. Large white flowers suitable for cutting. Will make a wonderful bank of snow white in your garden. Almost everblooming. Plant in full sun; hardy; grows 2 ft.

DIENER'S DOUBLE WHITE. Large, full double flowers of glistening white make this unusual and outstanding. Hardy, strong growing. Blooms over a long period of time throughout the summer. **29c** each; 2 for **50c.**

Sunburst—New Double Coreopsis

A bigger and better yellow daisy for you. Double flowering, blooming in June and July.

Delphinium

BELLADONNA CLIVEDON. Beautiful larger blooms, taller spikes, and filled out more. An unusual sky blue Delphinium.

BELLAMOSA LA MARTINE. The superbly developed Bellamosa variety. Deep blue with a yellow eye.

DREAMS OF BEAUTY. Described on page 25 and pictured in color on page 26.

NEW and HARDY HYBRID CHRYSANTHEMUMS

Early Blooming

Aladdin

The Chrysanthemum of Perpetual Beauty. Hundreds and hundreds of beautiful gold bronze flowers in bloom from August to Thanksgiving. Wonderful for cut flowers, too. I think Aladdin is the best Mum of all. 2 for **49c;** 6 for **$1.19,** postpaid.

PINK CUSHION. Described on page 25 and pictured in color on page 26.

Achievement

Easily the most outstanding plant introduction for 1938. Achievement comes into bloom early and is in bloom for 6 weeks or more. Full, double to the center, and comes in shades of bronze and pink all on the same bush. A bronzy pink cushion. **70c** each; 3 for **$1.65;** 10 for **$4.50,** postpaid.

Aladdin

Achievement

Glorious Mum Collection

They All Bloom This Year

Korean Hybrid Mums, Extra Hardy

A Riot of Color

A great new race of Mums, unusually brilliant colored and different. They start blooming the latter part of September and continue until hard freezes.

The Korean Mum Collection

APOLLO. Great sprays of wonderfully formed flowers clothe the plant in orange-red and salmon coloring.

CERES. Looks like a bush of gold. Brightens the garden in the fall.

DIANA. Rosy pink blended with lilac rose and soft salmon. A dainty Korean Hybrid Mum with three rows of petals.

MARS. Another Korean Mum. Wine-red in color. A distinctly striking variety for fall flowers.

All 4, one each of the above Hardy Hybrid Korean Mums, postpaid for **95c**

Your Selection **29c** each; 4 for **$1.00,** postpaid.

See pages 25-26 for other Mum selections.

LOWEST PRICES—all transplanted

Hardy Outdoor Ferns

Large clumpy plants which are easy to grow. Plant in light soil with a little loam and leaf mould worked in. A mulch of old leaves and plenty of moisture helps, too.

An ideal spot for your fernery is a place where no sun penetrates. They'll thrive on the north side of your house along the foundation, too. Plant them deep enough so they'll be well covered, and set 8 to 10 inches apart.

OSTRICH. An erect grower with long graceful green plumes.

GOLDIE'S. An arching and spreading type. A vigorous grower.

MAIDENHAIR. One of the rarest of the hardy ferns; stems are blackish green and the foliage is a very rich green. The fronds are long and heavy.

Your Choice—2 for **39c**; 6 for **$1.00**

Hardy Fern Collection

12 of the above, assorted varieties, my selection, prepaid by parcel post for **$1.59**

I guarantee to please you with this assortment.

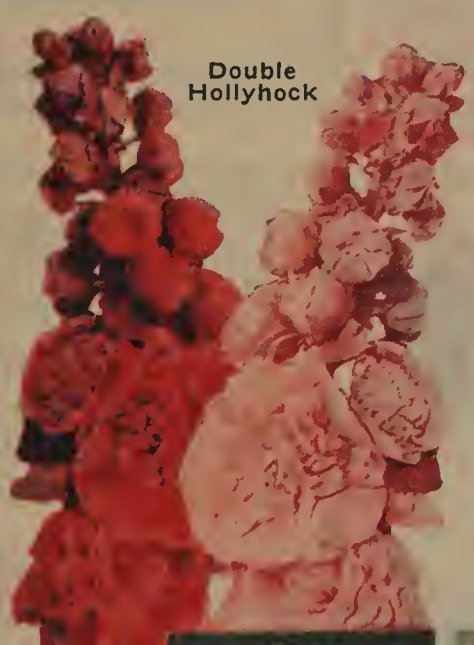
Wrexham Hollyhock Hybrids

Giant in size. Extraordinarily long spikes growing tall and robust like the Double Hollyhock. Blooms over a long period of time and in many shades and colors.

29c each; 4 for **$1.00**, postpaid.

Improved Double Hollyhock

Selected strain of large full double flowers, lovely to look at all summer long. Colorful pillars of bloom. Your choice of colors, **red, white, yellow, and pink.**



Double Hollyhock

Gaillardia

NEW ENGLISH. This strain is exceptionally free flowering. Different shades of orange, yellow and red. They thrive in dry weather and bloom from June until November.

BURGUNDY RED. Blood-red. A new thrill for flower lovers. Brilliant, almost blood-red flowers of even larger size than New English strain. A blaze of beauty in the garden throughout the summer. 2 for **39c**; 6 for **$1.00.**

Painted Daisy

Dark Red Painted Daisy or Pyrethrum

Beautiful shades of darkest red. Cut off the flowers and they will keep on blooming.

Foxglove

These popular biennials bloom from June through July. Your choice of **purple, rose,** and **white.**

Funkia Caerulea or Plantian Lily

Desirable for rock garden planting. The broad green leaves are very attractive. The plant carries spikes of blue flowers in August and September.

Gypsophila or Baby's Breath

PANICULATA. Has feathery panicles and small, starry, white flowers that come in great quantities during early summer. Gypsophila is prized for its cutting. One of the leading perennials and one of our biggest sellers. In planting, choose a permanent position where it can grow without being disturbed.

BRISTOL FAIRY. Described on page 25 and pictured in color on page 26.

Gypsy Queen—Colorful Lupines

Flowers spike often 3 ft. long and as big around as a large cup. The largest improved bush lupine. All colors, assorted. 2 for **39c**; 6 for **95c.**

Hardy Fragrant Spice Pinks

The everblooming hardy pink with its ich, spicy, clove-like odor. All colors, ose, pink, pink and white. crimson, etc., n a grand mixture.

Sedum

Excellent for rock gardens and borders. The dainty little plants will charm you with their unusual foliage arrangement.

ALBUM. Grows 6 inches high. Dwarf and spreading with thick, waxy, round foliage and white flowers.

EWERSII. Blue-gray leaves and large heads of rosy purple flowers borne on 8 to 10 inch stems.

SEXANGULARE. Very dark finely cut green foliage. Grows 4 inches high.

Sempervivum or Hen and Chicks

TECTORA. Reddish brown tipped leaves. Flowers pale red.

GLAUCA. Blue-green leaves and lots of chicks.

TERNATUM. Olive green tipped brown.

Geum

Hardy Sweet Pea

Geum or Fire Opal

A Beautiful Dazzling Scarlet Flower

Very double, large, unusual and blooms all summer long. The flowers stand out from the foliage like a bed of fiery red coals. **29c** each; 4 for **$1.00**, postpaid.

Hemerocallis Thunbergi

Day Lily

Very different from the old-fashioned tawny Day Lily. This variety, Thunbergi, has bright yellow flowers which are borne profusely in July. You will like it, I am sure. 2 for **39c**; 6 for **95c.**

Calico Flowered Sweet William

Hardy, easy to grow, and give you lots of beautiful flowers. The flower heads are a solid mass of bloom in May, June, and July.

NIGRICANS. Darkest red.

PINK BEAUTY. Sparkling pink.

DONNETTS. Dark crimson. Double dark crimson. Variegated many-colored flowers.

BARGAIN COLLECTIONS
Shown in Natural Color
See Pages 25-26

Great Sea Lavender

(Statice.) One of the everlasting flowers. Leathery dark green leaves with purplish blue, small flowers that come in July and August. Cut and dry for indoor use the same as Baby's Breath.

Everlasting Hardy Sweet Peas

The flowers are large, wax-like and come in pink, crimson and white. They bloom from June to August. This trailing plant is suitable for arch, trellis, or fence planting, too. Your choice **Sapphire, Red, Pink Opal,** or **White Pearl.**

Yucca or Adam's Needle

FILAMENTOSA. A unique plant for your rock garden. It is a very symmetrical grower with stiff, sword-like leaves. The flowers are large, creamy white, coming in June, and are borne on tall, erect stalks. I have seen as many as a hundred flowers on one stem. Remarkably drought resistant. 2 for **35c**; 8 for **$1.00**, postpaid.

VARIEGATED or ZEBRA. Grows only 3 feet high. The sword-like leaves have a green streak through the center with yellow on each side. Has the beautiful flowers of the Filamentosa variety. 2 for **35c**; 8 for **$1.00**, postpaid.

FREE GIFTS

with your Perennial order. See these Gifts pictured in color on page 2.

Hardy Violets

FRY'S FRAGRANT or OLD ENGLISH VIOLET. Large and fragrant. Deep purple; blooming in May. 2 for **39c**; 6 for **95c**, postpaid.

Doubie Russian Violet

Different—New—Fragrant. The flowers are large, double, and extremely fragrant. They come on long stems In the early spring. They usually bloom again wlth cool weather in the fall and frequently during milder spells in the winter, blooms may be found beneath the leaves. **39c** each; 3 for **$1.00**, postpald.

Hardy Rock Garden Plants Special Collection

These 8 are best varieties for the rock garden. 12 Plants—postpaid. **$1.00**

See my other Phlox Collections on page 25 and pictured in color on page 26.

Fragrant Hardy GARDEN LILIES

Easy to Grow, Add Grace and Beauty to Your Garden

Lilies have a charm and beauty that no other flower has. They are easy to grow. Just give them good drainage and sunshine. Plant early; they will bloom for you this year. Instructions with each lily telling how to plant.

FRAGRANT LILIES OF THE VALLEY. Exquisitely perfumed and bloom early in April, with bell-shaped white flowers. Plant in a cool, moist, shady location and enjoy their delicate wax-like flowers and fragrance. Big clumps.

ROSY WHITE REGAL. America's most popular lily. Very hardy and easy to grow. Delightfully fragrant. Flowers pure white. Streaked on the outer surface with attractive coral pink. Truly a royal lily. Grows anywhere. Plant 9 inches deep.

SPECIOSUM RUBRUM (Red and White Show). The real show lily. Its brilliant flowers of carmine and white will make a truly colorful spot in your garden. Flowers August and September. Plant 10 inches deep.

RED RUSSIAN or FIRE LILY. Reddish-orange with 6 to 30 flowers in clusters on one stem. Just a mass of blooms in early June. Plant 8 inches deep.

NEW EVERBLOOMING PHILIPPINE LILY. Blooms from the middle of the summer on into fall. Its large trumpet-shaped white flowers are lightly shaded with copper on the outside with a green throat. Extremely fragrant. Plant 8 inches deep.

TENUIFOLIUM or ORANGE SCARLET CORAL LILY. You'll like this delicate, small-flowered lily. Very hardy. A beautiful orange-scarlet in color. Grows 18 inches high, blooming in June and July. Plant about 6 inches deep.

Here's my SPECIAL Bargain Lily Garden for You

One each of the 6 beautiful varieties—

Regal, Speciosum Rubrum, Yellow Show, Tenuifolium, Martagon or Royal Purple, and the **Hardy Philippine,**

for only $1.15 postpaid

See picture in color, page 41.

ROYAL PURPLE, NEW. Here's a new lily for your garden. A beautiful purple lily from old Scotland especially adapted to America. The tall, strong stems bear many beautiful purple wax-like flowers. Will grow in any soil. Plant only 4 inches deep.

HENRYI or YELLOW SHOW LILY. From the mountains of Central China comes this beautiful orange-yellow show lily. It thrives in any soil, giving you many beautiful golden blooms on tall, strong stems in July and August. Plant 10 inches deep.

BROWN AND PURPLE DOUBLE TIGER LILY. One of the most beautiful and easiest of all lilies to grow. Brilliant orange-red spotted with purple. The unusual double flowers make it one of the most beautiful garden lilies. Blooms in September. Plant 9 inches deep.

AURATUM or GOLD-BANDED. The largest lily of all. Milky-white with a handsome gold band down the center of each petal, thickly dotted with crimson spots. Blooms in August. Plant 10 inches deep.

Only **$1.00** Postpaid

Earl May's *Glorious* GIANT

REGARDLESS of where you live, what type of soil you have or how large your garden, you can grow Gladiolus. In my opinion, they are the finest cut flower that grows. There has been more improvement made in Gladiolus than in any other flowering bulb, except perhaps the Dahlia. They bloom in their array of colors during the midsummer season when other flowers are few. Cut them when the first bloom appears and make up into bouquets. The flowers will go right ahead and bloom the entire length of the stock and the bouquets will last for days.

Gladiolus come in practically every known color and they are one of the easiest flowers to grow. By all means, plant at least a few Gladiolus this year.

Plant the bulbs in reasonably rich garden soil in full sun from 4 to 6 inches deep. Dig the bulbs after the first killing frost and store in the basement as you do dry onions, until time to plant the next spring.

FREE BULBS—
FREE FERTILIZER
With Your Gladiolus Order

LARGE FULL SIZE FLOWERS THE FIRST YEAR

THE FINEST CUT FLOWERS OF ALL TIMES

The bulbs I send you are large, blooming size, clean and healthy, guaranteed to grow and bloom for you this year.

Plant HARDY SHRUBS *for Year Around Color*

A House Is Not a Home Until It Is Planted

I am always amazed at us American citizens. We will spend hundreds and thousands of dollars to build a house but very few of us develop the lawn and plantings around that house. It only costs a few dollars to plant shrubs and trees and they will last many years and make your home a place of beauty.

$5.00 Spent for Shrubs Adds $50.00 in Value

What investment can you make that will give you returns as high as 10 to 1? This is another great planting year. Weather conditions have been good. There is ample moisture in the soil; our shrubs are thrifty, vigorous and well rooted. They are heavy plants that will give you almost immediate show.

Planting Is Easy the Earl May Way

With my complete Planting Guide, which I send **free** with every order, you can easily give your shrubs the care necessary to insure complete success. This Guide was written by nursery experts and plainly illustrates and describes just how to prune the top and roots and just how to plant and care for your shrubs. I make it easy for everyone to have good luck.

TUNE TO **K.M.A.** DAILY AND LISTEN TO OUR **FLOWER PROGRAMS.** YOU GET SOUND ADVICE ON CULTURE, VARIETIES TO USE AND OTHER INFORMATION. **THERE IS NO CHARGE FOR THIS SERVICE.**

TRUEHEDGE BARBERRY

Grows Naturally —Perfectly Shaped

Truehedge Barberry is a perfect sheared plant from the day it leaves out. No bother of trimming; Nature makes this plant grow into a perfectly shaped tailor-made hedge. The specimen plants of Truehedge growing in our Flower Garden this year again caused unusual interest.

Looks Like Boxwood

Many people, when seeing **Truehedge,** mistook it for a Boxwood Hedge because of the symmetrical, upright shape and heavy, dense, deep green foliage. It is perfectly winter hardy, dry weather resistant and **free from rust, too.**

As a pyramidal growing specimen plant in place of narrow, upright Evergreens it is perfect. It can be grown into perfect spires and pyramids to a height of about 5 ft. It is cheaper than an evergreen for pyramidal effect. Practically no trimming is required if you plant a hedge of Truehedge Barberry. (Plant Patent No. 110.)

BUTTERFLY BUSH · ILE DE FRANCE

Rich Purple—Blooms This Year

Adds Wealth of Color to Your Garden

Imagine the charm and splendid beauty of this rich purple extra large new Butterfly Bush with spikes 12 inches long. Think of a whole bush covered with hundreds and hundreds of these richly colored flower spikes! They are very fragrant and much hardier than the old-fashioned Butterfly Bush. They are vigorous growing, too. If mulched with leaves or straw over winter they will last a lifetime.

Extra Value — ONLY 29c Each

Ile De France

New Red Leaved Barberry

Barberry

BARBERRY THUNBERGI. (Japanese.) Grows anywhere and everywhere. A wonderful hedge plant. The foliage is a bright green; the ovai leaves turn to brilliant colors of orange and reddish-bronze in the Fall. Our Mayfair Park has a hedge of this beautiful Japanese Barberry bordering its edges. It keeps people from running across your lawn, when used as a hedge. Its slender, graceful branches are filled with scarlet berries from early Autumn into Winter. It can be trimmed any shape. **Does not carry rust.** Grows well in partial shade or full sun.

Heavy, Transplanted 2 Year Shrubs

12-18 in., 2 yr. ..... $0.10 each
18-24 in., 2 yr. ..... .28 each
2-3 ft. clumps ..... .33 each

For Barberry Hedge Plants, see Page 42

New Red Leaved Barberry

Easily grown, with distinctly red foliage. Its first foliage is a warm bronzy red; as the heat of summer comes, its red becomes a brilliant color. Autumn adds other tints to its richness. Completing its charm, an abundant crop of scarlet berries stays on throughout the winter hanging on the spiny twigs. Plant in full sun.

18-24 in. Heavy Transplanted ..... 45c each
12-18 in. 2 year ..... 19c each

Snowball or Viburnum

Those bushes of beauty you see in the spring are Snowballs. They grow fine in the shade, too.

OLD FASHIONED SNOWBALL. I am proud of this Snowball Bush in my own backyard. Over 5,000 blooms on it every year. It looks like a snow bank when in bloom. Ordinarily these grow about 6 to 8 ft. tall. Will grow everywhere, extremely hardy, flower abundantly.

12-18 in. ... 35c each 18-24 in. ... 45c each
2-3 ft. ..... 59c each

HIGHBUSH CRANBERRY. This is our American Cranberry bush. It is loaded with white flowers in May and is covered with clusters of red berries in the early fall. Grows 6 to 8 ft. in height.

12-18 in. .... 35c each 18-24 in. .... 45c each

Here's the famous Snowball Bush and its 5000 blooms

MAKE YOUR HOME BEAUTIFUL

Shredded Sumac

Plant Hardy Shrubs

Fall Blooming DESMODIUM—Purple Flowers in the Fall

It blooms in late August and September. One of the most attractive shrubs for late blooming that I've ever seen. Grows about 4 ft. high; very bushy, compact and **blooms this year.** Heavy 2-yr. old plants, **25c** each.

ALL SHRUBS POSTPAID

SHREDDED SUMAC (Fern Leaved Staghorn). This is the beautiful, tall growing, finely cut shrub with fern-like foliage. It colors brilliantly in the fall. The branches are covered with down. 18-24 in., **30c** each; 2-3 ft., **40o** each.

Snowberry—The Shade Shrub

SNOWBERRY WHITE. Bears many delicate pink flowers followed by large clusters of beautiful white berries in the Fall. Grows well in extreme shade. Extremely hardy. 12-18 in., **15c** each, 18-24 in., **20c** each.

SNOWBERRY, CHENAULTI. This new shrub has fine, delicate, gracefully drooping branches. Flowers are bright pink and followed by masses of bright red berries which hang on a long time. Improved Coral-berry. 12-18 in., **18o** each; 18-24 in., **22c** each.

Hardy Hydrangeas

Friends, these are the most popular and finest flowering shrubs for shade, partial shade or sunlight. They are hardy anywhere but prefer moist soil and a partly shaded location.

HYDRANGEA A. G. "Hills of Snow." This is commonly called Snowball Hydrangea because the flowers are very similar to those on Snowball shrub; the blooms are white and round and of a snowball nature. Blooms the latter part of June and flowers come in great clusters. 12-18 in., **33c** each; 18-24 in., **45c** each; 2-3 ft., **55c** each.

HYDRANGEA P. G. (Giant Flowered Hydrangea.) This is the true, large flowering variety with the large panicle-shaped blooms. Grows 6 to 8 feet tall, blooms in August and September. They are without doubt the most beautiful of the hardy outdoor shrubs and will succeed in anyone's yard anywhere. Blossoms are first snow white, then pink, then turn a reddish bronze. If cut when blooms turn a pink color, and hung upside down in the house, they make very beautiful winter bouquets and hold that color until the following Spring. Big, heavy rooted, outdoor grown plants. 12-18 in., **29c** each; 18-24 in., **35c** each; 2-3 ft., **49c** each.

FREE GIFTS with Your Shrub Order—See page 2

Hydrangea A.G.

White Snowberry

Golden Elder

The best shrub for a big space, for it's a vigorous grower. A beautiful yellow foliage makes it outstanding. Has lots of white flowers on it, too, followed by masses of berries, which attract the beautiful colorful birds to your yard. Very hardy. 18-24 in., **33c** each; 2-3 ft., **39o** each.

Syringa Mock Orange

No garden is quite complete unless it has some of these old-fashioned sweet smelling, hardy shrubs. A strong grower in the sun or partial shade.

VIRGINAL. Almost ever-blooming. A magnificent new variety literally covered with loads of fragrant double white flowers. It is something new and different, quite distinct from any other variety of Syringa. See illustration, Page 34. 12-18 in., **22o** each, 18-24 in., **33o** each; 2-3 ft., **45o** each.

SWEET MOCK ORANGE (Coronarius). Grows 10 to 12 feet tall. Blooms in very graceful sprays. Large, white flowers, delightfully scented. Blooms in May. 12-18 in., **15c** each; 18-24 in., **19o** each; 2-3 ft., **29o** each.

DEUTZIA

GRACILIS. A slender branched, dwarf-growing, dense, bushy shrub. White flowers in May. 12-15 in., **29c** each; 15-18 in., **35o** each.

PRIDE OF ROCHESTER. Earliest, blooming in May. Many large, double white flowers. Grows about 6 feet tall. Popular on account of its regal appearance. 12-18 in., **15c** each; 18-24 in., **22o** each.

For all season blooms PLANT THESE

PINK FLOWERING ALMOND. Covered with masses of clear pink flowers, coming early during Tulip-time, even before its leaves are full grown. Covered from the bottom to the tip of the branches with sweet rose-like blooms. Medium sized shrub. 12-18 in., **29c** each; 18-24 in., **37c** each; 2-3 ft., **49c** each.

BEAUTIFUL BEAUTY BUSH. A handsome new ornamental shrub from China. Resembles both Weigela and Honeysuckle. Grows 6 to 8 ft. high when matured, producing long, arching branches covered with clusters of pale pink trumpet-shaped flowers with orange veins in the throat. Very hardy. 12-18 in., **33c** each; 18-24 in., **43c** each.

PURPLE VITEX OR THE LOVELY CHASTE TREE. This new shrub for the Middle West does exceptionally well in any good soil and with a little mulching is hardy in the Farm Belt. Grows about 4 feet in height and is covered with lilac or lavender flowers and heavy, dense spikes in the late summer and early Autumn. **Blooms this year.** 18-24 in., **33c** each.

THE FRAGRANT FRENCH LILAC

Generally Bloom the First Year

Buy All Four and I'll Give You 1 FREE

You may select any one of these but if you buy each one of the 4 in color I will put in one of the Famous Mme. Lemoine, which is a large, pure snow white. These do not root-sucker as they are grown on a special non-suckering root stock.

Many times these beautiful and unusual colored French Lilacs bloom the first year you plant them. They are extremely fragrant and extra hardy, too. Strong 12-18 in., 2-yr. All 5, including the one free Mme. Lemoine and one each of the others, postpaid, ONLY **$2.00**

Each **50c**, postpaid.
No discounts on these Low Prices

CONGO. Reddish-purple or wine red.
PRES. GREVY. The finest azure blue.
BELLE DE NANCY. Large splendid double rose pink. One of the best pinks.
SOUV. DE LUDWIG SPAETH. A rich large purple. A wonderful Lilac.
MME. LEMOINE. Large pure snow white.

Forsythia

The early yellow flowering bushes that you see in the Spring. They make beautiful shrubs and hedges, too.

INTERMEDIA — GOLDEN BELLS. The earliest blooming of all shrubs. Comes on early in the Spring. Vigorous growing, with spreading tendency. 4 to 6 feet in height and covered with beautiful canary yellow blossoms. 12-18 in., **18c** each; 18-24 in., **22c** each; 2-3 ft., **33c** each.

Golden Bells

JAPAN FLOWERING QUINCE
Earliest Blooming Red Flowers

Blooms very early in the Spring. The flaming red flowers make it look just like a blaze of fire. Often called "Firebush." Very hardy; blooms early; blooms young. Has little thorns on it and grows about 6 ft. tall. 12-18 in., **18c** each; 18-24 in., **22c** each; 2-3 ft., **33c** each.

Japan Flowering Quince

PURPLE LEAF Flowering Plum

Unusual, dazzling, reddish-purple foliaged bush or tree. The foliage grows very dense. It makes an attractive bushy shrub or tree. An excellent tall hedge or screen plant, too. 18-24 in., **43c** each; 2-3 ft., **59c** each.

Purple Leaf Plum

SAVE MONEY. Big Discounts. See Page 30.

PLANT HARDY SHRUBS *for a Lifetime of Flowers*

The Hardy Spireas

Here are the choicest of the Spireas. They're extremely hardy. The foliage always looks nice. They're easy to grow and they all flower beautifully.

CALLOSA ALBA or **DWARF WHITE.** Compact, bushy, and thick growing is this one. Blooms from June until Fall. Plant with Anthony Waterers to get red and white flowers at the same time. 12-18 in., **17c** each; 18-24 in., **25c** each.

THUNBERGI (White Feathery-Leaved Spirea). The first Spirea to bloom. Flowers in April and May. The foliage colors brightly in the Autumn. A compact growing, shapely, medium height bush. 12-18 in., **25c** each; 18-24 in., **35c** each.

YELLOW NINEBARK. The yellow flowering Spirea. The leaves are a golden yellow. After the flowers come on they're followed with orange colored beautifully shaped pea pods. 18-24 in., **25c** each; 2-3 ft., **35c** each.

SPIREA SORBIFOLIA (Ash Leaf Spirea). Fern-like leaves of unusual beauty. Long feathery panicles of beautiful glistening white flowers come in June and July. Grows 4 to 5 feet tall. You will see it pictured in color on page 34. 12-18 in., **30c** each; 18-24 in., **40c** each.

This Snowball growing in my yard had more than 5000 blooms on it last spring. That's Mrs. May and Edward standing with me admiring it.

Large Flowering Bridal Wreath
(Spirea Van Houtte)

I consider this the very best shrub for individual planting or hedge planting. Generally known as the leader of ornamental shrubs for hardiness. Will stand drought; does not winter kill. Its graceful branches are covered with a blanket of pure white blooms from May up until June. Many use it for hedging purposes. See pictured in color, Page 34. **(No discounts from these prices.)**

Red Bark Dogwood

Red Bark Dogwood
(Siberica)

When shrubs and trees have lost their leaves, Dogwoods are still beautiful because of the color of their bark—coral red—and the blue berries covering the bushes. Our feathered friends, the birds, love the Dogwoods because of their berries. Dogwoods are very vigorous, growing and thrive in shady places. The bush, also, is covered with many white flowers in the summer. 12-18 in., **19c** each; 18-24 in., **29c** each.

Ever-Blooming Rouen Lilac

Almost an everblooming Lilac, as you will see flowers on it in the middle of the Summer and late in the Fall. Narrow attractive leaves and does not root-sucker. Has immense lavender purple panicles covering the bush in May. Dwarf Lilac reaching only about 6 to 8 feet in height. 12-18 in., **25c** each; 18-24 in., **35c** each; 2-3 ft., **45c** each.

Old Fashioned PURPLE LILAC
The Old-Fashioned Lilac of Your Mother's Garden

Bright green, large heart-shaped leaves. This bush is covered with many light purple blooms in large clusters. A wonderful shrub used as a background for smaller shrubs. Makes an attractive fancy flower hedge, too. 12-18 in., **19c** each; 18-24 in., **23c** each; 2-3 ft., **29c** each.

Summer Sweet or Spice Bush
Fragrant and Grows in the Shade

Some call this the Sweet Pepper Bush. It is very hardy, grows 4-5 ft. in height and is heavily covered with spikes of fragrant rosy white flowers in August. I offer this beautiful shrub to you at an extremely reasonable price. 18-24 in. size, **45c** each.

Indigo Bush
Large Flowers—Early Blooming

A beautiful hardy flowering shrub that is new in this territory. Extremely hardy. Has spikes of flowers about six inches long blooming in May and June. The colors of the flowers range from purple to pale blue and white. It is named Indigo shrub because of the lovely soft purple color of the flowers. 12-18 in., **19c** each; 18-24 in., **25c** each.

AMERICAN BEAUTY SPIREA COLLECTION
All Of Our Red Spireas

I offer you a collection of 6 (or 12) of my Red Spireas. Here they are:

ANTHONY WATERER (Red Dwarf). It is ever-blooming and makes a wonderful hedge. The flower is bright crimson and the bush hardly ever gets over 30 inches high. It is hardy everywhere. The bright crimson flowers are borne in clusters often 3 inches across and bloom from June on. See pictured in color, Page 34. 12-18 in., **15c** each; 18-24 in., **25c** each.

BILLIARDI. Grows about 6 feet high. Slender stems and lots of them. Blooms from July until September with dense spikes of rich pink flowers. Good for cut flowers. See pictured in color, Page 34. 12-18 in., **15c** each; 18-24 in., **20c** each; 2-3 ft., **30c** each.

FROEBEL or **RED BRIDAL WREATH.** Light crimson, semi-dwarf. Growing just a little taller than the Anthony Waterer. It has a characteristic red-like foliage. Blooms in May and June. 12-18 in., **20c** each; 18-24 in., **28c** each.

I will send you this Red Spirea Collection of 6, 2 of each of these 3 beautiful hardy shrubs, 12-18 in. size, 2-yr. old

for only 89¢ Post-paid

See Page 30.

Bush Honeysuckle (Page 34)

Holly Shrub

Hardy Holly Shrub

Hardy for the North. Grows 10 feet high, and is completely dotted with rich red holly berries that come on it in October and remain on it the entire winter. Plant two or more of these for cross pollination so you will get more berries. Some call it Ilex. 18-24 in., 49c each; 2-3 ft., 69c each.

Weigelas

Weigela thrive in almost any soil. Vigorous, strong growing, hardy, and free blooming in summer. An excellent shrub for Central States.

RED EVA RATHKE. One of the finest shrubs in existence. It blooms throughout the summer, flowering more abundantly in June. Dwarf in habit. I have three in my own yard. 12-18 in., **25c** each; 18-24 in., **33c** each; 2-3 ft., **39c** each.

PINK WEIGELA. (Rosea). A very popular shrub with trumpet-shaped flowers. Medium size. Varies from light pink to deep rosy red on the same branch. 12-18 in., **19c** each; 18-24 in., **23c** each; 2-3 ft., **29c** each.

PLANT LOTS OF THESE
They're Real Beauties

Sweet Scented Shrub

Sweet-Scented Shrub

CALYCANTHUS. The fragrant "All-spice." Blooms in June. Chocolate colored lilac flowers. Wood and leaves of a delightful fragrance. Strong growing 18-24 in., **29c** each; 2-3 ft., **39c** each.

Purple Fringe

RHUS COTINUS. The famous Smoke Tree. It is entirely covered in midsummer by mist-like clouds of tiny flowers light lavender in color and gives the impression of the bush covered with smoke at a distance. 18-24 in., **59c** each.

Rose Acacia

Beautiful carmine rose-colored pea-shaped flowers in clusters. Blooms always in June and oftentimes later in the summer, too. The leaves are like that of the Locust. 18-24 in., **35c** each; 2-3 ft., **45c** each.

Tamarix—Lace Tree

Feathery fern-like foliage. Good for either wet or dry ground. Cut them back each year to the ground. This forces additional growth and makes a dense bushy shrub.

AMERICAN SHOWY PURPLE TAMARIX (The Dark Green One). Dense grower, purplish-pink flowers midsummer. Red-brown bark. Quite hardy. 18-24 in., **18c** each; 2-3 ft., **25c** each.

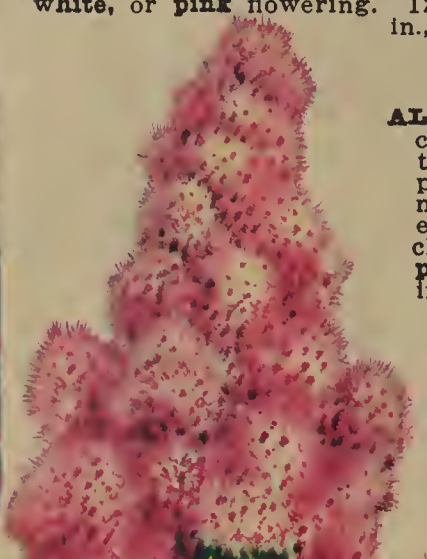
KASHGAR TAMARIX or HISPIDA. Distinct variety with delicate, bright pink sprays of flowers in June, July and August, a time when shrubbery is comparatively bare of flowers. Beautiful silver foliage. The most attractive Tamarix. 18-24 in., **25c** each; 2-3 ft., **35c** each.

Bush Honeysuckle

A favorite shrub everywhere because it is extremely hardy. In May and June it is covered with star-shaped fragrant flowers. They are followed by currant-like red berries which hang on for many weeks. A strong grower, reaching a height of 10 to 12 feet. Extensively used as a shrub background and as a screening hedge. See page 42. Your choice, **red, white,** or **pink** flowering. 12-18 in., **18c** each; 18-24 in., **22c** each; 2-3 ft., **29c**.

Ash Leaved Spirea (See Page 33)

Snowball (See Page 30)



Purple Fringe

Rose Acacia

Rose of Sharon

ALTHEA. The rose-like flowers come in September and cover the tree-like bush. They should be protected over winter if you live north of Shenandoah. The flowers are extremely double. Your choice of color, **red, purple,** or **pink.** 12-18 in., **18c** each; 18-24 in., **22c** each; 2-3 ft., **29c** each.

Plant the new roses

ROSE ARISTOCRATS WORTHY OF BEING PLANTED IN YOUR GARDEN

New Colors—New Fragrance—Hardiness

These Roses Are as Nationally Advertised The Best of the "Just Out" Roses

Selected from the Finest Roses of the Old World and the New

All of these roses give you the delicacy of the tea rose blossom and its intense fragrance plus the vigor and hardiness of new racial strains. New Roses! Certainly you'll want them this year.

No. 1—ROME GLORY. All the beauty of Dame Edith Helen with a new blazing cerise red color. A new rose bred for hardiness and beauty. The long stems bear large crimson red buds and lots of them. Plant Patent applied for. **Any 3 $1.00 Roses $2.50 prepaid. Any 3 $1.50 Roses $3.75 prepaid. Any 3 $2.00 Roses $5.00 prepaid.**

No. 2—COUNTESS VANDAL. Still a leader in beauty, hardiness, and flower production. The glorious coppery bronze flowers are suffused with pink and gold. Plant Patent No. 38. **$1.00** each.

No. 3—JEAN COTE. Deep brownish orange, full to the center. Fragrant and delicious looking. Plant Patent applied for. **$2.00** each.

No. 4—ECLIPSE. The bud is streamlined and rich gold without shading. Lots of blooms on long stems. Plant Patent No. 172. **$1.50** each.

No. 5—SIGNORA. The bud is warm burnt henna in color, opening something lighter. The plant is vigorous and tall growing. Excellent cutting rose with long stems. Plant Patent No. 201. **$1.50** each.

No. 6—McGREDY'S PINK. Beautiful, large, double strawberry-pink flowers with enough salmon and yellow added to liven up the coloring. As in all McGredy roses the bloom has real quality. Plant Patent rights reserved. **$1.50** ea.

No. 7—RONSARD. The most amazing color in a rose. The bottom is yellow but as the edges curl back they show deep scarlet-red inside. No other color combination like it. Lots of roses on each bush. Pat. applied for. **$1.50** each.

No. 8—BLAZE. The ever-blooming scarlet climber. Blaze is a living flaming glory. It starts blooming the second year producing a wealth of bloom. The flowers are even larger than Paul's Scarlet, its famous parent. Plant Patent No. 10. **$1.00** each.

No. 9—DOUBLOONS. This beautiful climbing rose is covered with Doubloons—gold coins of the Old Spanish Main. Extremely hardy and vigorous and produces lots of intense, lasting, rich golden colored flowers. Second group of blooms comes six weeks after the first. Plant Patent No. 152. **$1.50** each.

Copyright J. & P. Co.

All these roses are postpaid and all carry the Plant Patent Label as labelled by the introducer

Dear Flower Friends

Didn't the roses bloom beautifully last season? Have you envied your friends and neighbors their beautiful rose garden? No need now for you to put off planting your roses any longer. You can plant all of our varieties except the patented ones at extremely low prices.

I feel that of all flowers roses are first. My rose garden in the back yard has been simply beautiful all Spring, Summer and Fall. We have had roses for cutting, too. They just kept blooming and blooming. The roses I send you will do the same for you because they are the same kind that I plant.

You may wonder why I am so enthusiastic about roses. It is because I personally have looked over our roses and I know they have real quality and hardiness bred into them, and every rose true to name. America turns to Earl May for good roses and every rose I offer you is graded according to the standards set by the American Association of Nurserymen. This assures you of getting strictly first quality two-year-old, outdoor nursery grown roses.

This is the year to learn the pleasure roses can give you. My "How to Plant" book, which I send with each shipment, tells you exactly how to plant your roses for best results.

Yours for better roses,

Earl E. May

NEWEST AND FINEST EVERBLOOMING ROSES

Super Giant Size, each	37c	3 for 98c	10 for $2.95	Postpaid
Large 2-yr. Size, each	29c	4 for $1.00	10 for $2.25	Postpaid

LADY FORTEVIOT. The best new golden yellow marked apricot. Fragrant, large and double.
LEONARD BARRON. Large, full flowers. Buff pink tinted salmon.
SOEUR THERESE. Rich yellow with the outside petals marked carmine. The flowers are extremely double, well colored and grow on long stems.
SOUV. MME. C. CHAMBARD. New coral pink. The bushes are covered with loads of large, full, well-shaped blooms.
VICTORIA HARRINGTON. The newest velvety unfading dark red; in the bud it is almost black. As the flower opens, a golden sheen spreads from the center.

BABY ROSES

GLORIA MUNDI. Clusters of large, fully double orange-scarlet blooms.
GOLDEN SALMON. A mass of brilliant golden-orange — bloom all summer.
ELLEN POULSEN. Fragrant, fully double, bright rose pink.
SWEETHEART. Dainty, clear pink with golden yellow center.

Gruss an Teplitz Rose Bed
Lasts a Lifetime

Everblooming — Super Hardy — Will Bloom This Year

Gruss an Teplitz is the greatest bedding rose of all. It's super-hardy, blooms profusely all summer and fall, clear down until freezing weather. Comes on year after year.

Special Offer

Large 2-yr. Old Outdoor Nursery Grown **5 for $1.00** Postpaid

2 for 49c

"Hardy as an Eskimo" RUGOSA ROSES

Super Giant Size, each	37c	3 for 98c	10 for $2.95	Postpaid
Large 2-yr. Size, each	29c	4 for $1.00	10 for $2.25	Postpaid

A wonderful garden rose. Some one said the Rugosa would be hardy at the North Pole if roses grew there. After the first year forget about them. They take care of themselves, and produce flowers every year. 2 yr. old heavy selected plants.

AMELIA GRAVEREAUX. This is an intense double red, fragrant, all summer blooming Rugosa.
AUSTRIAN COPPER. Single flowers of intense copper-red. Back side of petals a bright golden-yellow. The bush is simply covered with these two-tone roses. Extremely hardy.
BELLE POITEVINE. Bright, clear lively pink. The blooms are large, full and double with gracefully incurved petals.
GROOTENDORST. This flower looks like a double carnation and grows in clusters. It is fragrant, bright red and the bush is vigorous growing and everblooming.
MRS. ANTHONY WATERER. Beautiful rich double crimson.
HUGONIS YELLOW. The old-fashioned hardy yellow garden rose. The branches bend under their load of semi-double bright yellow flowers.
SIR THOMAS LIPTON. A continuous blooming garden and cemetery rose, loaded with beautiful double white flowers

LOVELY ROSES *for everybody*

THEY ALL BLOOM THIS YEAR

A FASCINATING SELECTION OF GLORIOUS COLORS FROM WHICH YOU MAY CHOOSE

Every rose I send you is hardy, vigorous, outdoor nursery grown and well graded. Every rose is labelled true to name so you are sure of getting what you order.

Remember, these Rose Bushes will bloom this Summer.

Your Choice of All These:

Super Giant 2-yr. Plants	37c each	3 for	98c	10 for	$2.95
Large heavy 2-yr. Plants	29c each	4 for	$1.00	10 for	$2.25

These Are the Roses in the Picture

1. **WILLOWMERE.** The shell-pink rose, the loveliest one that grows. Free flowering, fragrant and hardy.
2. **HOOSIER BEAUTY.** Large double glowing crimson, shaded darker.
3. **MRS. SAM McGREDY.** The McGredy roses are among the finest in the world today. This one is scarlet, copper-orange colored rose, flushed red.
4. **MISS ROWENA THOM.** Rose and gold combination. Often 6 inches across.
5. **RED RADIANCE.** One of the best roses for the Farm Belt. Gives you an abundance of flowers all season long. Is very resistant to dry weather and may last a lifetime.
6. **MRS. E. P. THOM.** Purest canary yellow. Considered by rose lovers to be the best yellow rose today.
7. **EDITH NELLIE PERKINS.** Sweetly scented, pale salmon, half overlaid with gold.
8. **MARGARET McGREDY.** Orange scarlet; raspberry fragrance.
9. **IMPROVED AMERICAN BEAUTY.** An improved coloring of this fine, large cherry-red rose. Extremely hardy.
10. **KILLARNEY DOUBLE WHITE.** Big double white, wonderfully perfumed.
11. **LADY MARGARET STEWART.** Beautifully shaped large flowers and buds of a golden orange color. Flowers freely.
12. **HADLEY.** Large, deep crimson. Very fragrant.
13. **PAUL NEYRON.** Largest double clear pink. Often blooms 2 and 3 times a season. Extremely hardy.
14. **MRS. HENRY BOWLES.** Bright sparkling pink. Cup-shaped.

These are not shown in pictures but they are equally as beautiful as those which are.

COLUMBIA. Large deep fragrant rose pink.
LOS ANGELES. Coral pink toned golden yellow; and oh! so fragrant.
McGREDY'S SCARLET. McGredy's unusual, dazzling, perfumed red.
MEV. G. A. VAN ROSSEM. A perfectly perfumed large flowered beauty. The color is sort of an orange shaded yellow with the petals veined pink. A very unusual color combination. Everyone who knows this rose thinks it is one of the loveliest of all.
MME. JULES. BOUCHE. Double pure white with center shaded blush pink.
MRS. PIERRE S. DUPONT. Gorgeous golden yellow. Large full bud and flower.
OLYMPIAD. Cherry red with a yellow base.
OPHELIA. Called the thornless rose. The long pointed salmon buds are exceedingly fragrant and open to a delicate salmon pink.
PINK RADIANCE. One of our finest super-hardy garden roses. Intensely fragrant; cameo pink. Blooms all summer and in all climates.
REV. F. PAGE ROBERTS. Free flowered perfect roses. Fragrant; gold stained crimson.
SENSATION. The sensational red double rose.
SNOW QUEEN (F. K. Druschki). Mother's favorite white American Beauty. Blooms several times.
SUNBURST. A beautiful yellow-orange rose that is full, double and cup-shaped.
VATERLAND. Large double dark copper red, perfumed.

Glorious CLIMBING ROSES ABLAZE WITH BEAUTY

THOUSANDS OF FLOWERS

For Just a Few Cents

Super Giant 2-yr. Plants	37c each	3 for	98c	10 for	$2.95
Large heavy 2-yr. Plants	29c each	4 for	$1.00	10 for	$2.25

You may plant climbers on your porch, fence or trellis. These climbers are extremely hardy, last a lifetime and produce for you thousands and thousands of flowers every year. A few cents for a hardy climbing rose bush gives you these huge quantities of flowers.

CLIMBING AMERICAN BEAUTY. The hardy climbing type. America's most popular rose, the AMERICAN BEAUTY.

CRIMSON RAMBLER. Old-fashioned favorite. Always covered with big clusters of extremely double red roses.

PAUL'S SCARLET. The best blazing red climbing rose offered today. Hardy, vigorous and covered with blooms over a long period.

PRIMROSE. A double primrose yellow. Hardy climber. Is in bloom for weeks and weeks. Comes into bloom a little earlier than your other hardy climbers and lasts the season through.

2 Years Old | Dorothy Perkins Rose Collection

Dorothy Perkins Climbers are hard to beat. The bushes are loaded with thousands and thousands of blooms. An ideal collection of climbing roses if you want loads of flowers. Plant along the garden fence or give them a nice trellis to grow on. Very hardy. Your choice for only 25c each, postpaid, or 1 each RED DOROTHY, WHITE DOROTHY, and PINK DOROTHY.

Earl May's HARDY HEDGES Are Beautiful, Desirable and Practical

Spirea Van Houtte

Dear Friends: You've always wanted a hedge of beauty. You can have one this year. Hedges are easy to grow, easy to take care of and prices are very low this year. Hedges take the place of fences and are far more beautiful. All my hedge plants are thrifty, heavy rooted, outdoor grown. All can be trimmed or pruned to any shape you desire. For a dwarf hedge the Barberries are best; for a medium growing hedge I'd recommend Privet; for a tall hedge or a screen nothing can beat the old-fashioned Bridal Wreath.

THE BIG THREE

Barberry—low; Privet—medium; Bridal Wreath—tall

BARBERRY THUNBERGI (Japanese). Bushy, compact growing. Easy to grow and exceptionally hardy. Keeps people and dogs from running across your property, as it has thorns on it. Holds its foliage far into the late Fall when it turns scarlet or bronze in color; also bears red berries in the late Fall. The Red Leaved Barberry is the same as the Japanese only its foliage is a purplish-red.

AMOOR RIVER PRIVET. Hardiest privet of all. Has glossy green foliage; holds its leaves until very late in the Fall. Should be trimmed at least once a year, either in May or early June. Compact, symmetrical and beautiful in its growing habit.

BRIDAL WREATH or SPIREA VAN HOUTTE. Never out of place regardless of where it is planted. It is a compact growing upright bush with the canes bending outward with their loads of snowy white flowers.

Other Unusual and Popular Hedging Plants

RUSSIAN MULBERRY. A splendid hedge when kept trimmed. Many fine homes use Russian Mulberry hedging. It is also good as a hedge plant in dryer territories such as Western Nebraska, etc.

TRUEHEDGE BARBERRY. Requires no trimming to make a perfect shaped hedge as it is naturally nature sheared. Look at the true to life picture, page 30.

HARDY CALIFORNIA PRIVET (Ibolium). If you knew this privet you would want to plant it. It has an attractive dark green glossy foliage of the California Privet but is exceptionally hardy and can be planted in Southern Iowa, Nebraska and other Middlewest territories.

HONEYSUCKLE (Tatarian). An upright, compact grower with somewhat spreading branches and grows 10 to 12 feet high. Desirable for screens, shutting out unsightly scenes, or marking your boundary line. Blooms in May; the bright red berries appear and cling to the bush until Fall. We can furnish either **red, white,** or **pink.**

BUCKTHORN. A very hardy and dense tight ornamental hedge. Properly sheared will give a very formal effect, one of the best hedges for the north.

CARAGANA (Siberian Pea Tree). Excellent Hedge for Cold, Dry Regions. Extremely hardy hedge plant for the North and West where hot winds and drought often prevail. Numerous, twiggy branches are set off by showy lenticels and fine, light green leaves; small, bright yellow blossoms in the spring. Will develop a splendid screen or background.

Japanese Barberry Hedge In Our Display Park

Earl's Hedges Make a Show Quickly

POSTPAID PRICES on All Hedge Plants	Size	Per 10	Per 25	Per 100
Barberry, Jap. (2 yr.)	12-18 in.	$0.55	$1.15	$ 3.75

	18-24 in.	.30	.50	1.60
Caragana	12-18 in.	.40	.85	2.40
Honeysuckle Tatarian, Red, White or Pink		1.00	2.25	8.25

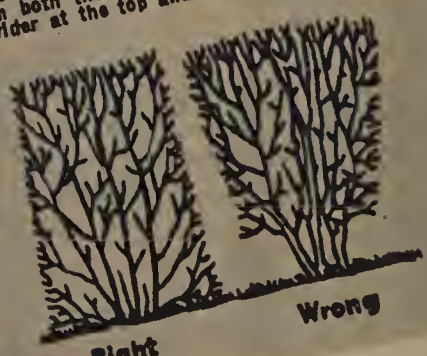
No discounts from above prices

Spacing Hedges

Privet and similar upright varieties, 6 to 12 inches apart. Barberry and other medium and tall bushy shrubs, 1 to 2 feet apart.

How to Trim Hedges

At planting, cut tops of privet and other low growers back to 4 or 6 inches above the ground. Each spring the hedge can be trimmed back to desired height and width. Frequent trimming during early summer will make the hedge dense. Trim both the sides and the top or else the hedge will grow wider at the top and become open at the bottom.



All Postpaid

Amoor River Privet in depot park—Shenandoah

Earl May's LAWN GRASS SEED IS NATURE CURED

My Heavy Seed Makes Weed-Free Lawns

VIGOROUS GROWING
DEEP ROOTED
DROUGHT RESISTING

Lowest Prices

Kentucky Blue Grass

(Extra Fancy New Crop)

The best hardy lawn grass and is the base of every good lawn grass mixture, combining it with quick growing dwarf grasses. Kentucky Blue Grass is dark green in color, forms close, thick turf and makes the finest permanent lawn. This deep rooted, hardy grass makes a rich velvety green carpet. The best known grass for lawns and pastures. **30c** per lb., 3 lbs., **75c**; 5 lbs., **$1.15**; 10 lbs., **$2.00**, postpaid.

You can depend on my vigorous, choicest, clean, nature-cured new crop seed to give you a beautiful rich green lawn all summer.

FREE LAWN GRASS LEAFLET

It tells all about the preparing of the seedbed, the building of a new lawn, improving an old lawn as well as the general care of your lawn grass. I send it free with every order or I'll send you one if you write for it.

How Much to Sow

For new lawns sow one pound of seed for every 200 square feet. To thicken up old lawns sow one pound to every 400 square feet.

Feed your lawn with fertilizer. Seed your lawn with good seed. Write for my free lawn making leaflet.

CANADIAN BLUE GRASS. Will grow on poor, dry, sandy soil. Some say it will stand more dry weather than Kentucky Blue Grass. I would advise mixing this with Maypark Mixture, half and half, for lawns in Western Nebraska and Western Kansas. Very hardy. **40c** per lb., 3 lbs., **$1.10**; 5 lbs., **$1.75**; 10 lbs., **$3.25**, postpaid.

RED TOP. Solid fancy seed. Beautiful, luxuriant, quick-growing. Makes a dense sod. Is especially desirable where lawns cannot be given extensive care. **30c** per lb.; 3 lbs., **75c**; 5 lbs., **$1.15**; 10 lbs., **$2.00**, postpaid.

BERMUDA GRASS. The lawn grass used in the South. It withstands drouth and scorching sun better than any other grass. Makes a good growth on poor sandy soil. Heavy dense carpet that requires very little attention except clipping. Will winter kill in the north. **40c** per lb.; 3 lbs., **$1.10**; 5 lbs., **$1.75**; 10 lbs., **$3.25**, postpaid.

ASTORIA CREEPING BENT. This new Bent grass has both the creeping roots and creeping tops. Produces a handsome compact rug-like spongy turf. Unlike ordinary Bent Grass it requires but very little more care, watering and clipping than Kentucky Bluegrass. Fine seeded. Write for my special Bent Grass Seeding Leaflet. **$1.25** lb.; 3 lbs., **$3.25**; 5 lbs., **$5.25**; 10 lbs., **$9.50**, postpaid.

BENT GRASS PLUGS. Bent Grass Plugs are 1½ inch cubes of Bent Grass sod, cut from a field of perfect conditioned Creeping Bent turf. When planted according to directions that come with each package, they will produce a lawn of uniform color and texture the first season.

The Astoria Bent Seed must be sown in early Spring or late in the Fall, but these Bent Grass Plugs can be planted anytime from April 1 to June 1 and from August 15 to November 1. After establishing a Bent Grass lawn you have no seeding expense or reseeding. It does make the finest rich velvety lawn. One box plants 100 square feet. Postpaid for only **$1.25.**

WHITE DUTCH CLOVER. The little three and four leaf clover especially fine for lawns. Makes a close, compact growth and covers the ground like a carpet. Quick growing, thrives on any soil and enriches the soil. **50c** per lb., 3 lbs., **$1.40**; 5 lbs., **$2.25**; 10 lbs., **$4.00**, postpaid.

MAYPARK

LAWN GRASS MIXTURE

Best for the Central West

"In 6 Weeks From Sowing It Is Ready for Mowing."

My Maypark Lawn Grass Mixture is a blend of the finest adapted grasses I can recommend to you. It has proven itself again and again and you can depend on it to give you a beautiful green lawn the first year. (See picture, description, and prices on the back cover.) Price: **30c** per lb.; 3 lbs., **75c**; 5 lbs., **$1.15**; 10 lbs., **$2.00**, postpaid.

Earl's Shady Lawn Mixture

No more trouble getting grass to grow in those shady spots.

My special prepared Shady Lawn Mixture is absolutely winter hardy and the best grass for the shady spots. I have tried and tested it myself. This mixture contains a large percentage of the new dense forest grass from Denmark, which requires no sunlight, and thrives in shaded locations. **40c** lb.; 3 lbs., **$1.10**; 5 lbs., **$1.75**; 10 lbs., **$3.25**, postpaid.

Greatest COMBINATION OFFER

FERTILIZER AND LAWN SEED

Earl May's GARDEN SEEDS

EARL MAY
PAYS THE POSTAGE

MY PRICES ARE LOW

possibly too low in the face of advanced cost prices everywhere, but I want to assure you that my seed is all of the very best quality, highest standard. I pay the postage on every item in this vegetable and flower seed section. Order early.

To My Vegetable and Flower Friends Everywhere

Well, we had a grand garden year in 1937, didn't we? The people in the Farm Belt filled up their vegetable cellars in most cases and had plenty of fresh vegetables, too.

Now, it's time to think about our 1938 gardens and I want you to know that I am ready to offer you the same fine high quality seeds and pure selected strains that we have always supplied to the gardens of the Middle West. I offer you the most complete list of kinds and varieties you will find anywhere, and real gardeners have learned to rely with confidence on my true-to-name garden seed. Remember, a good big garden means a money saving to you.

I want you to keep your radio tuned to KMA, 930 kilocycles—in the middle of your dial. We're operating full time, you know, and I want you to be on hand for my noonday visits and the other times throughout the day when I talk with you about your gardens. We have mighty fine programs for you and I know that we'll have a lot of information that will be of interest to all you gardeners.

I hope you will give me the opportunity of supplying high quality true-to-name garden seeds for your 1938 gardens. Get your orders in early. Remember, if you have any pictures of vegetables or pictures taken in your garden or around your home, we will be glad to have you send them to us. I am sure we can use many of them in my "Views and Seed News" which we hope to send you from time to time throughout the coming season.

With best wishes from Mrs. May, Frances, Eddie, and myself, I remain

Yours sincerely, *Earl E. May*

Fresh SNAP BEANS all season long

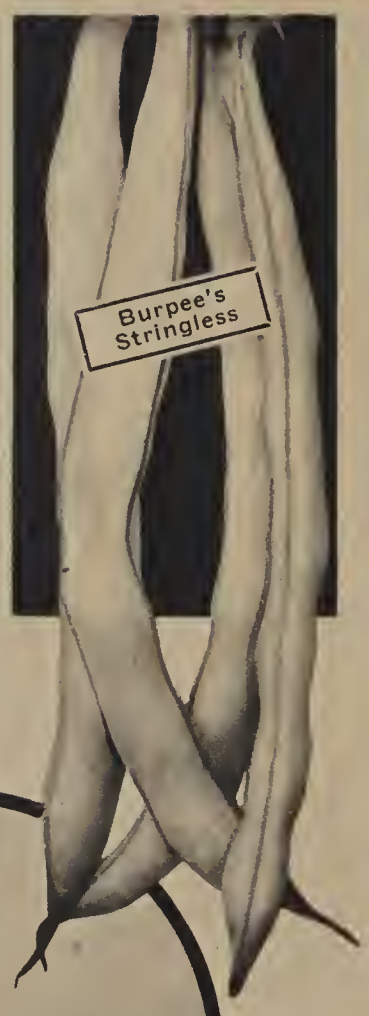
Tender Stringless -- Finest Flavor

Rich in Body Builders

One pound will plant 100 feet of drill; 90 lbs. of seed per acre.

INOCULATE THIS SEED for earlier, bigger yields, and to enrich the soil.

Culture: Plant as soon as danger of frost is over; placing the seed 2 to 3 inches apart and about 2½ inches deep. The rows should be 2 feet apart. Keep the pods from touching the ground. Most beans should be picked when about 4 inches long. Frequent pickings insure a more prolonged bearing season. Avoid jerking the plant, as this frequently disturbs young feeding roots. Do not pick when bushes are wet. In green podded sorts, Giant Stringless and Burpee's Stringless are the leaders.



Green Pod Bush Beans

102—BURPEE'S STRINGLESS GREEN POD. (42 days.) Very early. Pods are a dark green, tender and absolutely stringless. The market gardener's choice. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.15**, postpaid.

100—FULL MEASURE. Very fleshy, deep green; round pod. Perfectly stringless. A real producer. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 3 lbs., **65c**; 5 lbs., **$1.00**, postpaid.

101-Giant Stringless Green Pod Bush Bean

Still the leader of all the popular green Pod Bush Beans. Large, stringless and stands dry weather. Prolific bearer. Excellent cooker, and also for canning. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid. **See colored picture, Page 44.**

104—NEW TENDERGREEN. A new delicious bean. An All America Gold Medal Winner. The plants are large, erect, and prolific. Entirely stringless. So tender and snappy it fairly melts in your mouth. **Big** Pkt., **10c**; ½ lb., **20c**; 1 lb., **35c**; 3 lbs., **90c**; 5 lbs., **$1.25**, postpaid. (See colored pictures, inside front cover.)

105—STRINGLESS BLACK VALENTINE. Remarkably hardy for planting in cold ground in early spring. Pods almost straight, of medium green color, round, fleshy and brittle. Entirely stringless. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 3 lbs., **65c**; 5 lbs.. **$1.00**, postpaid.

106—BOUNTIFUL. Vigorous grower, thrifty and a great yielder. Early. The pods are light green in color, entirely stringless and of excellent quality. Bears its crop over a long period. Pkt., **5c**; ½ lb., **15c**; lb., **23c**; 3 lbs., **59c**; 5 lbs., **85c**, postpaid.

107—NEW STRINGLESS REFUGEE. This Giant Stringless Bean is tender, stringless and very brittle. A late variety and bears over a long period. I want you to plant some of these beans in your garden this year. Pkt., **5c**; ½ lb., **15c**; lb., **23c**; 3 lbs., **59c**; 5 lbs., **85c**, postpaid.

Wax-Podded Bush Beans

Clear Crystal Wax—Fine for Canning

One pound will plant 100 feet of drill; 90 lbs. of seed per acre.

125—EARLY WONDER WAX. Extra early, heavy yielder of excellent flavor. Fine round podded wax beans. You will like this one. Pkt., **5c**; ½ lb., **18c**; 1 lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

126—Top Notch Golden Wax Rust-Proof

(42 days.) The finest golden wax bean I can recommend. An improved strain of Rust Proof Golden Wax. Pods are longer, more uniform and a heavier producer. This is a main crop, cold-pack variety. **Big** Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

127—BRITTLE WAX. (40 days.) One of the earliest of all Wax Beans, great cropper, stringless, extremely prolific. They are broad and solid, tender, brittle and entirely stringless. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

129—SURE-CROP STRINGLESS WAX. (42 days.) Stringless rustproof, yellow pods, averaging 6 to 7 inches in length, heavy yielder. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

130—PENCIL POD BLACK WAX. (38 days.) The market gardener's favorite. Round, stringless, waxy white pod, excellent quality, fine flavor, a prolific yielder. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

Plant POLE BEANS and save space in your garden. They're heavy yielders

Pole or Running Beans

They grow high and are loaded with beans from the bottom to the top.

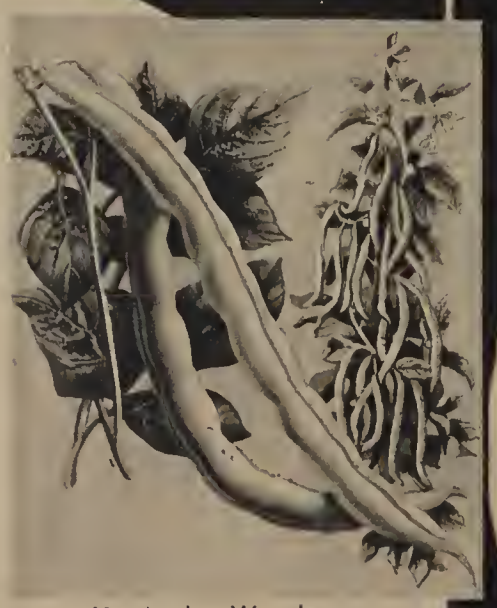
One pound will plant 200 hills. If everyone knew how easy it is to grow Pole Beans I am sure that you would agree that every farm and garden should have at least a few. Another thing about them is that they are easily picked, too, because they grow on a pole, lattice, fence or corn stalk.

135—KENTUCKY WONDER. The finest flavor of all. Heavy yielder. Can be planted in the corn as it is a climber. Pods hang in great clusters. Here in the Central West, it can be planted until the middle of July. Everybody knows Kentucky Wonder. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

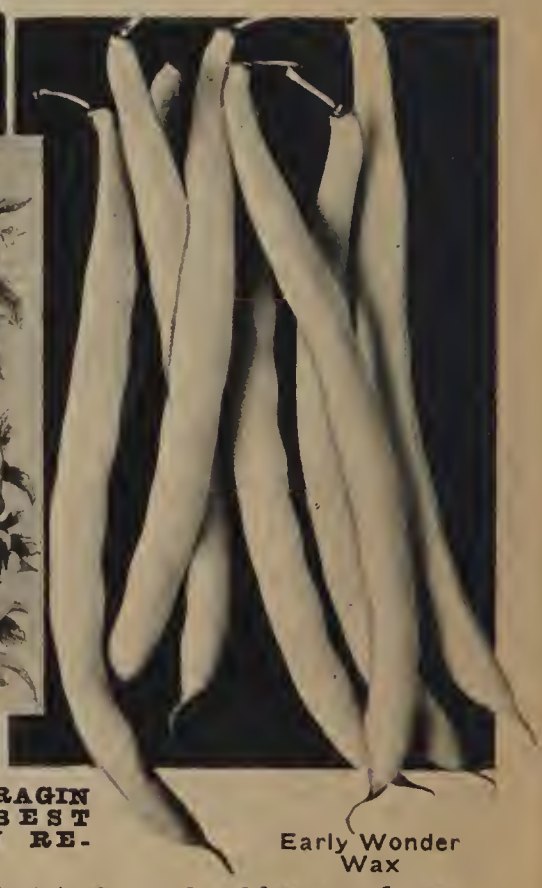
137—GOLDEN KENTUCKY WONDER. Here is the mate to Kentucky Wonder. It has long golden, brittle meaty pods, of excellent flavor. The seeds are medium size, very regular, dark brown. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 3 lbs., **95c**; 5 lbs., **$1.25**, postpaid.

138—LAZY WIFE. The pods hang in such great clusters that they called it Lazy Wife. An excellent green shelled bean. Also, a good snap bean. The pods are green, broad, thick and very fleshy. The mature bean is a large clear white and can be used also as a soup bean. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

139—MISSOURI WONDER. A great yielder. The pods are medium green, later splashed with red. The shell beans are drab, spotted with tan-brown. This Missouri Wonder is especially fine, cooked as a green shell bean. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.



Kentucky Wonder



Early Wonder Wax

INOCULATE this seed With **NITRAGIN** for the **BEST GARDEN RESULTS.**

The new 10c size will inoculate 2 to 4 pounds of beans and peas.

LIMA OR BUTTER BEANS

Plenty of "Dry Shell" Beans Saves Grocery Bills

DWARF BUSH LIMA

I consider the Henderson's Bush Lima the best for the Corn Belt. Burpee's and Fordhook are both good ones and are large varieties. Henderson's is a little smaller, and sometimes called Baby Lima.

One pound will plant 40 feet of drill.

Culture: Sow after danger of frost is over. Sow in rows 2 feet apart, 3 inches deep; beans 2 inches apart in the row. Later thin, so plants stand 6 to 8 inches apart.

115—HENDERSON'S BUSH LIMA or Baby Lima. This is the popular Baby Lima Bean. It is the small Lima type for the home garden, and is also in big demand for canning. Very productive, bearing well filled pods throughout the entire season. By all means plant some of this great little bean. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid. (See colored picture, Page 47.)

114—BURPEE'S IMPROVED BUSH LIMA. Vigorous, large size, the single beans of Burpee's Improved are larger and of better quality than the original Burpee's Bush Lima. An immense yielder. The pods are 5 to 6 inches long. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 3 lbs., **90c**; 5 lbs., **$1.25**, postpaid.

112—FORDHOOK. An improved form of the popular Potato Lima. Big pods and large beans. Pods measure 4 to 5 inches. Dependable yielder for the middle west. Fine beans of the finest flavor. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

POLE LIMA BEANS

One pound will plant 50 hills

Culture: Put 6 seeds in each hill; hills 3 feet apart each way. Require a pole 7 feet high. When vines reach top, pinch them to increase the yield.

122—CHIEF HOPI LIMA BEAN. This is a new Lima Bean grown by Hopi (Snake Dancing) Indians of Arizona. Heavy yielder, resistant to drought. A trifle larger than the Henderson's Baby Lima. Try this one, it has the genuine Big Lima flavor. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 3 lbs., **95c**; 5 lbs., **$1.25**, postpaid.

120—KING OF THE GARDEN. This standard market sort is one of the best for main crop. Vigorous grower, very productive. Beans unusually large, of fine flavor, pods well filled. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 3 lbs., **80c**; 5 lbs., **$1.20**, postpaid.

FARM BEANS

For Baking, Soups, and Salads the Year Around

108—SPECIAL NAVY SOUP BEANS. Snowy white variety of uniform small size, often called Michigan Navy. Plants grow upright and bear the pods well off the ground. A farm bean of which a large acreage is grown. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 3 lbs., **65c**; 5 lbs., **95c**, postpaid.

109—DARK RED KIDNEY BAKING BEANS. One of the very best of the dry shell beans; hardy and vigorous grower, heavy yielder, fine for baking and salads. Pkt., **5c**; ½ lb., **15c**; lb., **25c** 3 lbs., **65c**; 5 lbs., **95c**, postpaid.

111—GREAT NORTHERN SOUP BEAN. Sometimes called Large Navy. They are snow white; large kidney shaped. A great yielder of fine cooking quality which is replacing the navy bean in many localities. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 3 lbs., **65c**; 5 lbs., **95c**, postpaid.

A BIG GARDEN THIS YEAR • SURE

1 lb. Purple Top White Globe.....50c
Regular Catalog Price $1.50
ALL FOR ONLY $1.00

MAY'S BEETS

Lots of iron for your blood

One ounce will sow 75 feet of drill; 5 to 6 pounds to the acre.

Culture: Plant as soon as ground can be worked. Spade well and pulverize thoroughly. Space the rows 18 inches apart and plant 1 inch deep. Plant in rich soil. Soaking over night in warm water will hasten germination. When seedlings appear about 3 inches above the ground, thin out to 4 inches between the plants. Beets are best for pulling when about 2 inches in diameter.

203—Good for All. The new baby beet for pickling and canning. The roots are smooth, even in size and shape, almost perfectly globular. Interior, deep crimson, free from white rings. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **$1.25**, postpaid. (See colored picture, Page 47.)

204—Improved Early Blood. (50 days.) This is a splendid early beet of extra-fine quality, and the color is rich and dark. It always cooks and cuts a rich, dark blood red. It is tender, sweet and crisp and a standard sort for home use. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **75c**, postpaid.

205—Detroit Dark Red. (52 days.) One of the best main crop, all-purpose beets in cultivation. For the home garden it is especially desirable because of its high quality, being sweet, tender and fine grained without any trace of woodiness. Keeps rich, dark red color when canned. (See colored picture, Page 46.) Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **75c**, postpaid.

Early Wonder

RICH RED BEETS— Eat 'em from Top to Bottom

Detroit Dark Red

206—Early Wonder. This one is by far the earliest of all. This is the darkest red beet that I have ever seen, free from side roots. Every one of them as smooth as an apple. Sweet and tender. Be sure that you plant some of this one. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **75c**, postpaid.

208—PERFECTION DETROIT. All America Winner. (54 days.) The finest Detroit strain to date. Rich blood red meat all the way through. Excellent quality, color and flavor. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **45c**; lb., **$1.25**, postpaid.

210—SWISS CHARD

Or Beet Greens

Greatest of all summer greens. A variety of beet grown for its leaves. They may be used just as spinach. Constant crop from July until winter. It makes good poultry feed, too. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**, postpaid. (See colored picture, Page 47.)

ARTICHOKE

Culture: Sow the seed in March or April, giving the young plants protection from danger of frost. Plant in rows 3 inches apart, 2 inches apart in the row and they will bear the first year.

200—JERUSALEM ARTICHOKE. Medium height plants producing deep green, globe-shaped flower heads. Pkt., **5c**; oz., **45c**; ¼ lb., **$1.65**; lb., **$5.50**, postpaid.

Asparagus Seeds and Roots

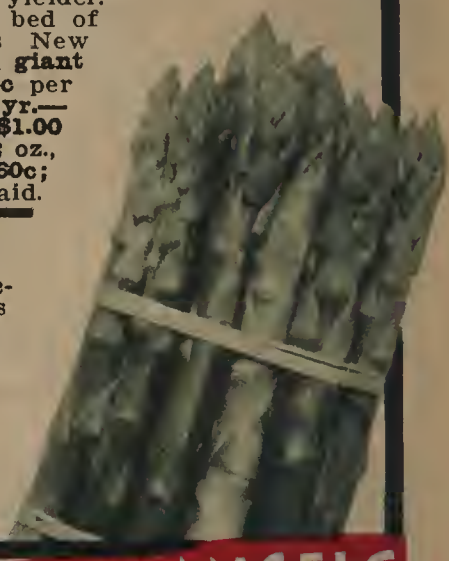
RICH IN VITAMINS

Culture. Soak the seed, before planting, in luke warm water. Plant in rows one foot apart or more. Well-drained bottom land or rich loamy soil is best. Cover the seed with 2 inches of soil. Transplant into permanent beds after first year.

201—New Washington Rust Proof. The best in asparagus; it is a rust resistant strain. The strain we have for you is a very high yielder. If you want a choice bed of asparagus, try this New Washington. **2 yr. old giant roots—30c** per 10; **50c** per 25; **$1.50** per 100. **1 yr.—20c** per 10; **35c** per 25; **$1.00** per 100. Seed Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; ½ lb., **60c**; 1 lb., **$1.00.** Both postpaid.

Rhubarb

202—Giant Victoria. Practically seedless. This is the largest and the best of the seedling varieties. Good, heavy stalks. Juicy stems, rich wine-red in color. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; ½ lb., **55c**; 1 lb., **$1.00**, postpaid.



Mammoth Long Red Mangel

STOCK BEETS or MANGELS

Greatest Tonnage Crop— Green Feed All Winter— Increase Egg Production and Milk Flow

As usual I raised a nice lot of stock beets for my white leghorns again this year. You can't beat them for green feed to bring up egg production. Store them near the barn, digging a shallow trench which is lined with straw and throwing in the beets, covering them with straw and then more soil or cornstalks to keep out the frost. This way you can keep them as long as you want to, and of course, you will not put them in the pit until just before the freezing weather comes on.

Sow the seed in rich soil in May or June in rows 20 inches to two feet apart, thinning the plants from six to eight inches apart in the row, and don't harvest until heavy frost. Sow 8 to 10 pounds of seed to the acre.

216—Mammoth Long Red. This is the heaviest yielder and grows to an immense size, is very productive and profitable. An excellent keeper, too. Yields of from 20 to 30 tons per acre not unusual. Oz., **5c**; ¼ lb., **18c**; lb., **50c**; 5 lbs., **$1.85**, postpaid.

218—Golden Tankard Mangel. (140 days.) Deep yellow in color, oval in shape and sets partly on top of the ground. Heavy yielder. Oz., **5c**; ¼ lb., **20c**; lb., **55c**; 5 lbs., **$2.25**, postpaid.

220—Giant Half-Sugar Rose. (140 days.) Roots of this variety are green above the ground and rose color below. Very valuable for feeding purposes. Oz., **5c**; ¼ lb., **20c**; lb., **55c**; 5 lbs., **$2.25**, postpaid.

RADISHES CRISP, SWEET and TENDER

The Choicest Garden Vegetable Ready to Eat in Three to Four Weeks

An ounce will sow 100 feet of drill

Culture. Sow round-shaped varieties in early spring as soon as soil can be worked. Make plantings every ten days or two weeks for successive crop. Plant half inch deep in rows one foot to 18 inches apart. After middle of May do not sow flat, round-shaped spring kinds, but sow White Icicle and long varieties which resist hot weather. About July 1st sow winter varieties.

May's Early Round and Oval Varieties

640—**EARLY BIRD.** (Twenty Day.) One of the earliest radishes; perfect shape and good quality. Rich, scarlet color. Flesh white, crisp, juicy and mild; globe shape. Pkt., **5c; oz., 10c;** ¼ lb., **20c;** lb., **45c,** postpaid.

641—**RADISH GLOWING BALL.** The New Gold Medal All America radish. Bright scarlet with almost an orange color. Short top and small tap root. A fine crisp juicy Radish. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **75c,** postpaid. (See colored picture, inside front cover.)

642—**NEW CRIMSON GIANT.** (28 days.) An early large Round Red radish. Flesh is purest white, mild in flavor, firm and crisp, remaining in edible condition for a long period. Pkt., **5c;** oz., **10c;** ¼ lb., **20c;** lb., **50c,** postpaid.

643—**NEW COMET.** The New All America Winner for 1937. Uniform, crisp, solid and very early. It stays in the finest eating condition longer than any other radish. **Big** Pkt., **10c;** oz., **20c;** ¼ lb., **40c;** lb., **$1.00,** postpaid.

644—**FRENCH BREAKFAST.** (25 days.) Just right for small, crisp table radishes. Is of quick growth, oblong in shape, thicker toward the bottom. and beautiful scarlet color with white tip. Pkt., **5c;** oz., **10c;** ¼ lb., **20c;** lb., **50c,** postpaid. (See colored picture. Page 46.)

658—**EARLY SCARLET WHITE TIP.** (26 days.) Bright red with a pure white tip; flesh white, crisp and of good flavor. Pkt., **5c;** oz., **10c;** ¼ lb., **20c;** lb., **50c,** postpaid.

652—**HAILSTONE.** Here is a fine, early round white radish for the early gardens. Its flesh is firm, crisp, juicy, fine-grained and tender. I want every one of you to try a package of this new Hailstone in your garden this spring. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **65c,** postpaid.

Early Long Radishes

654—**WHITE ICICLE.** Extra early, long white radish. Slender, clear white roots, mild and crisp, and grow to large size. One of the best varieties for home garden. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **65c,** postpaid.

656—**EARLY LONG SCARLET SHORT TOP.** (27 days.) Grows 6 to 7 inches long; bright scarlet; very brittle and crisp; a rapid grower. Pkt., **5c;** oz., **10c;** ¼ lb., **20c;** lb., **50c,** postpaid.

Summer Varieties

660—**LONG WHITE VIENNA.** Main crop. Ready for table in 29 days. Both skin and flesh are white. Crisp, brittle and a rapid grower; longer tops and roots than Icicle. Pkt., **5c;** oz.. **10c;** ¼ lb., **25c;** lb., **60c,** postpaid.

662—**WHITE STRASBURG.** Shape tapering, skin and flesh both white, excellent summer variety. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **60c,** postpaid

Long Keeping Winter Radishes

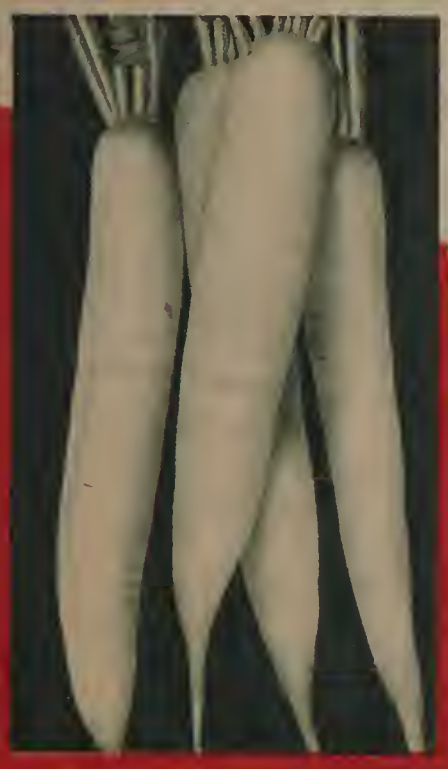
666—**CALIFORNIA MAMMOTH WHITE.** Very large and one of the best of the Winter varieties. Pure white; flesh tender, crisp and mild. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **60c,** postpaid.

668—**CHINA ROSE.** Rose color; flesh pure white. Medium large. Half long with blunt end. Very fine, mild winter radish. Pkt., **5c;** oz., **10c;** ¼ lb., **25c;** lb., **60c,** postpaid.

674—**ALL KINDS AND COLORS** and some of the new ones too. An all summer mixture for the entire season. Give them plenty of room. Pkt., **5c;** oz., **8c;** ¼ lb., **15c;** lb., **40c,** postpaid .

FREE TREE SEED

100 Colorado Blue Spruce seed free with your vegetable and flower seed order of only $1.00. The beautiful Colorado Blue Spruce pictured on page 2 is growing right in Shenandoah, in Mrs. Gibson's yard. Pkt., **25c,** postpaid. **Other free gifts listed on Page 2.**



White Icicle

PEANUTS Richer in Protein Than Meat

Let the Children Grow Them

Culture. They will grow and mature anywhere corn will. Remove outer shell, taking care not to damage kernels, and sow kernels in drills 2½ feet apart and 1½ inches deep. Allow 3 inches between nuts in row. Cultivate freely. The bloom need not be covered. Dig before first frost and let cure under cover two or three weeks.

630—**MAMMOTH JUMBO.** One of the most profitable to grow; easy to cultivate. Very erect stems and upright foliage; stands the heat and drought and ripens very early. Pkt., **5c;** ½ lb., **20c;** lb., **30c;** 5 lbs., **$1.25,** postpaid.

632—**EARLY SPANISH PEANUTS.** A standard early variety, good cropper and hardy. Very prolific and pods well filled. Can be successfully grown anywhere in the Corn Belt. Pkt., **5c;** ½ lb., **20c;** lb., **30c;** 5 lbs., **$1.25,** postpaid.

CABBAGE

A Wealth of Health

Large Solid Firm Heads Rich in All the Body Building Vitamins

He Who Eats Cabbage Has a Good Head

An Ounce Will Produce About 2500 Plants

Boiled ham and cabbage, my what a meal. Sauerkraut and boiled cabbage are two of my favorite dishes. I know some of you like to joke me about eating boiled cabbage but I like it raw too.

Culture: Sow in hotbeds in February and March and in open ground in April or May. Sow late Fall varieties in May. Plant them in rows 2 feet apart with 20 inches between the plants in the rows.

(Some late kinds may show signs of bursting. If this occurs, push the plants over to one side to check their growth.

Extra Early Varieties

232—NEW COPENHAGEN MARKET. Copenhagen Market can be depended upon for making large, solid heads, early in the season, weighing 4 to 6 pounds. Can be planted close together, and is one of the best round-headed varieties. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **65c**, postpaid.

233—GOLDEN ACRE. (55 days.) The earliest roundheaded cabbage I know. A popular market and home garden variety. Uniform heads, excellent quality. Mature weight, 4 lbs. Pkt., **5c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **90c**, postpaid. (See colored picture, Page 47.)

234—IMPROVED EARLY JERSEY WAKEFIELD. (55 days.) Very early, solid and good old reliable variety. Heads cone-shaped and one of the surest heading. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **65c**, postpaid.

Medium Early Varieties

242—EARLY FLAT DUTCH. (75 days.) This is a mighty fine variety with big, flat heads that stand dry weather very well. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **55c**, postpaid.

245—PENN STATE BALLHEAD. All America Winner. Large round head, exceptionally solid. Its unusual tonnage is due to the heart-like solid heads. A great kraut cabbage, fine grained, crisp and tender. **Big** Pkt., **10c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **$1.00**, postpaid.

Yellows-Resistant Cabbage

235—MARION MARKET. A high rating Wisconsin selection of yellows-resistant strain. Very similar to Copenhagen. A sure header, main crop and stands a long time without bursting. Has proven itself in severely infested districts. Pkt., **10c**; ½ oz., **25c**; oz., **35c**; ¼ lb., **$1.20**, postpaid.

237—HOLLANDER WISCONSIN NO. 8. A yellows resistant, mid-season, main crop cabbage of the Danish Ballhead type. It is disease resistant and has proven itself under the most severe growing conditions. **Big** Pkt., **10c**; ½ oz., **25c**; oz., **35c**; ¼ lb., **$1.20**, postpaid.

244—Danish Ballhead

(115 days.) True Danish Ballhead is one of the finest kraut cabbages known. A heavy solid, long-keeping variety. The surest growing, heading, keeping and shipping variety. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **70c**, postpaid.

Late or Winter Varieties

254—PREMIUM LATE FLAT DUTCH. (120 days.) Heads are flat on top, solid and large. Cuts white and crisp; flavor excellent, no stringiness; splendid keeper, good for Fall and Winter. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **55c**, postpaid.

256—SUREHEAD. (110 days.) A great producer. Shape of the Flat Dutch type. Extra large uniform heads from 10 to 15 pounds each. Drought resisting, certain to head. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **65c**, postpaid.

257—MAMMOTH RED ROCK. (100 days.) The large red, pickling sort. Round, very solid, and deep, red color. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **75c**, postpaid.

258—SAVOY. A fine, solid cabbage that is a general favorite. Deep green in color and heavily curled. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **65c**, postpaid.

Cabbage Plants—Frost Proof

YOUR CHOICE. Jersey Wakefield—Copenhagen—Early Flat Dutch. 100, **45c**; 200, **80c**; 500, **$1.50**; 1,000, **$2.50**, postpaid. Price subject to change without notice.

CHINESE CABBAGE

A Delicate Relish—Rich in Vitamins

260—PE-TSAI. New salad plant resembling celery. A most delicious vegetable. Healthful and tasty either cooked or raw. Best crops grown from July and August planting. Plant in rows and thin to about a foot apart. Firm crisp heads easily blanched. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **65c**, postpaid.

1 Pkt. New Aster Illusion
1 Pkt. New Del Monte Spinach
¼ Lb. Hybrid Stowell's Evergreen Sweet Corn

CARROTS *Rich in Vitamins*

One Ounce Will Sow 100 Feet of Drill

Friends, here is a little Health Proverb I know most of you will enjoy, "Eat 18 Carrot Soup." Last year one of my good friends and customers wrote me telling how fine her new Coreless Carrots were, stating that her little daughter ate them just like sticks of candy. All I can add is that I am sure that they are better for her than any candy she can buy.

Culture: Carrots like rich, mellow, deep-spaded soil. If manure is added to the soil, be sure it is done the previous season. Sow early sorts in March or April, 1 inch deep in rows 14 inches apart. Sow the main crop in May or beginning of June. In fact, any time up until the first of August.

Oxheart Carrot

Get Your Color From the Vegetable Garden

300—NEW CORELESS. (72 days.) Not coreless but core is very small and same color as flesh, a rich golden orange. Smooth and uniform in size and color, and much sweeter than the ordinary varieties. (See colored picture, Page 46.) Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

302—SELECTED CHANTENAY. (42 days.) A first class table variety. Stump-rooted and about 5 to 6 inches long. Rich orange color and a splendid keeper. Fine variety to grow for Winter use. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

301—OXHEART. (72 days.) Home garden favorite. Early, thick blunt ended carrot; deep orange color. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

303—NEW BUNCHING. The housewives will appreciate the convenient shape, smooth skin, and rich color of the Bunching Carrot. An excellent, sweet flavor. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; 1 lb., **95c**, postpaid.

305—NEW SUPREME. New All America Winner. The finest color and quality inside and out. Small top, uniform, even and excellent flavor. Pkt., **10c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**, postpaid.

306—DANVERS HALF-LONG. (75 days.) Half-long carrot; very productive. Roots 6 to 8 inches long; color deep orange. Good variety for Winter use. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid. (See colored picture, Page 44.)

CARROTS for Stock Feeding

Easily Grown. Great Yielder

Sow seed in drills 3 feet apart, using about 4 pounds per acre. Large yield from small pieces of ground. Tonnage per acre enormous.

308—LARGE YELLOW VICTORIA. Largest and best feeding carrot of the yellow varieties. Roots are very large and thick. Color is orange-red. Oz., **10c**; ¼ lb., **25c**; lb., **60c**; 5 lbs., **$2.50**, postpaid.

$1 Vegetable Collection **Page 44**

CELERY

You Can Grow Your Own Celery, Too
An Ounce Will Produce 3,000 Plants

Culture: Sow the seed early in cold frame or window box. Cover lightly as possible. Transplant the plants to 4 inches apart each way when the 4th leaf forms. Set plants in the open ground when all danger of frost is past, 8 inches apart each way, beds 6 feet wide. Blanch with boards or soil. Paper does very well too for this purpose. Celery likes rich soil and plenty of moisture.

272—GOLDEN SELF-BLANCHING. (110 days.) The most popular of all. Easily grown. Good shipper and of high quality. Creamy yellow in color and excels all other varieties. Pkt., **5c**; ½ oz., **18c**; oz., **30c**; ¼ lb., **90c**, postpaid.

274—IMPROVED WHITE PLUME. (112 days.) Recognized as best white variety. Very crisp, tender and vigorous grower. Stalks are uniformly large. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **60c**, postpaid.

276—GIANT PASCAL. (135 days.) It blanches very easily and quickly. The heart is golden yellow. Stalks long, broad and very solid. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **60c**, postpaid.

270—CELERIAC. (Turnip Rooted Celery.) Needs no hilling as the large roots are used instead of the hollow stalks. Makes excellent soup and is sliced for salads. For winter use, pack in a box of sand or soil in the basement. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **60c**, postpaid.

Selected Chantenay Carrot

CAULIFLOWER

Rich in Vitamins A, B, and C

An ounce will produce about 3,000 plants.

Culture: Cauliflower likes a rich, well-drained sandy soil with plenty of moisture. Plant the seed in a hotbed or window box, just like you do cabbage for early planting, then set them out and care for just like you do cabbage. They are just as easily grown. When the heads start to form, tie the outer leaves together over the top. Grow either as a spring crop as suggested above, or sow the seed in May and transplant to the field later for a fall crop.

330—EARLY SNOWBALL. The earliest and surest heading cauliflower grown. No variety produces more deep solid heads and of such pure snowy whiteness than the Snowball. Extremely hardy. **Big** Pkt., **10c**; ¼ oz., **40c**; oz., **$1.40**; ¼ lb., **$4.00**, postpaid.

332—DANISH GIANT. It is especially adapted to dry situations and to resist drought. Forms creamy white, solid heads, and seed is Denmark grown. **Big** Pkt., **10c**; ¼ oz., **40c**; oz., **$1.40**; ¼ lb., **$4.00**, postpaid.

931—BROCCOLI. Heads similar to cauliflower. After the main head is removed, side branches develop and frequently form small heads which, with the stems, are served same as asparagus. A delicious vegetable that is gaining favor. Pkt., **5c**; ¼ oz., **25c**; oz., **75c**, postpaid.

Snowball Cauliflower

Deliciously Sweet and Nourishing

SWEET CORN

When the Sweet Corn in my garden was ready last summer, I could hardly wait from one meal to the other. This is a pan full of Golden Bantam. Looks mighty good, doesn't it?

One pound will plant 200 feet of drill or 200 to 300 hills.

Plant for succession of crop every 3 weeks from April to July in hills 3 feet apart each way and 6 kernels in a hill, cover about half an inch and thin out to 3 stalks. Don't forget the main varieties such as Golden Bantam, Stowell's Evergreen and Country Gentleman.

White Varieties

142—EARLY MAYFLOWER. This is the earliest sweet corn of good size. White cob and kernels. Medium large ears, excellent quality. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **50c**; 5 lbs., **$1.00**, postpaid.

150—HOWLING MOB. Ears measure from 8 to 9 inches long, with 12 to 16 rows of pure white grains. Large eared, medium early. A fine variety for the home and market. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **50c**; 5 lbs., **$1.00**, postpaid.

151—HYBRID STOWELL'S EVERGREEN. A new Hybrid of the deep kerneled Stowell's Evergreen which represents hundreds of crosses and years of breeding. I believe it is the heaviest yielding Sweet Corn there is. Large uniform ears, deep kernel, small cob and of mighty fine flavor. **Big** Pkt., **10c**; ½ lb., **25c**; lb., **40c**; 2 lbs., **70c**; 5 lbs., **$1.50**, postpaid. (See colored picture, page 2.)

152—COUNTRY GENTLEMAN. (Shoe Peg.) (82 days.) Extremely productive, small cob, densely covered with irregular rows of long, slender grains. The milky kernels are plump, pearly white and tender. Ears average 8 to 9 inches in length, Heavy yielder. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **50c**; 5 lbs., **$1.00**, postpaid.

154—STOWELL'S EVERGREEN. (85 days.) Standard main crop variety for market and home use. Very productive; ears 8 inches long; fine flavor, and keeps a long time in cooking condition. A canning favorite. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **40c**; 5 lbs., **85c**, postpaid.

Golden Yellow Varieties

143—HYBRID GOLDEN CROSS BANTAM. (Mid-Season.) A sturdy grower, heavy yielding Hybrid which is the daddy of them all. About a week later than Tendergold. Medium large ears, most tender, sweet flavored. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 2 lbs., **60c**; 5 lbs., **$1.25**, postpaid. (See colored picture, inside front cover.)

145—TENDERGOLD. (Early Hybrid.) An excellent variety, tender and sweet, golden yellow, extra fine quality. Wilt resistant. For home or market, I think this is the best we list. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **50c**; 5 lbs., **$1.00**, postpaid. (See colored picture, Page 47.)

144—GOLDEN BANTAM. (72 days.) The standard yellow Sweet Corn. A real favorite. I still think it is one of the finest Sweet Corns. You all know the fine quality of Golden Bantam. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **40c** 5 lbs., **85c**, postpaid.

146—EARLY GOLDEN SUNSHINE. (65 days.) The kernels are broad and heavy, exceptionally well flavored. Fully a week earlier than the Golden Bantam. By all means try some Golden Sunshine this year. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **40c**; 5 lbs., **95c**, postpaid.

148—GOLDEN EVERGREEN. A cross between Golden Bantam and Stowell's Evergreen, combining the fine qualities of each. Large golden ears finely flavored. A good variety for canning. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **50c**; 5 lbs., **$1.00**, postpaid.

147—GOLDEN (KERNEL) COLONEL—Golden Yellow Country Gentleman. All America Winner. Large ears; sweet, tender, golden kernels. Very fine. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 2 lbs., **60c**; 5 lbs., **$1.25**, postpaid.

Pop Corn Selected for Seed

156—JAPANESE HULL-LESS. Without doubt the best Corn for popping. The kernels are similar to the best strains of White Rice but a little longer; white in color; fine flavor and absence of hull or shell. Commercial Corn-poppers prefer this variety. ¼ lb., **10c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **40c**; 5 lbs., **75c**, postpaid.

157—ARGENTINE JUMBO. This is the big yellow popping corn. It is also offered under the names of Dynamite and Giant. A select strain of popping corn. Delicious flavor. ¼ lb., **10c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **40c**; 5 lbs., **75c**, postpaid.

New York Improved Egg Plant

EGG PLANT Easy To Grow

An ounce will produce about 1000 plants

Culture. Sow during March in a warm hotbed in light, rich soil. Transplant or thin so that the young plants stand 3 inches apart. Plant out after settled warm weather has arrived. They need to stand 3 feet apart each way to be planted outside.

292—NEW YORK IMPROVED PURPLE. (Spineless.) A standard sort. A very large size, fine quality and productive. Fruits oval; color a splendid dark purple. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.20**, postpaid.

294—BLACK BEAUTY. Very early, smooth dark purple; average weight 2 to 3 pounds. Dwarf growing. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.20**, postpaid.

Country Gentleman Sweet Corn

CUCUMBERS
For Slicing and Pickles

Improved Long Green Cucumber

Pick Them Fresh Firm and Crisp

One Ounce Will Plant About 50 Hills

A fine crop can be easily grown in fairly rich soil. Wait and plant after all danger of frost is over. Plant in hills 3 by 5 feet apart, dropping 6 or 8 seeds in each hill. When 6 inches tall, thin to 3 strong plants to a hill.

356—**STRAIGHT EIGHT.** America Gold Medal Winner. Dark green; round, cylindrical in shape; rounded ends. Most uniform of all. Grows 8 to 10 inches long. Pkt., **10c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.50**, postpaid. (See colored picture, Page 46.)

357—**BOSTON PICKLING.** A very prolific variety widely used for pickles. Fully developed fruits average 4 to 5 inches and on account of their fine quality are quite often used for slicing. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

353—**IMPROVED WHITE SPINE.** A desirable pickling sort, largely planted everywhere. Fruits grow to be seven inches long, light green, and semi-blunt ended. Excellent for slicing. Popular for home and market gardening, not only first early but also main crop. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

Improved Chicago Pickle

358—**SELECT NATIONAL PICKLE.** Here's a variety of special interest to the housewife who puts up her own pickles. A heavy yielder, excellent for pickling, uniform in size, a vigorous grower. Same strain that most of the large pickle firms are growing. Pkt., **5c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.00**, postpaid. (See colored picture, Page 46.)

359—**NEW ACE.** The finest new cucumber I know. A glossy dark green. Very few seeds with exceptionally crisp clear white flesh. **Big** Pkt., **10c**; oz., **25c**; ¼ lb., **60c**; lb., **$2.00**, postpaid. (See colored picture, Page 44.)

372—**IMPROVED LONG GREEN.** This cucumber will measure 15 inches long. Makes a world of slices. It is of fine flavor and the young cucumbers make very fine pickles. You can't beat this cucumber for an all purpose one for general family use. Pkt., **5c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.00**, postpaid.

354—**STAYS GREEN.** Stays green longer than any variety and is earliest of White Spine type. Fruit, 7 to 8 inches long, cylindrical in shape. Vigorous grower, enormous yielder; good shipper. Always commands highest market price. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **90c**, postpaid.

374—**EVERBEARING.** (55 days.) Fruits are medium size, rich, dark green color, average from 4 to 5 inches in length. Will continue bearing throughout the season. An excellent variety for producing pickles. Pkt., **5c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.00**, postpaid.

375—**COOL AND CRISP.** A mighty fine pickling and slicing variety. Flesh firm and crisp, dark green in color. Grows 8 to 10 inches long. Excellent home garden variety. **Big** Pkt., **10c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.50**, postpaid.

378—**IMPROVED CHICAGO PICKLE.** (60 days.) Fruits are of uniform and medium size and good color. Used by many of the large pickle factories. Heavy bearer. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **90c**, postpaid.

380—**LEMON CUCUMBER.** A new cucumber for pickling and salads. It resembles a lemon in shape and has that rich lemon color. It makes the finest and best bread and butter pickles. Try this one. Pkt., **5c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.50**, postpaid.

384—**MIXED CUCUMBER SEED.** I often have inquiries for mixed Cucumber seed for those who want to use the crop themselves for pickling and slicing. My mixture is made up of the very best varieties. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

"Out of an ounce of your National Pickler, we canned 90 some quarts of cucumbers and gave the neighbors some besides. Was sure well pleased with all my seed I received from you last year."—Mrs. Chester Miller, Route 1, Calhoun, Missouri.

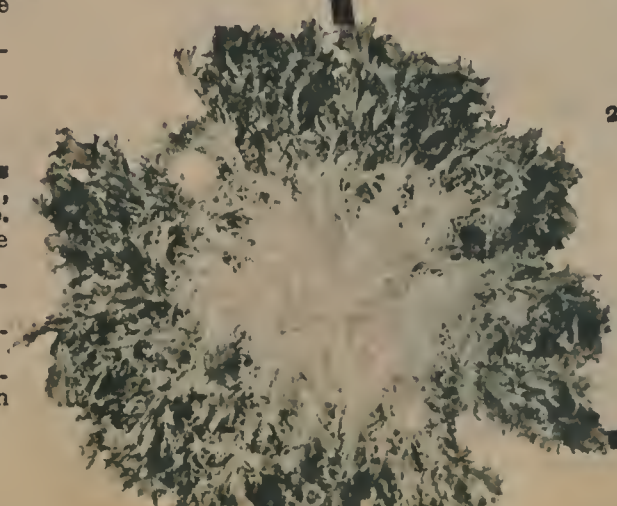
ENDIVE
The Delicious Salad Relish

An Ounce Sows 200 Feet of Drill

One of the best Autumn and Winter salads, especially refreshing when served as lettuce with plain French dressing. Sow seeds from the middle of June to the last of August. When plants are fully grown, tie all the outside leaves together over the heart. This blanches the inner leaves in about a week. Don't tie when leaves are wet as this will cause them to decay.

282—**GREEN CURLED ROSE RIBBED.** Leaves large and broad, well rounded heads. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**, postpaid.

284—**DWARF WINTER CURLED.** Compact with large deep green leaves curled and crimpled. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**, postpaid.



Green Curled Rose Ribbed

LETTUCE *Rich in Body Minerals*

HOME GROWN
LETTUCE IS
Delicious and Crisp

One ounce will sow a row 80 feet long, 4 lbs. to the acre.

Let your book of health contain vegetable leaves. Lettuce is a cool season plant that likes rich soil and plenty of moisture. Seed can be sown very early in the Spring. To have good lettuce and plenty of it, make plantings at intervals.

Early Loose Leaf Lettuce

These do not form solid heads, but where the plants are grown singly at a suitable distance apart they make a large cluster of leaves.

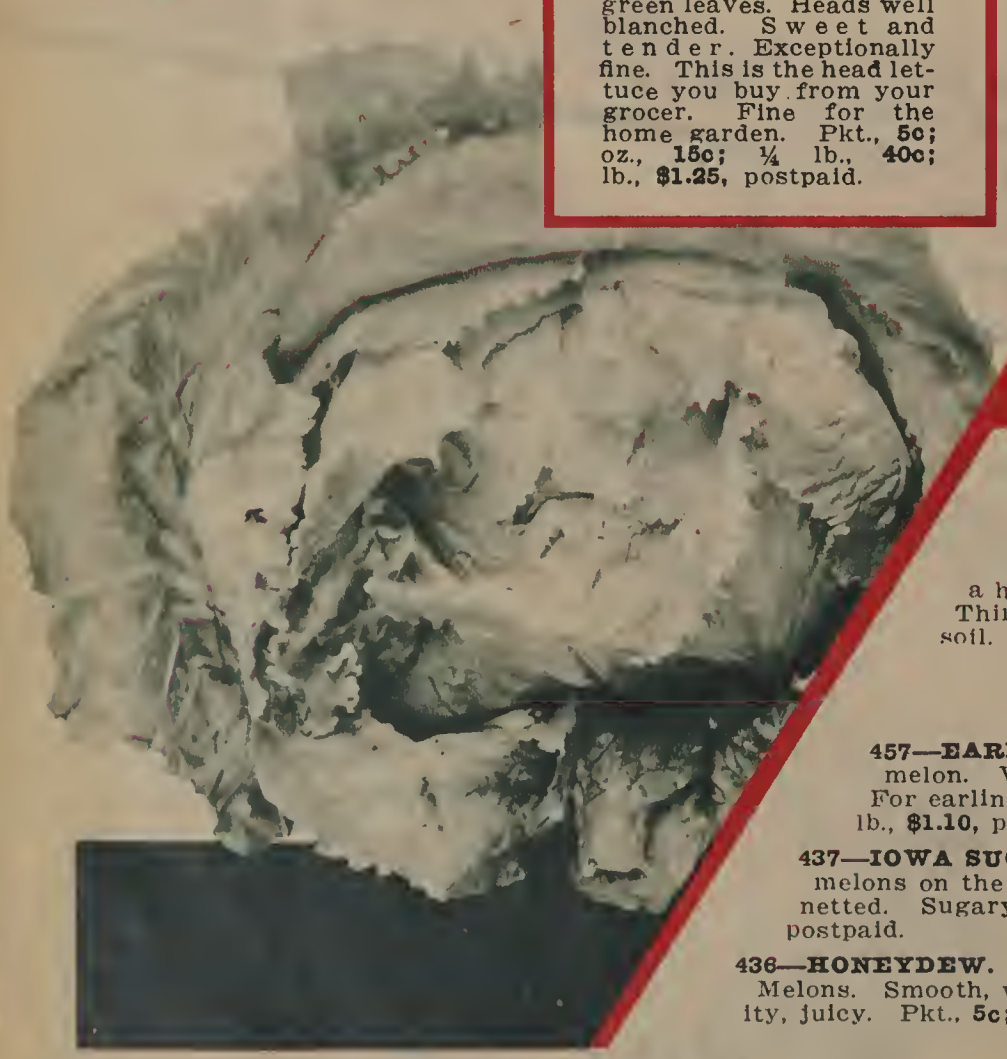
401—SIMPSON'S EARLY CURLED. One of the first vegetables we enjoy from our garden. It grows quickly, forms a large, tender, loose leaf. Is sweet and well flavored. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

404—EARLY PRIZE HEAD (Or Prolific). A splendid quick growing hardy loose leaf lettuce. The large crisp loose heads of bright green leaves are fringed with brownish red. Decidedly sweet flavor. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00**, postpaid. (See colored picture, Page 46.)

406—GRAND RAPIDS. (40 days.) This does not form solid heads but makes large compact bunches of light green leaves. Especially adapted to greenhouse culture in Winter. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

FREE GIFTS with your vegetable and flower seed orders—see page 2.

415—WONDERFUL (New York). (48 days.) The leading head lettuce today. A large curled heading variety with dark green leaves. Heads well blanched. Sweet and tender. Exceptionally fine. This is the head lettuce you buy from your grocer. Fine for the home garden. Pkt., **5c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**, postpaid.



402—BLACK SEEDED SIMPSON. (40 days.) Always reliable and easily grown. Large and compact; leaves finely fringed; very crisp and tender. Very good in hot weather. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00**, postpaid. (Colored picture, Page 44.)

CRISP HEAD LETTUCE

To grow good head lettuce start early in the house or hotbed, transplant later to the garden a foot apart each way. Rich soil, early planting, and lots of moisture is necessary for good Head Lettuce.

413—MAY KING. An extremely early heading lettuce, for earliest outside planting. Leaves yellowish green, tinged with brown at the edges. Heads medium, very compact, golden yellow inner leaves. Buttery flavor of finest quality. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

414—HANSON. (70 days.) A sure heading variety for late planting. Stands the heat remarkably well. Large globe shaped heads. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

416—ICEBERG. (72 days.) Large, crisp heads, tightly folded and well blanched; mild flavor; tender and sweet. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

420—CALIFORNIA CREAM BUTTER. (65 days.) Leaves are broad, very thick and crumpled. Interior of head rich, golden yellow; outside darker, producing large solid heads of beautiful appearance. Pkt., **5c**; oz., **15c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

417—CHICKEN LETTUCE. A hardy, tall-growing dark green lettuce. The greatest yielder of all. Lots of green feed for your poultry and rabbits. Cut and it comes up again. Pkt., **5c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.15**, postpaid.

418—MIXED LETTUCE SEED. All kinds mixed together. Do not sow too thickly and your crop will come on continuously. My best varieties in this mixture. Sow plenty and give the surplus to the poultry. Pkt., **5c**; oz., **10c**; ¼ lb., **23c**; lb., **69c**, postpaid.

MUSKMELON or CANTALOUPE

Ripe and Sweet—Fresh from the Vine

One ounce will plant 50 hills, 2 to 3 pounds to the acre.

Culture: Plant these in hills 6 feet apart each way, 8 to 10 seeds to a hill, ½ to 1 inch deep, just as soon as the ground is thoroughly warm. Thin out to 3 plants per hill. Melons prefer rich, sandy, well-drained soil. My favorites are Honey Rock, Rocky Ford and Hearts of Gold.

Green Fleshed

457—EARLY KNIGHT. (Sweet Air.) The earliest green fleshed medium sized melon. Very sweet. Flesh medium green blending to light pink when ripe. For earliness and quality you can't beat this one. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **$1.10**, postpaid.

437—IOWA SUGAR SWEET. One of the sweetest and most delicious green fleshed melons on the market. Medium large and very heady because of deep flesh. Well netted. Sugary, juicy, and tender. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**, postpaid.

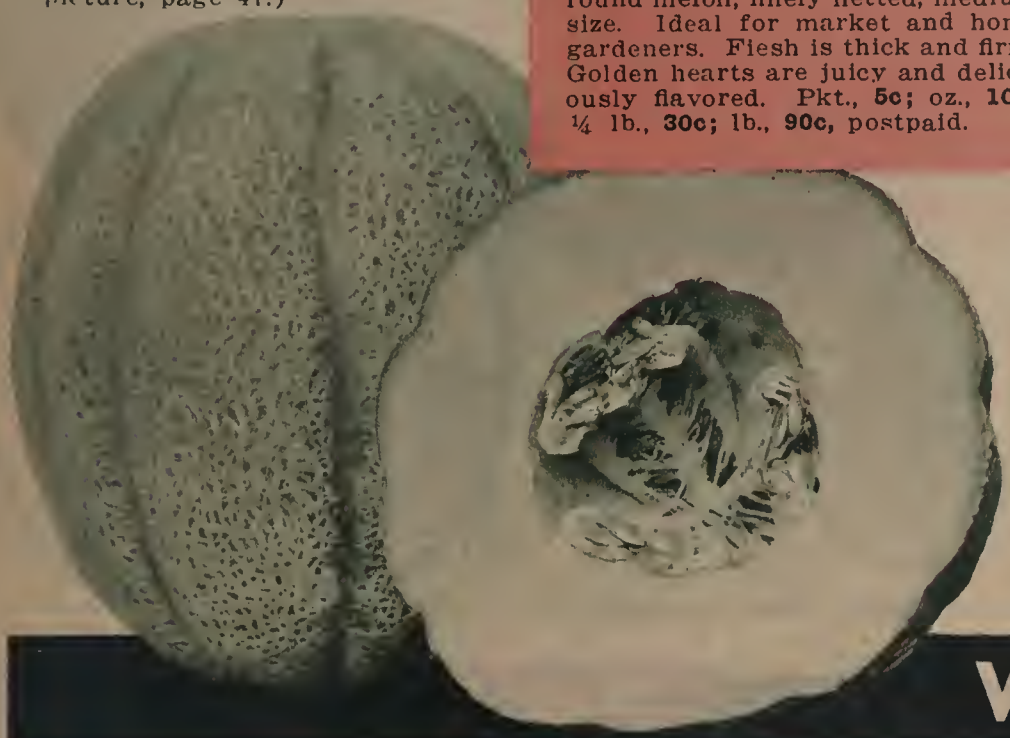
436—HONEYDEW. (112 days.) Requires longer and warmer season than any other Melons. Smooth, white rind, green flesh, sweet honey-like flavor. Has small seed cavity, juicy. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

GOLDEN or ORANGE FLESHED MUSKMELONS

432—HALE'S BEST. (Improved Rocky Ford.) The most popular canteloupe. Sells 2 to 1 over any other variety. Thick golden fleshed; deliciously flavored. One of the best melons for the Farm Belt. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid. (See colored picture, page 47.)

458—Hearts of Gold

My choice. An orange-fleshed, round melon, finely netted, medium size. Ideal for market and home gardeners. Flesh is thick and firm. Golden hearts are juicy and deliciously flavored. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.



435—SUNKIST. (Weaver's Special.) A delicious new yellow-meated muskmelon. Ripens early; a heavy yielder. Deep flesh a golden-orange color. Finest of sweet flavor. Fresh as the morning dew. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**, postpaid.

443—HONEY ROCK. The leading Farm Belt Melon. This new variety won favor because of its medium large size, excellent sweet flavor. It is well netted and ships well, allowing it to be thoroughly ripened on the vine. I highly recommend this one. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

452—GOLDEN LAKE CHAMPLAIN. (57 days.) Early, productive, and hardy. First ripe. Medium size; flesh deep golden color, plant very vigorous. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

465—YELLOW GIANT. (75 days.) A big melon to take to the Fair this Fall. Yellow Giant, the giant of the pink-meated muskmelons. Some melons weigh 25 lbs. Very pleasant taste. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; 1 lb., **80c**, postpaid.

468—BANANA CANTALOUPE. (95 days.) The flesh is very solid, rich salmon color. Delicious banana like flavor when the melon is thoroughly ripe. Grows from 20 to 30 inches in length and is very prolific. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

470—BOY'S FAVORITE. (Mixed Muskmelons.) Give the boys a packet or ounce of this seed for their own melon patch—the cream of the crop. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **65c**, postpaid.

FREE GIFTS With Your Seed Order See page 2

WATERMELONS

Grow 'em Big - - - Grow 'em Sweet from These Selected Strains

An ounce will plant about 30 hills

Culture: Treat same as Muskmelons except plant 8 to 10 feet apart, according to variety. Plant 7 to 10 seeds in a hill. Seeds should not be planted before the ground becomes warm and dry.

472—COLE'S EARLY. (80 days.) One of the earliest melons of all and especially good for family use. Very productive; rind green, striped with a lighter shade. Flesh bright red, crisp and sweet; good shipper. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **65c**, postpaid.

478—IMPROVED KLECKLEY SWEET. (85 days.) Probably the most widely grown melon of all. Regular in shape and even dark green rind with a large generous frosty red heart. Deliciously sweet. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **70c**, postpaid.

483—WILT-RESISTANT KLECKLEY SWEET NO. 6. (Resistant to wilt.) Introduced by the Iowa State Department of Agriculture. An improved strain of the improved Kleckley Sweet. It's a larger melon, however, and finer flavored with an average weight of over 28 pounds. Here are the prices: Pkt., **10c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.00**, postpaid.

479—PRIDE OF MUSCATINE. Introduced by the State Department of Agriculture. A variety which has proved itself in these wilt infested districts. Similar to Kleckley Sweet in size, color and type. Vigorous vines; heavy yielder. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **70c**, postpaid.

477—DIXIE QUEEN. A new melon. Fruits oval round; light green with dark green stripes. Average 30 pounds or more. The rind is thin but tough, making it a good shipper. Flesh bright red, crisp and sweet. Free from fiber, exceptionally fine. Pkt., **10c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**, postpaid.

480—EARLY KANSAN. (Red Russian.) A new melon that has proven a strong rival to Stone Mountain. It grows to good size, slightly oblong, striped with dark green and light green. Extremely early and extremely prolific. This Red Russian has a large, sweet, fine grained vivid red heart and is very juicy. **Big** Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

476—FOURTH OF JULY. (New Northern Sweet.) Introduced by the Minnesota State Department of Agriculture. A melon that ripens as early as nine weeks. It is remarkably sweet, of the finest quality. The flavor is rich and sugary. The earliest of all. Finest for the Farm Belt. **Big** Pkt., **10c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.50**, postpaid.

(Continued next page)

New Northern Sweet

Pride of Muscatine

WATERMELONS

(Continued from Page 57)

484—GOLDEN HONEY. (90 days.) A real quality yellow-meated melon greatly liked by everyone that has tasted it. Remarkably sweet, tender and juicy. Thin rind. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

485—STONE MOUNTAIN. (90 days.) This is my choice of all watermelons. They are very large, almost round, a light green in color, flesh a bright scarlet and extremely sweet. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid. (See colored picture. Page 47.)

488—TOM WATSON. Dark green in color. A long melon with rich red heart. Will weigh from 50 to 65 pounds each, an excellent, all-purpose melon, thick rind. A good shipper. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **65c**, postpaid.

493—COLORADO PRESERVING CITRON. Makes delicious preserves. Fruit is large, solid, round, green seeded. The color is a light green striped. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

494—BOY'S PRIZE WINNERS. (Mixed Melons.) A good mixture of our most popular varieties. A few new ones for trial included. Let your boys have that melon patch for pleasure and profit. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **60c**, postpaid.

475—Klondike

I believe this one is the sweetest of all the early melons. The flesh is deep red. Especially crisp, fine-grained and deliciously flavored. Extra-early. Fine for the Northern market as well as home use. Dark green rind, black seeds. A real gem for the Central West. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **90c**, postpaid.

FREE TREE SEED

100 Colorado Blue Spruce seed free with your vegetable and flower seed order of only $1.00. The beautiful Colorado Blue Spruce pictured on page 2 is growing right in Shenandoah, in Mrs. Gibson's yard. Pkt., **25c**, postpaid.

Other free gifts listed on page 2

Grow Giant PEPPERS from Seed . . .

For salads, pickling and seasoning

World Beater

Ruby King

An ounce will produce about 1,500 plants.

Culture. Peppers are more sensitive to frost than most other vegetables, and they should not be planted out until settled warm weather has arrived. The seed should be sown in the hotbed, cold frame, or if no better convenience is available, a box in the window. Transplant later in a row 24 inches apart each way and keep the soil clean and well stirred.

574—RUBY KING. (69 days.) Mild and the outstanding main crop pepper. Bright scarlet fruits 4 to 6 inches long, 3 to 4 inches thick. Heavy flesh; crisp and tender; very productive. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **70c**, postpaid.

585—WINDSOR A. All America Winner. Extra early. Mild and uniform. Fine new pepper. **Big** Pkt., **10c**; ½ oz., **30c**; oz., **50c**; ¼ lb., **$1.50**, postpaid. (See colored picture, Page 44.)

575—WORLD BEATER—MANGO. Plants vigorous and upright. Very productive. Smooth, glossy green fruits changing to bright red when ripe. Flesh thick, mild and very sweet. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

576—EARLY GIANT. (Mild.) A new variety that does especially well in more Northern latitudes. Large, bright red fruits, 4½ to 5 inches long and 4 inches thick, with very thick flesh. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

573—GOLDEN OSHKOSH. Exceptionally sweet. Smooth tapering fruits with blunt points. Deep glossy green changing to bright canary yellow. Be sure to try this one. Pkt., **5c**; ½ oz., **25c**; oz., **40c**; ¼ lb., **$1.25**, postpaid.

580—RED CHILI (81 days.) (Hot.) Very productive and is very hitty and pungent. Especially good for making Pepper sauce. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

582—PIMIENTO. Thick fleshed, mild and sweet, smooth glossy green turning bright red. Pkt., **5c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **90c**, postpaid.

584—CALIFORNIA WONDER. New pepper of real merit. It is of the bright red, glossy type, thick, strong walls, mild, delicate, sweet flavor. Early and a good shipper. Pkt., **5c**; ½ oz., **25c**; oz., **40c**; ¼ lb., **$1.25**, postpaid.

PARSNIPS

TASTY TONIC

For Winter and Early Spring

AN OUNCE WILL SOW 200 FEET OF DRILL, 5 TO 6 POUNDS PER ACRE

This is my favorite for winter and early spring. You leave them in the ground in the fall until they mature. Store in a straw lined pit and cover with dirt. Believe me, you have a vegetable dish that is hard to beat, especially if you cook them with pork.

Culture. Sow early in the spring in drills 18 inches apart. Cover with fine soil to one-half inch; the soil should be rich and deeply dug.

552—HOLLOW CROWN GUERNSEY. The finest parsnip for table use. Quality far superior to any other variety. Its rich, tender, sweet flavor is improved by frost. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

553—SHORT THICK. Resembles Hollow Crown. The roots are slightly shorter and free from side roots, uniform, tender and finely flavored. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

SPINACH

EAT GREENS AND ALWAYS LOOK FRESH

Richest of All Vitamin Vegetables

ONE OUNCE WILL SOW ABOUT 100 FEET OF DRILL, 10 POUNDS PER ACRE

Culture. Sow in March or April in drills an inch deep and 14 inches apart. Again in August or September.

685—NEW ZEALAND SPINACH. Cut and come again. All summer variety. Hardy, enjoys hot dry weather. Vigorous growing. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **70c**, postpaid.

682—BLOOMSDALE. The earliest variety and one of the best to plant in autumn for early spring. With leaves slightly curled. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **45c**, postpaid.

684—KING OF DENMARK. For early spring. Large tender leaves. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **45c**, postpaid.

680—MUSTARD SPINACH. Also called Tender Green. Quick growing; resists heat and drouth. I know you'll like this new green; has the flavor of both mustard and spinach. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **75c**, postpaid.

683—NEW DEL MONTE SPINACH. 1938 All America Winner. A splendid variety with thick, deep green, tender leaves; excellent for canning and the market. **Big** Pkt., **15c**; oz., **30c**; ¼ lb., **75c**; lb., **$1.85**, postpaid. (See colored picture, page 2.)

ONIONS

The Best in

SEEDS • SETS • PLANTS

CRISP, MILD and APPETIZING

A Great Health Vegetable and Fine Aid to Digestion

Plant Sets for Green Onions. The Bermuda and Yellow Giant Plants for large mild sweet onions from Midsummer on.. Seed onions for your fall harvest crop and winter storage. From my own experience I have found it best to grow some of each. They are one of the best foods we have.

ONION SETS—9½¢ Postpaid qt. (lb.) In. bu. lots Reds or Yellows

Green onions from your sets will be your first garden crop in the Spring. One quart of sets will plant a 40-foot row, 10 to 12 bushels per acre.

Our sets are grown under ideal conditions, will stand all sorts of hardships, and will grow better onions than any other sets.

All Onion Sets Postpaid	2 Qts.	4 Qts.	Pk.	Bu.
532—Red Bottom Sets	$0.35	$0.60	$1.00	$3.00
534—Yellow Bottom Sets	.35	.60	1.00	3.00
536—White Bottom Sets	.40	.70	1.15	3.25

538—**GARLIC SETS.** For flavoring soups and stews. Divide the bulbs I send you and plant the little individual parts. Plant, care for and store for winter just like you would onions. Lb., **35c**; 2 lbs., **55c**; 4 lbs., **$1.00**; 8 lbs., **$1.85**, postpaid.

Onion Plants

How to Grow Onions from Plants

Plant in rows 14 to 16 inches apart; 4 inches apart in row. Cultivate shallow. When about 60 per cent of tops droop or are soft just above onion pull up, let lay in sun for two or three days to increase firmness. For keeping for home use, let tops and roots remain and tie in bunches. Onion plants are put up in bunches of 100. We do not split bunches.

508—**SOUTHPORT RED GLOBE.** Remarkably uniform size; color rich red with a glossy appearance; inner flesh white tinged with purple. The best keeper of all. Pkt., **5c**; oz., **15c**; ¼ lb., **45c**; lb., **$1.50**, postpaid.

ONION SEED

One Ounce for 100 Feet of Drill, 5 to 6 Pounds per Acre

Culture: Sow in rich, sandy soil in drills one foot apart as early as possible in the Spring. Cover with fine soil and firm well either with roller or back of spade. When plants are strong enough, thin out to 3 or 4 inches. Cultivate and keep free from weeds. As a general rule reds keep better than whites. For sets, sow 50 to 60 pounds for an acre.

500—**NEW WHITE SWEET SPANISH.** New Strain of White Sweet Spanish Onion. I know you will want to try this fine new white onion. Pkt., **5c**; oz., **25c**; ¼ lb., **70c**; lb., **$2.25**, postpaid.

503—**PRIZETAKER.** For years the principal yellow onion; large mild and sweet, globe shape; light straw color. Pkt., **5c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.75**, postpaid.

502—**YELLOW GIANT (RIVERSIDE SWEET SPANISH).** Superior in flavor, mildness and keeping quality. It is large, well shaped and without question the best home and market onion. Grown in great quantities in the onion districts. (See colored picture, Page 46.) Pkt., **5c**; oz., **20c**; ¼ lb., **60c**; lb., **$2.00**, postpaid.

504—**EXTRA LARGE RED WETHERSFIELD.** Large, flat, solid, very mild pleasant onion flavor. The skin is deep purplish-red; flesh purplish-white; moderately fine-grained. Pkt., **5c**; oz., **15c**; ¼ lb., **45c**; lb., **$1.50**, postpaid.

510—**SOUTHPORT YELLOW GLOBE.** Similar in shape to other Southport Onions; rich golden yellow color; mild and sweet. Will average from 3 to 3½ inches in diameter. Pkt., **5c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.75**, postpaid.

516—**SILVERSKIN (White Portugal).** Very popular for family use. A mild onion. Good for pickling, also for slicing and boiling. Good keeper, excellent for Winter use. Pkt., **5c**; oz., **20c**; ¼ lb., **50c**; lb., **$1.75**, postpaid.

519—**BOTTLE ONIONS.** Crystal White, uniform onion, ideal pickling size. Mild and sweet. For sweet pickles I think they can't be beat. Pkt., **5c**; oz., **20c**; ¼ lb., **60c**; lb., **$2.00**, postpaid.

520—**MIXED ONIONS.** A mixture of the finest of all onions. All kinds and colors. Some for early use and some of these are the best of keepers. Pkt., **5c**; oz., **15c**; ¼ lb., **45c**; lb., **$1.50**, postpaid.

FREE GIFTS with Your Seed Order—See Page 2

New White Sweet Spanish

506—**SOUTHPORT WHITE GLOBE.** One of the most popular for family use and best for pickling, slicing and boiling. Good keepers, excellent for winter use. Suitable for bunching. Pkt., **5c**; oz., **20c**; ¼ lb., **60c**; lb., **$2.00**, postpaid.

ALL POSTPAID

Small Sugar Pie Pumpkin

PUMPKINS
For Mother's Pies

90 POUNDS
King of the Mammoth

611—**NEW BUSH PIE PUMPKIN.** Small gardeners, here's the pumpkin for you. Grows just like Small Sugar Pie but on an upright bush vine, covering a space of not more than 3 square feet. Sweet thick flesh. Finest for pies. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.25**; 5 lbs., **$5.25**, postpaid.

Plant Them in the Corn—Grow Two Crops in One

Culture: Plant in April or May among corn or in the garden in hills 8 to 10 feet apart, to give the vines plenty of room to spread. Cultivate the same as cucumber. If bugs and worms bother, dust with Garden Guard.

610—**SMALL SUGAR PIE PUMPKIN.** The standard sweet pie pumpkin everybody knows. A prolific yielder of finest flavor. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **70c**; 5 lbs., **$3.00**, postpaid.

606—**LARGE CHEESE.** (105 days.) Flat like a cheese box. Good for pies and canning. Creamy buff skin; thick golden flesh. Weighs 10 to 12 pounds. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.25**, postpaid.

602—**CONNECTICUT FIELD OR BIG TOM.** (110 days.) A big cornfield pumpkin. Good for ples and canning, also stock feeding. Vigorous grower. Weighs 10 to 15 pounds. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.25**, postpaid.

604—**KING OF THE MAMMOTHS OR JUMBO.** (110 days.) Grows to an immense size and often weighs 100 pounds. The mammoth cornfield variety. Pkt., **5c**; oz., **15c**; ¼ lb., **35c**; lb., **$1.00**; 5 lbs., **$4.25**, postpaid.

608—**CUSHAW or CROOKNECK.** (80 days.) Color light green changing to white; thick golden colored flesh. Medium sweet. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **70c**; 5 lbs., **$3.00**, postpaid.

615—**"PRIZE PUMPKIN COLLECTION."** All kinds and sizes, including the giant pumpkin, King of the Mammoth. A real assortment which has a surprise in store for you. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **45c**; 5 lbs., **$2.00**, postpaid.

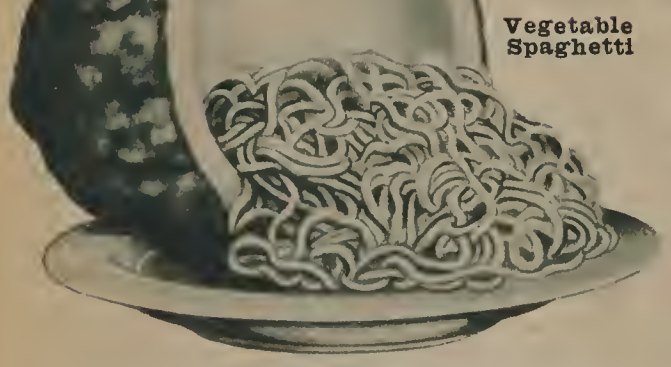
SQUASH
for summer and winter keeping

Cook 'em young—They're fine that way too!

One ounce of squash will plant 25 hills.

Culture: Squash seed succeeds best in good, rich soil. It is not advisable to plant before May 15. Plant in hills 4 to 5 feet apart. Put 6 to 10 seeds in a hill, finally thinning out to 3 to 4 plants. Winter squashes may be grown in the cornfield the same as pumpkins.

Vegetable Spaghetti



Fall or Winter Squashes
These Are the Long Keepers

721—**BUTTERCUP.** The new baking squash that is taking the country. With a flavor surpassed by none. It is early, coming to us from North Dakota. I know you'll like it. **Big** Pkt., **10c**; oz., **20c**; ¼ lb., **60c**; lb., **$1.75**, postpaid.

Buttercup Squash

722—**GOLDEN HUBBARD.** (90 days.) Excellent quality for home use or shipping. Skin is bright deep orange-yellow; flesh is deep golden yellow, fine grained. Yields extra-heavy. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **95c**, postpaid.

725—**VEGETABLE SPAGHETTI.** The new Spaghetti Squash that has attracted so much attention. Cooks up like spaghetti. Cook lemon yellow mature size 20 minutes in boiling water. Cut in half and season with salt, pepper and butter. It's a real treat. Big Pkt., **10c**; oz., **20c**; ¼ lb., **60c**; lb., **$1.75**, postpaid.

Summer or Early Varieties

710—**GIANT SUMMER CROOKNECK.** The standard yellow Summer Crookneck. Bake them when they're small. They're fine that way. The most popular summer baking squash. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

711—**GIANT SUMMER STRAIGHTNECK.** Just like Summer Crookneck but has a straight neck. Finely flavored and bakes especially well. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

714—**GOLDEN BUSH SCALLOP.** (55 days.) Early, flat scallop variety; skin deep yellow; flesh pale yellow; well flavored. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

716—**WHITE BUSH SCALLOP.** (53 days.) Well known patty-pan Squash. One of the earliest and very productive; cream color. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **80c**, postpaid.

Free Gifts—See Page 2

Table Queen Squash

730—**NEW TABLE QUEEN.** (Or Acorn.) (58 days.) Finest baking squash. Just the size to cut in half and serve. Vigorous grower; very productive. Color a real dark green. Will keep practically all winter. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **$1.00**, postpaid.

720—**IMPROVED CHICAGO WARTED HUBBARD.** (85 days.) King of the Winter Squashes. Fine quality and a great keeper. Dark green warted fruits. Flesh golden yellow. Very fine. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **90c**, postpaid.

724—**BANANA.** (105 days.) Fruit slate gray; 2 feet long, fine flavor. Fine, mealy texture; flesh thick and tender; deep golden yellow. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00**, postpaid.

728—**JUBILEE SQUASH.** Fruits 6 to 8 inches long. Golden yellow striped with green. Cut in half and bake; serve with melting butter. A real treat. Pkt., **5c**; oz., **10c**; ¼ lb., **35c**; lb., **95c**, postpaid.

734—**MIXED SQUASH.** All Season Mixture. This assortment consists of all kinds of squash, both summer and winter varieties. Allow plenty of room between hills, at least 10 or 12 feet. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **75c**, postpaid.

Tender TURNIPS

Best of Food Greatest Yielding Vegetable

Purple Top White Globe

Earl May's Selection of Sweetest Turnips
One ounce will sow 150 feet of drill.

Culture: For early turnips, sow as soon as possible. For late turnips, sow latter part of July or first of August. Turnips are generally sown broadcast, but larger crops are obtained by cultivating in drills 18 inches apart. One pound of seed to the acre, if in drills. If sown broadcast, 2 to 3 pounds per acre. Three tons of turnips or rutabagas are worth as much as one ton of alfalfa hay.

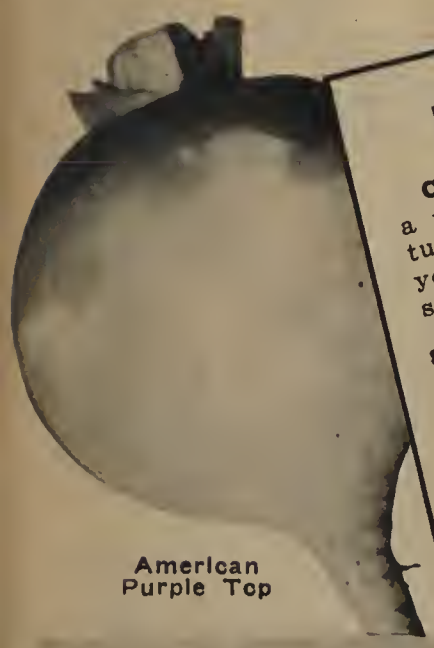
810—SNOWBALL OR EARLY SIX-WEEKS. (42 days.) One of the best varieties for early spring table use; uniform in size; flesh is pure white, solid and crisp; very tender and sweet. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.00**, postpaid.

812—EARLY PURPLE TOP STRAP LEAF. (46 days.) Flat, purple red top, white below. Very early, flesh fine grained and of sweet flavor. Extensively used for table. A very good keeper and may be sown either broadcast or in drill. Pkt., **5**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.00**, postpaid.

816—EXTRA EARLY PURPLE TOP MILAN. (42 days.) Medium size, white, smooth and bright purple top; good for home use. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **65c**; 5 lbs., **$2.75**, postpaid.

818—PURPLE TOP WHITE GLOBE. (55 days.) The housewife's choice. Very productive, mild and very sweet. Exceilent keeper. Plant this one. I know you'll like it. Very finest quality. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.00**, postpaid.

820—LARGE YELLOW OR AMBER GLOBE. (76 days.) Flesh yellow; hardy and productive. This turnip is grown largely for stock feeding. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.00**, postpaid.



American Purple Top

Rutabagas

Culture: Should be sown a few weeks earlier than turnips. Plant just like you do the turnips and store the same way.

832—AMERICAN PURPLE TOP. (88 days.) The standard variety, with yellow color and purple top; fine quality and a good yielder. Pkt., **5c**; oz., **10c**; ¼ lb., **20c**; lb., **50c**; 5 lbs., **$2.00**, postpaid.

TRY SALSIFY
Or Vegetable Oyster

An ounce will sow about 50 feet of drill.

Culture: Sow early in Spring, in drills 12 in. apart and one inch deep, thin out young plants to 6 inches. Roots will be ready in October, when a supply should be taken up and stored like carrots. Will suffer no injury left in ground until Spring. Long, smooth, white roots when cooked, have flavor like oysters.

690—MAMMOTH SANDWICH ISLAND SALSIFY. Tender and delicious. Pkt., **5c**; oz., **15c**; ¼ lb., **40c**; lb., **$1.00**, postpaid.

HERBS In Every Garden

"For Flavoring and Seasoning"
(Write for free care and culture leaflet)

900—ANISE. Cultivated for its seed and its leaves which have a fragrant and agreeable scent, and a pleasant taste. **Big** Pkt., **10c**, postpaid.

902—CARAWAY. A bienniai having finely cut foliage, similar to carrots. Seeds used for flavoring pastry and meat. **Big** Pkt., **10c**, postpaid.

903—CHIVES. Has just enough onion flavor to season salads and soups. The seed is also used for seasoning. **Big** Pkt., **10c**, postpaid.

904—CORIANDER. An annual. Its tender leaves are used for soups and salads. Seeds are used by confectioners and in medicines. **Big** Pkt., **10c**, postpaid.

906—DILL. Used in soups and pickles. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **30c**, postpaid.

908—HOREHOUND. A hardy perennial. Its leaves are used for flavoring candy and in the manufacture of cough medicine. **Big** Pkt., **10c**; oz., **25c**, postpaid.

911—SWEET BASIL. The leaves are used for flavoring soups, stews, and highly seasoned dishes. **Big** Pkt., **10c**, postpaid.

912—FLORENCE FENNEL. The leaves are used for garnishing; seeds are also used for flavoring. **Big** Pkt., **10c**, postpaid.

905—MINT. A delicacy for flavoring drinks. **Big** Pkt., **10c**, postpaid.

913—ROSEMARY. The leaves are used for seasoning. Also for medical purposes. **Big** Pkt., **10c**, postpaid.

915—SAGE. Useful for seasoning. **Big** Pkt., **10c**; oz., **20c**, postpaid.

917—THYME. The leaves and young shoots used for seasoning. Tea is also made from the leaves. **Big** Pkt., **10c**, postpaid.

922—LAVENDER (Lavendula Vera). The dried leaves and flowers are placed in clothes closets to scent linens. **Big** Pkt., **10c**, postpaid.

923—SWEET MARJORAM (Origanum Marjorum). Used fresh or dried for seasoning sauces, soups, etc. **Big** Pkt., **10c**, postpaid.

Tobacco

One ounce will sow about 25 square feet and will produce enough plants for one acre.

Culture: Sow under glass during February. In early June plant out 3 feet apart each way.

706—HAVANA. Well known large-leaf variety, especially good for the manufacture of cigars. Pkt., **5c**; oz., **35c**; ¼ lb., **$1.25**; 1 lb., **$3.75**, postpaid.

705—WHITE BURLEY. A number of my friends have been asking for this variety. A heavy yielder with rich, broad leaves. Easy to cure. Desirable for cut or plug tobacco. Pkt., **5c**; oz., **35c**; ¼ lb., **$1.25**; 1 lb., **$3.75**, postpaid.

Unusual Vegetables

901—NEW VINE PEACH. Bright orange color. Grows on vine somewhat smaller than a muskmelon. Fine for pies, sauce, preserves and sweet pickles. Ripens in about 80 days. **Big** Pkt., **10c**, postpaid.

910—NEW GUINEA GOURD BEANS. Weigh 15 pounds or more each. The vines will climb an arbor or any support to a height of 20 to 30 feet, or run along fences. They are used in the same manner as squashes and egg plants. **Big** Pkt., **10c**; oz., **20c**, postpaid.

930—BRUSSELS SPROUTS. (Perfection.) Small sprouts resembling miniature cabbage. Heavy yielder; fine quality. **Big** Pkt., **10c**; oz., **20c**; ¼ lb., **50c**, postpaid.

934—WATER CRESS (Nasturtium Officinalis). Perenniai aquatic. Leaves fine for garnishing and salads. **Big** Pkt., **10c**, postpaid.

936—CRESS OR PEPPER GRASS. Extra Curled. A small salad plant used for garnishing. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **25c**, postpaid.

940—LENTILS. Round, flat, pea-like seeds for soups. Pkt., **5c**; oz., **10c**; ½ lb., **35c**; lb., **60c**, postpaid.

946—KALE OR BORECOLE. Tall green curled. About 2 feet high. Numerous dark green, curled leaves. Similar to spinach. Cooked with bacon makes a delicious, healthful dish. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **30c**, postpaid.

958—LEEK. American Flag. Closely related to garlic, but much easier to grow. Used for flavoring soups and salads. Very mild. **Big** Pkt., **10c**; oz., **25c**, postpaid.

962—MUSTARD. Southern Giant Curled. Large, curled-leaved variety. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **60c**, postpaid

966—OKRA (Gumbo.) Dwarf prolific. The fruit pods are used in soups, stews and catsups. Pods comparatively short, but numerous. Early variety. **Big** Pkt., **10c**; oz., **15c**; ¼ lb., **30c**, postpaid.

932—COLLARDS. Plant of the cabbage family. Use as a green. Forms a cluster of tender leaves on a long stem. Excellent quality when cooked. Withstands heat and adverse soil conditions. **Big** Pkt., **10c**, postpaid.

938—GARDEN HUCKLEBERRY. Black, shiny berries, ½ to ¾ inches in diameter. Make delicious pies, preserves and jam. Same culture as tomatoes. **Big** Pkt., **10c**; ¼ oz., **25c**; oz., **75c**, postpaid.

Kohlrabi

The Combination Vegetable

A very fine vegetable you should include in your garden planting. Has a combined flavor of both cabbage and turnip. Is fine in salads as well as for cooking.

950—EARLY WHITE VIENNA. Especially early, adapted for forcing; flesh white and very tender. Pkt., **5c**; oz., **15c**; ¼ lb., **40c**, postpaid.

952—EARLY PURPLE. Purple outside with white flesh. Pkt., **5c**; oz., **15c**; ¼ lb., **40c**, postpaid.

GRANDMOTHER'S HERB GARDEN

DILL—Seasoning and pickling.
HOREHOUND—For candy and colds.
SAGE—As seasoning.
LAVENDER—To scent your linens.
MINT—Flavoring drinks.

You get all of these in Grandmother's Herb Collection.

5 big, full-sized packets for ONLY 29c postpaid

A WEALTH of HEALTH-

Vegetables That Grow and Yield

GARDEN PEAS

Tender and Delicious When Fresh from Your Own Garden

Plenty of Protein in the Purest Sweetest Form

One pound will plant 100 feet of drill

180—LITTLE MARVEL PEAS.

171—ALASKA WILT RESISTANT PEAS. Extra-early, hardy, wilt-resistant. A great yielder.

Culture. Sow peas as early in the Spring as possible and every two or three weeks in succession up until the first of August.

Plant 2 to 3 inches apart in rows 2 inches deep and 4 feet apart. Soak the peas over-night before planting. For late peas plant extra early varieties from the middle to last of August. On tall varieties brush or chicken wire can be used to support vines.

May's Extra Early Varieties

171—ALASKA WILT RESISTANT. Extra-early, hardy, wilt resisting, a great yielder. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.15**, postpaid.

172—ALASKA. The standard early garden pea. Very hardy and a heavy yielder. Grows 2 feet high. Good canning variety as well as market. Pkt., **5c**; ½ lb., **15c**; lb., **25c**; 2 lbs., **45c**; 5 lbs., **95c**, postpaid.

173—PREMIUM GEM. A valuable home-garden variety. Grows 16 to 20 inches tall, does not need staking. Medium green, pod plump, straight, blunt ended. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

175—AMERICAN WONDER. The earliest wrinkled pea—just a few days later than Alaska. Particularly suited for the home garden. The vines are dwarf and bear an excellent crop of straight blunt ended pods filled with sweet sugary peas of the finest quality. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

176—EARLY SUPERB. The earliest large podded dwarf growing pea. Slightly dimpled seed. The vines grow about 18 inches high. A great bearer of the finest quality. You'll like this one. **Big** Pkt., **10c**; ½ lb., **25c**; lb., **40c**; 2 lbs., **70c**; 5 lbs., **$1.50**, postpaid.

Dwarf Wrinkled Varieties

178—IMPROVED FILLBASKET. Lives up to its name. Large, well filled pods. Excellent flavor. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

179—PROGRESS. (Laxton.) Extra large pods and a great yielder. Ready to pick in 60 days. Grows 18 to 20 inches tall. Very fine. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

180—LITTLE MARVEL. The most delicious early dwarf growing garden pea. Heaviest yielder and outstanding quality. Pkt., **5c**; ½ lb., **20c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.25**, postpaid.

182—EVERBEARING. A productive, second-early variety. Peas are large, good quality. For a continued bearer, this variety is unexcelled. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

Midseason Peas—Wrinkled

184—DWARF TELEPHONE or DAISY. A medium-late Pea, makes a vigorous growth and is very productive. Pods are well filled. Pkt., **5c**; ½ lb., **18c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.20**, postpaid.

186—IMPROVED TELEPHONE. (Alderman strain.) (70 days.) Height 3½ to 4 feet. Good main crop, known by everyone. Large, well filled pods. Most delicious flavor. Pkt., **5c**; ½ lb., **20c**; lb., **30c**; 2 lbs., **55c**; 5 lbs., **$1.25**, postpaid.

190—MELTING SUGAR. Large, broad, stringless pods, prepared similar to wax beans. Height, 5 feet. Pods when cooked are very tender, sweet and sugary. Pkt., **5c**; ½ lb., **20c**; lb., **35c**; 2 lbs., **60c**; 5 lbs., **$1.35**, postpaid.

768—PRITCHARD TOMATO. One of the finest.

784—YELLOW PEAR TOMATO. Bright yellow color. Finely flavored. Makes most delicious preserves. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

Moss Curled Parsley

PARSLEY

A Rich Relish With Lots of Iron

One ounce will sow about 150 feet of drill

Culture. Sow early in the Spring in drills 1 ft. apart and ½ in. deep. Thin out young plants to 4 inches.

556—MOSS CURLED. (70 to 75 days.) The most popular variety. Grows to a height of about 8 inches. Color dark, rich green; leaves crinkled and curled. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **60c**, postpaid.

558—HAMBURG TURNIP-ROOTED. (85 days.) The root is the edible portion of this variety and resembles a small parsnip in both color and shape. Hamburg Parsley should be grown the same as Carrots. Pkt., **5c**; oz., **10c**; ¼ lb., **25c**; lb., **60c**, postpaid.

TOMATOES

Greatest of All Vegetables

TASTY AND APPETIZING—
VITAMIN VITALIZER

The Best Spicy Juice

Fine for Slicing as Well as Canning

One ounce will produce about 2,000 plants

Culture: Sow seed in hotbeds from second week of February up to end of April. About May 15th, plants may be set in open ground 3 feet apart. For a small garden, sow a few seeds in a shallow box in a sunny window. Early varieties may be sown as late as the first of June in open ground.

Early Varieties

766—EXTRA EARLY BOUNTIFUL. Smooth. Highly flavored. Canning variety. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **75c**, postpaid.

758—EARLIANA. (66 days.) We have the best strain of Earliana obtainable. Early, smooth, bright pink color. Borne in clusters. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **75c**, postpaid.

769—SCARLET DAWN. (All America Winner.) Wilt and rust resistant. Fine, early, round, smooth, globe-shaped tomato. Thick, heavy meat. Pkt., **5c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **$1.00**, postpaid.

772—BONNY BEST. Bright scarlet in color. Smooth, apple shaped. Vigorous growing and a great yielder. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **75c**, postpaid.

Main Crop Varieties

754—NEW STONE. (88 days.) Large, bright scarlet tomatoes; ripening very evenly with solid, firm flesh. Used extensively for canning. Pkt., **5c**; ½ oz., **15c**; oz., **20c**; ¼ lb., **60c**, postpaid.

765—NEW RUTGERS. (72 days.) The finest red tomato I know. Big, sturdy plants, and it's early. In my trial garden last year I included several thousand Rutgers plants, by far the heaviest yielder. **Big** Pkt., **10c**; ½ oz., **25c**; oz., **40c**; ¼ lb., **$1.25**, postpaid. (See colored picture, page 44.)

757—MARGLOBE. This is the leading main crop tomato. Developed by the U. S. Department of Agriculture. Resistant to wilt, rust, or rot. Pkt., **5c**; ½ oz., **15c**; oz., **25c**; ¼ lb., **75c**, postpaid.

768—PRITCHARD. (73 days.) Scarlet, self-topping, disease resisting variety. Fruits large, smooth, with superior flavor. Pkt., **5c**; ½ oz., **15c**; oz., **30c**; ¼ lb., **80c**, postpaid.

752—DWARF CHAMPION. (Tree Tomato.) (86 days.) Vines grow dwarf and compact. Extremely hardy and can be set out very early. Purplish pink color. Pkt., **5c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **$1.00**, postpaid.

756—PONDEROSA. (Pink.) (88 days.) This is still the biggest tomato that grows and this strain is particularly fine. **Big** Pkt., **10c**; ½ oz., **20c**; oz., **30c**; ¼ lb., **$1.00**, postpaid.

762—GOLDEN PONDEROSA. (89 days.) Same as Pink Ponderosa, only of yellow color. Finest quality. Sliced with red ones, make a very attractive dish. **Big** Pkt., **10c**; ½ oz., **25c**; oz., **40c**; ¼ lb., **$1.35**, postpaid.

755—OXHEART. (Red.) The Giant of them all. Thick, solid flesh; mild flavor. Fine for slicing. **Big** Pkt., **10c**; ½ oz., **30c**; oz., **50c**; ¼ lb., **$1.75**, postpaid.

770—GOLDEN OXHEART. Just like the red Oxheart, with large yellow thick meat. Mild flavor. **Big** Pkt., **10c**; ½ oz., **35c**; oz., **60c**; ¼ lb., **$2.25**, postpaid.

764—JUNE PINK. (Wilt resistant.) The finest main crop pink tomato. Fruits medium large, exceptionally smooth. **Big** Pkt., **10c**; ½ oz., **25c**; oz., **40c**; ¼ lb., **$1.35**, postpaid.

759—WHITE QUEEN. Fruits ivory white. Exceptionally mild and free from acid. **Big** Pkt., **10c**; ½ oz., **35c**; oz., **60c**; ¼ lb., **$2.25**, postpaid.

Baby Tomatoes for Preserves and Pickles

782—HUSK or GROUND CHERRY. A small tomato of golden color and a favorite for preserves. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

784—YELLOW PEAR. (76 days.) Pear-shaped tomato. Bright yellow color and good flavor. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

786—RED PEAR. (76 days.) Fruit bright red and pear-shaped. Pkt., **5c**; ½ oz., **20c**; oz., **35c**; ¼ lb., **$1.00**, postpaid.

A message FROM MRS. MAY

DEAR FLOWER FRIENDS:

I do love flowers and right here I just want to say a word about Annual Flowers. My, how they do bloom and the finest thing about them is that they give you this array of color and blooms the very first year. With just a few packets of seed, you can have these bright, showy blooms in your own garden besides plenty for cut flowers. If I could only have one Annual Flower, I think it would be Zinnias. During the hottest of summers the Zinnia will give you beautiful blooms daily. They do equally as well in wet weather.

I want you to get acquainted with some of the other new varieties too this year.

Yours very truly, Mrs. Earl E. May

GROW LOTS OF ANNUALS

1056—AMETHYST FLOWER. (Browallia Elata.) 12 inches tall. Blooms mid-summer to frost. Pkt., **10c.** Plants, **40c** per doz., postpaid.
1205—BABY BLUE EYES. (Nemophila.) Grows 8 to 10 inches tall. Covered with small Poppy-shaped blooms, blue and white. At home anywhere. Pkt., **5c.**

1127—BABY'S BREATH. This annual variety has larger flowers than the perennial and is a soft pink in color.

1054—BALSAM. The old-fashioned "Touch-Me-Not" or "Lady's Slipper." A great profusion of brilliantly colored blooms.
1051—BARTONIA. Here is a beautiful rock garden plant of gray foliage literally covered with bright golden yellow blooms.
1119—BLUE LACEFLOWER. (Didicus Coeruleus.) Charming annual. Excellent for bedding and a desirable cut flower. Seed Pkt., **10c**; 3 for **25c.** Plants, **40c** per doz., postpaid.

1153—Burning Bush (Kochia)

Makes a beautiful hedge or background. Grows very compact, turning from light green to blood red in early Autumn. Pkt., **5c.** (See picture in color, Page 70.)

1069—BUTTERFLY FLOWER. (Schizanthus.) Fern-like foliage. The blooms are all colors, shaped like many delicate butterflies.

Calendula (Pot Marigold)

1058—CALENDULA ORANGE SHAGGY. Gold Medal winner. New graceful, striking Calendula, both for the garden and for cutting.
1059—RADIO CALENDULA. A large double bloom of a deep shade of golden yellow with attractively quilled petals.
1057—ORANGE KING.
1142—CALENDULA, NEW SUNSHINE. Gold Medal selection. Brilliant profuse bloomer.

1080—Gay Calliopsis

Beautiful in the garden or for cut flowers. Easily grown. Sow early and thin to 12 inches apart.

CANDYTUFT. Beautiful hyacinth shaped blooms. When massed in flower beds and edgings they are unsurpassed. Make splendid cut bouquets.
1065—Crimson. **1064—Fine Mixed.**
1066—CANNA, LARGE FLOWERING. Cannas can easily be grown from seed, too. Soak seed 24 hours in warm water. Sown in February, blooms in July. All colors mixed.
1094—NEW ANNUAL CANTERBURY BELL. All-America selection. Brings spring to the garden in the fall. Delicate, bell-shaped blooms in rich shades of blue, pink, rose and white. Pkt., **10c.**
1062—CASTOR BEANS (Ricinus). Well adapted for backgrounds along the side or back garden fence. Moles won't bother a garden hedged with Castor Beans. Pkt., **5c.**

PRICES: All Packets **3** for **25c** or 10c each, postpaid, unless otherwise noted.

COSMOS

The Garden Favorite Everywhere

A tall graceful showy annual. Blooms all summer. An excellent cut flower. Pinch out top for bushy plants.
EARLY FLOWERING MAMMOTH. Giant flowered early sorts.
1091—Pink. **1092—Crimson.** **1093—Mixed.**
1098—CROWNED and CRESTED. All colors mixed.

PRICES: All Packets **3 for 25c** or 10c each, postpaid, except as noted

All Color PETUNIAS

A Mass of Bloom All Summer

Few plants equal the Petunias for freedom of bloom and variety of color. Petunias will produce beautiful, sweet-scented flowers in their delicate and gorgeous colors throughout the whole summer. Unsurpassed for boxes, beds or informal garden planting.

1230—GENERAL DODDS. Dark velvety red.
1231—HOWARD STAR. Rich maroon.
1232—ROSY MORN. Rose pink, white throat.
1234—VIOLET QUEEN. Velvet violet blue.
1228—TWINKLES. (Star of California.) Pkt., **20c.** (See picture in color, Page 71.)

1229—NEW ROSE GEM. All American Winner. Rich deep rose pink, dwarf compact type. An exceptionally fine new Petunia of the best color. Pkt., **15c.**

1235—DWARF MIXED PETUNIAS. A wide range of fine rich color. Very effective for beds. They grow 12 inches tall.

LARGE BALCONY TYPE BLOOMS

1236—BALCONY BLUE. (See picture in color, Page 71.) Pkt., **15c,** postpaid.
1237—BALCONY ROSE. (See picture in color, Page 71.) Pkt., **15c,** postpaid.
1238—BALCONY WHITE. Pkt., **15c,** postpaid.
1233—BALCONY MIXED. Pkt., **10c,** postpaid.

1206—NEW FLAMING VELVET. All America Gold Medal Winner 1936. Seed Pkt., **20c.** Plants, per doz., **65c.** (See picture in color, Page 71.)

1239—GIANT RUFFLED AND FRINGED. Flowers are exquisitely ruffled or frilled, of immense size and of a great variety of variegated colors. Seed pkt., **15c** each. Plants, **65c** per doz., postpaid.

1240—PETUNIA ALL DOUBLE GIANT MIXED. All America Winner. The new all double Petunia. Runs from 90% to 100% true to type. The very finest in Petunias. Pkt., **30c.**

1207—NEW BURGUNDY. All America Gold Medal Winner 1937. Large Pkt., **20c.** (See picture in color, Page 65.)

Lobelia

Lupine

1124—FOUR O'CLOCK. (Marvel of Peru.) A thrifty grower. Makes a fine hedge or a low screen. Easily grown and bloom from midsummer to frost. Flowers have a queer habit of opening in the early evening and closing before morning. Pkt., **5c.**
1125—GAILLARDIA. (Annual Blanket Flower.) Has heads of disk shaped flowers and rich blending of red, yellow and orange. 1½ ft. tall. Pkt., **10c.**
1175—GERANIUM. Favorite house plant. Seed started early will bloom the first year. Mixed colors.
1126—GLOBE AMARANTH. A fine winter bouquet flower. The blooms look like clover heads. Extra large. Both red and white colors. Pkt., **5c.**
1117—GODETIA. An attractive hardy annual which should be better known. Easily grown, unusually showy and comes in a wide range of color from pure white to dark red.
1132—HELIOTROPE. In shades of purple. Fine for bouquets; sweet vanilla odor.
1151—ICE PLANT. (Mesembryanthemum Crystallinum.) Suitable for rock garden, hanging baskets, etc. Foliage thick frosted; waxlike white flowers. The hotter the summer the more it blooms.
1159—KENILWORTH IVY. (Linaria.) Lavender and purple flowers. A charming half-hardy perennial. A trailing plant suitable for baskets, vases, pots and rock work.
1154—LANTANA. A profusion of blooms throughout the summer. Fine for rock gardens, porch boxes and hanging baskets. Red and yellow shades mixed.

Giant Larkspurs—Vivid Coloring

Surprisingly like the perennial variety. Grows from 2 to 3 feet tall, with numerous large, graceful blooming spikes.
1155—PURE WHITE. Pkt., **10c,** postpaid.
1156—NEW ROSAMOND. All America Winner. (See picture in color, Page 70.) Pkt., **15c,** postpaid.
1157—DARK BLUE. Pkt., **10c,** postpaid.
1158—BLUE BELL. All America Winner. (See picture in color, Page 65.) Pkt., **10c,** postpaid.
1169—EMPRESS ROSE. Pkt., **10c,** postpaid.
1162—ANNUAL MIXED. Pkt., **10c,** postpaid.

1163—FAIRY BOUQUET LINARIA. Looks like a Snapdragon. A Gold Medal Winner. It's easy to grow everywhere and make good cut flowers. Blooms in great clusters. Pkt., **10c.** (See color picture, Page 65.)

Lobelia

Very fine edging or border plant fairly loaded with blooms all summer.
1160—CRYSTAL PALACE. Deepest blue. Pkt., **10c;** 3 for **25c.** Plants, **40c** per doz., postpaid.
1161—TRAILING LOBELIA. Bright blue with white eyes.

1185—LOVE-IN-A-MIST. (Nigella.) A compact free flowering plant with finely cut foliage. Blue and white mixed.
1181—LUNARIA. (Money Plant.) Flowers purple followed by silver seed pods. Prized for winter decoration.
1186—LUPINE. (Mayfair Hybrids.) Easily grown on poor soil but insists on good drainage. Carries long graceful spikes of rich variegated flowers.
1182—MIGNONETTE. (Sweet Fragrance.) Adds charm and fragrance to all bouquets. Should be in every garden. Large flowering, mixed.

Poppies—The First to Bloom

They defy the heat of the summer sun.
1131—NEW MONARCH ART SHADES. Large semi-double blooms. Newest and the very finest. Choice range of color.
1254—NEW SUNLITE. All America Winner. Rich golden yellow, semi-double. Very fine.
1121—CALIFORNIA POPPY. (See page 69.)

Shirley Single Poppies

These have beautiful satiny flowers of various colors with white centers which make the plants very attractive. They cannot be transplanted.
1250—AMERICAN LEGION, ORANGE.
1253—SHIRLEY, MIXED.

Double Carnation-Flowered Poppies

1249—DOUBLE MIXED. Gorgeous balls of fringed petals.
1258—GLORY POPPY MIXTURE. Pkt., **5c.**

1328—Annual Flower Mixture

A complete flower garden of lovely annuals. A whole garden in one packet. 19 flowers — all different. Pkt., **10c**

1223—CORONATION GOLD PANSY. (1938 ALL AMERICA WINNER). Largest yellow Pansy—3 inches across. Canary yellow with lower petals flushed golden orange; round flowers with lightly ruffled edges; mild spicy scent. Pkt., **25c.** (See picture in color, Page 65.)

1226—FANCY MIRACLE MIXED. All the finest types and strains, latest novelties including ruffled flowers and many of the new Sunburst Pansies; smoky rims, henna shades, with fine long stems. Pkt., **10c;** 1/16 oz., **30c;** ¼ oz., **$1.00,** postpaid.

1227—NEW SWISS GIANT PANSIES. The last word in Pansies. Without exception, this strain will produce the largest and finest Pansies you ever saw. Plant these for the Flower Show. Pkt. of 100 seeds, **20c.** (See picture in color, Page 68.)

Pansy Plants

MIRACLE MIXED. ALL COLORS. 45c per dozen plants; **$1.25** for 3 dozen; **$3.50** per 100. Postpaid in Zones 1, 2, 3, and 4.

Lovely Snapdragons (Antirrhinum)

For More Cut Flowers Grow These Rust-Proof Strains.

Flowers from July until frost. Dark glossy leaves and beautiful spikes of flowers with finely marked throats. Semi-tall sorts, 18 to 20 inches.

1020—NEW RUST-PROOF SNAPDRAGON. Season's Sensation. Mixed colors. (See picture in color, Page 65.) Seed Pkt., **10c;** 3 for **25c.** Plants, **65c** per dozen, postpaid.

1022—BONFIRE.

1023—GOLDEN QUEEN.

1026—DWARF MIXED. Attractive border plant for semi-shaded spots.

1024—NEW CRIMSON RUST-PROOF. All America Winner. Stately strong stems, heavily laden with bright crimson blooms.

Royal Scott Marigold

1180—SENSITIVE PLANT (Mimosa). A curious plant; pretty little pinkish white flowers. The leaves close and droop when touched or shaken.

1134—SNOW ON THE MOUNTAIN (Euphorbia). A strong growing annual for beds of tall plants or mixed borders. Foliage exceedingly ornamental and useful in making up bouquets. Pkt., **5c.**

1267—STATICE SINUATA. The best of the annual varieties. 18 inches. Fine for winter bouquets. Mixed colors.

1282—STOCKS (Early Ten Weeks). One of the most popular annuals, either for bedding or pot culture. All colors. Mixed.

Sunflower

Remarkable for the stately growth, size and brilliancy of their flowers.

1129—DWARF DOUBLE. 5 feet Double dark yellow. Pkt., **5c;** oz., **15c.**

1130—RUSSIAN MAMMOTH. Single; of gigantic size. Pkt., **5c;** oz., **10c;** ¼ lb., **25c.**

1273—TASSEL FLOWER (Cacalia). An unusual flower covered with bright, orange-scarlet and red blooms that look like many little paint brushes. The long wiry stems make them a good cut flower.

New Fragrant NASTURTIUMS

For every garden. Easy to grow. Bloom profusely from midsummer until frost. Their resistance to drought and heat makes them particularly valuable.

DOUBLE GLEAM NASTURTIUM. A new race. New colors with added fragrance. Easy to grow. Will bloom until frost. A flower for every garden.

1202—SCARLET GLEAM. Rich glowing scarlet. Very fragrant. All America Winner.

1198—GOLDEN GLEAM. Golden yellow; long stemmed, easily grown.

1194—MOON GLEAM. Double. Light golden cream.

1201—GLORIOUS GLEAM HYBRIDS. All America Winner. All of the colors ranging from pure gold to bright scarlet. New Sensation. New Novelty. Double Flowering.

1204—TALL MIXED. All kinds and all colors. 8 to 10 feet. Splendid for large beds where there is no room to spread. Pkt., **5c**; oz., **10c**; ¼ lb., **30c.**

1197—DWARF MIXED. All varieties and colors. Suitable for edging and bedding. Pkt., **5c**; oz., **10c**; ¼ lb., **30c**; lb., **$1.00.**

1339—Cup and Saucer Vine. Pkt. 10c. See page 72.

Choicest SWEET PEAS

Delicate Fragrant Cut Flowers

Soil should be thoroughly mixed with a good fertilizer. I like Bone Meal for this purpose. When the plants are well up, see that they have wire, strings or trellis to support them.

Early Flowering Spencers

These are the real prize winners. They bloom fully two weeks earlier than the ordinary kinds and will bloom just as long. Extra large flowers. Pkt., **10c**; 3 for **25c**; oz., **25c.**

1313—FRECKLES. Ivory flaked with brilliant rose.
1314—SHIRLEY TEMPLE. New. Delightful soft rose pink. ruffled.
1315—ABUNDANCE. A new type. Long, strong stems with flowers all the way up. Deep orchid. Very lovely.
1316—RED CROSS. Extra large, a bright scarlet color.
1317—ORANGE BALL. Rich deep orange.
1318—LADDIE. Large rose pink on white background.
1319—BLUEBIRD. Pale blue.
1321—SNOWSTORM. Pure white.
1322—SWEET LAVENDER.
1326—BRIGHT LIGHT. Scarlet.
1327—MIXED. Colors of all varieties. Pkt., **10c**; oz., **25c**; ¼ lb., **85c.**

Spencer Sweet Peas

The old-fashioned Spencers are still among the garden favorites. Lovely, large blooms. Sow as soon as the ground can be worked in the spring, and best results are obtained by soaking the seed over night before planting.

1325—FINEST SPENCER MIXED. Pkt., **10c**; oz., **20c**; ¼ lb., **65c.**

INOCULATE THIS SEED

Use Nitragin Inoculation for sweet peas. Garden Size can, **10c** postpaid. Will inoculate from 1 to 4 pounds of sweet pea seed.

MAY'S GIANT DOUBLE ZINNIAS

ALL POSTPAID

MY BIG ZINNIA SPECIAL
Large Blooming Dahlia Flowered
Easiest of all to grow
1 each of these four kinds
1286—Purple Prince.
1287—Fire Flame.
1288—Exquisite Pink.
1285—Golden Dawn.
4 Packets for only 10c postpaid

Here are the flowers to plant for an array of color during the hot mid-summer months. These large Dahlia-flowered Zinnias continue to bloom clear up until frost.

A Real Flower Bargain

Extra Large Dahlia-Flowered

Blooms just like a big Dahlia. Zinnias will grow and bloom abundantly in practically any soil or location right through the hottest part of the season. Today they are America's most popular annual flower.

1283—ILLUMINATION. A deep rose pink, the very finest. (See pictured in color on Page 65.) Pkt., **10c**; 3 for **25c.**

1285—GOLDEN DAWN. A fine shade of golden yellow. **Pkt., 10c**; 3 for **25c.**

1286—PURPLE PRINCE. Rich shade of Royal Purple. Pkt., **10c**; 3 for **25c.**

1287—FIRE FLAME. Bright orange scarlet. Pkt., **10c**; 3 for **25c.**

1288—EXQUISITE. Delicate reddish rose. Pkt., **10c**; 3 for **25c.**

1289—ENCHANTRESS. Rich shade of red. Pkt., **10c**; 3 for **25c.**

1290—QUEEN OF ORANGE. Orange scarlet. Pkt., **10c**; 3 for **25c.**

1302—MY FINEST MIXED DAHLIA-FLOWERED DOUBLE ZINNIAS. Large Pkt., 5c; ½ oz., **25c**; oz., **40c.**

CALIFORNIA GIANTS

These, too, are enormous flowers, flat in shape, twice the size of ordinary Zinnias. Pkt., **10c**; 3 for **25c**, postpaid.

1292—Apple Blossom. Delicate pink.

1293—Burnt Orange. Deep orange.

1294—Isabellina. A creamy yellow.

1295—Giant Flame. Blood-red.

1296—Lilac.

1297—Double Mixed. All colors. Pkt., 5c; ½ oz., **25c**; oz., **40c**, postpaid.

1304—Creeping Zinnia. New bright yellow flowers, very double and bloom all summer and fall. They creep out over a large space so are fine for rock gardens or hanging baskets. Pkt., **10c**, postpaid.

LILLIPUT OR BABY ZINNIAS—VERY DOUBLE

These dwarf extremely double flowers are very attractive. Borne well above the bushy foliage they are very desirable as a cut flower. Pkt., **10c**; 3 for 25c, postpaid.

1300—GOLDEN GEM. Golden yellow.

1301—ROSEBUD PINK. Deep rose pink.

1303—ALL COLORS MIXED.

1305—Zinnia—Little Red Riding Hood. New baby Zinnia. Bright scarlet, very double. The children will enjoy this one. Pkt., **10c**, postpaid.

Fantasy Zinnias

1306—NEW STAR DUST. "ALL AMERICA WINNER" 1937. Large Pkt., **20c**, postpaid.

1299—NEW FANTASY. Mixed colors. "ALL AMERICA WINNER." Pkt., **10c**, postpaid.

1291—HAAGEANA DOUBLE MIXED. Fine for bouquets and bedding. Two-tone golden yellow and mahogany. Pkt., **10c**, postpaid.

ANNUALS—Bloom All Summer

Scarlet Sage (Salvia)

Brightest, showiest Autumn color. Blooms from mid-summer until frost. Makes the finest hedge or border plant.

1262—GLOBE OF FIRE. Continuous bloomer, very showy. Pkt., **15c.** Plants, **65c** per doz.

1256—BLUE SALVIA. Dwarf Compact grower. Flowers a bluish purple. Fine for cutting.

Scarlet Sage Salvia

Velvet Trumpet Flower

Sweet Scented Tobacco Plant

(Nicotiana)

1184—HYBRIDS MIXED. A great variety of colors and star-shaped flowers. If taken up in the fall, cut back and potted, will bloom in house during winter. 2 to 3 feet.

1274—TORENIA. A bushy plant with pansy-like flowers of white, lavender and blue marked with gold and black. For shady spots, hanging baskets and porch boxes. Pkt., **10c.** Plants, **65c** per dozen.

1257—Velvet Trumpet Flower

(Salpiglossis)

Everyone asked about these trumpet shaped flowers in my garden this fall. Fine for cutting.

Everblooming Verbena

Blooms continuously. Plant Verbenas for a dash of color in your garden this year. Fine for beds or borders. The flowers are refreshing in their brilliant colors.

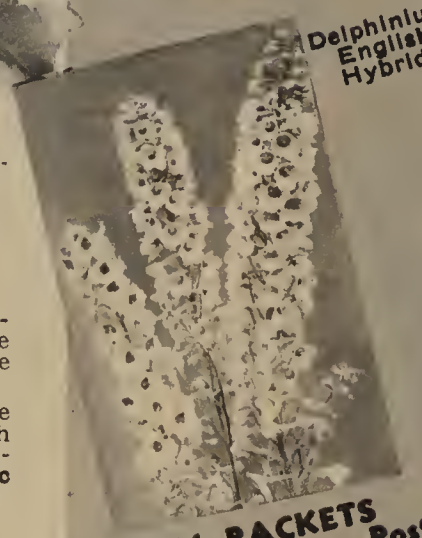
1133—BEAUTY OF OXFORD. "All America Winner." Hybrids Mixed. A beautiful giant hybrid with colors ranging from rose pink to rose red shades. Extra fine. Pkt., **10c.** See picture in color, page 65.

1276—MAYFLOWER. A delicate pink; fragrant.
1278—PURPLE. Purple shades.
1279—SCARLET.
1280—CHOICE MIXED. All colors. (See picture in color, page 71.)
1281—VINCA (Periwinkle). The Vinca increases in popularity every year because of its glossy dark green foliage and profusion of flowers.

Shasta Daisy

HARDY PERENNIAL FLOWER SEEDS

(ALL POSTPAID)



Delphinium English Hybrids

ALL PACKETS Each 10c 3 for 25c Postpaid Unless otherwise noted.

Perennial Sweet Pea

1500—ALYSSUM SAXATILE (Basket of Gold). Grows 9 inches tall, flowers in May or June and produces masses of golden flowers. Pkt., **10c.**

1501—AQUILEGIA or COLUMBINE. Mixed. Hardy and easily grown from seed. Spurred, delicate hues and shades. Pkt., **10c.**

1516—CACTUS SEED. Novelty for your rock garden. It is much easier to plant the seed than it is to reset the plants. Pkt., **15c.**

1502—PERENNIAL SWEET PEA. Similar to the Annual Sweet Pea except the large flowers are more wax-like in appearance. Mixed. Pkt., **10c.**

1503—COREOPSIS. One of the finest of hardy plants, with large showy, yellow flowers, produced in great abundance from June until frost. Flowers the first year if sown early. Pkt., **10c.**

1504—GAILLARDIA, GRANDIFLORA. (Perennial Blanket Flower.) Beautiful combination of orange, red and yellow blooms. Pkt., **10c.**

1505—ORIENTAL POPPY. A charming summer flowering, hardy plant. Grows about 2½ feet tall. Large orange-scarlet flower has a conspicuous black blotch on each petal. Pkt., **10c.**

1506—SHASTA DAISY. A splendid hardy Perennial Daisy of purest white. Broad overlapping petals, borne on long, strong stems. Fine for cut flowers. Pkt., **10c.**

1507—PYRETHRUM (Painted Daisy). Very valuable for cut flowers. Blooms at intervals throughout the summer. Pkt., **15c.**

1508—DELPHINUM, ENGLISH HYBRIDS. A strain of our own origination, excelling anything I have ever seen in the way of Delphiniums. All shades and colors. Pkt., **10c.**

1509—DELPHINIUM, BELLADONNA. Flowers will be clear, light blue, set rather loosely on the stem. Branching habit of growth. Pkt., **10c.**

1510—DELPHINIUM, BELLAMOSA. Like Belladonna except a darker shade of blue. Pkt., **10c.**

1511—HOLLYHOCK. All colors. Mixed, single and double. Fine for background or screen. Can be used for cut flowers. Pkt., **10c.**

1517—NEW DOUBLE HOLLYHOCK. The very finest extra large all double flowers. The best and most gorgeous colored strains. Pkt., **15c.**

1512—SWEET WILLIAM. An old favorite—needs no introduction. Our mixture contains the very finest shades and colors. Pkt., **10c.**

1513—GYPSOPHILA PANICULATA (Baby's Breath). Tiny white flowers on branching stems, producing a veil-like mist over the plants. Can be dried for winter bouquets. Pkt., **10c.**

1518—VIOLA EVERBLOOMING PANSY. Fine little edging plant. Dwarf, spreading habit. Blooms all summer. All colors. Pkt., **10c.**

1519—DIGITALIS (Foxglove). Finest Mixed. Attractive for shady borders. Long spikes crowded with thimble-shaped spotted blossoms. Pkt., **10c.**

1515—MAY'S PERENNIAL COLLECTION. One packet each of the above 18 varieties for **$1.00**, postpaid.

ANNUAL CLIMBERS

Cover Your Porch With Flowers in One Year

1332—BALSAM APPLE. Very rapid and dense climbers with golden yellow fruit, which opens when ripe, showing the blood-red seed. Mixed.

1331—CANARY BIRD VINE. A dainty vine. Grows 15 to 20 feet. Delicate, bird-shaped flowers. Clear, canary yellow.

1339—CUP AND SAUCER VINE. (Cobea Scandens.) Mixed colors. 1½ inch flowers shaped like Morning Glories. Vine reaches a height of 20 to 30 feet and blooms from mid-summer till frost. The deeply cut leaves are very decorative. See picture in color, Page 70.

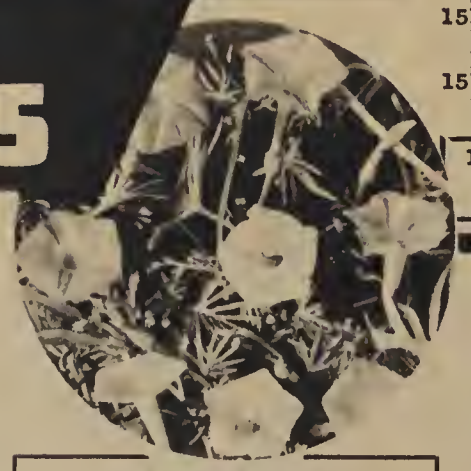
1343—CYPRESS VINE. A beautiful climber with a profusion of scarlet, or white, star-shaped blossoms and fern-like foliage, adapted to ornamental work.

1333—MOONFLOWER (Night Blooming) White. Grows 30 feet, with large waxy flowers. Open evenings and cloudy days. Seeds should be planted in warm, rich soil. Keep soil moist.

1335—MOONFLOWER HEAVENLY BLUE. A distinct shade described by its name.

1340—MORNING GLORY HEAVENLY BLUE. Finest of all Morning Glories. Flowers are large, deep, sky blue. White shaded throats. Grow quickly, and have loads of blooms. (See pictured in color, Page 71).

1345—DOUBLE MORNING GLORY. ROSE MARIE. A beautiful semi-double large flowered Morning Glory. A very free bloomer. New and different in color and type.



1334—CARDINAL CLIMBER

Strong rapid grower attaining a height of 25 feet, covered with the beautiful fiery cardinal-red flowers, from midsummer to frost.

1346—GIANT MORNING GLORY. This is the beautiful Morning Glory I have been telling you about. The finest thing about them is the immenseness of the size of the flowers.

1342—PASSION FLOWER. One of the best summer vines for general growing. The beautiful blue flowers somewhat resemble a water lily in shape.

1344—HYACINTH BEAN. Quick grower. Fine for training on wires or poles. Erect spikes of showy, pea-like flowers, followed by ornamental seed pods. Pkt., **5c.**

1336—SCARLET RUNNER BEAN. An old favorite; strong grower. Grown for ornamental purposes, though they are edible. Scarlet flowers; blooms freely in full sun. Pkt., **5c.**

1341—THUNBERGIA VINE. A lovely trailing plant with large showy flowers. Colors range to all shades of yellow, orange, buff, to pure white. Jet black eyes.

1337—MIXED CLIMBERS. A grand and glorious mixture of all different kinds of climbing vines listed on this page and a few more. All annuals that will climb and make fine shade or screens.

1338—MIXED SMALL FRUITED GOURDS. Quickest grower of all. Blooms are very ornamental and the fruit is very unique. Children like them. Pkt., **5c.** (See picture in color, Page 71.)

1456—LARGE FRUITED GOURDS. These are the larger types. All kinds and shapes. Pkt., **5c.**

PRICES All packets **10c** each; 3 for **25c** Postpaid unless otherwise noted

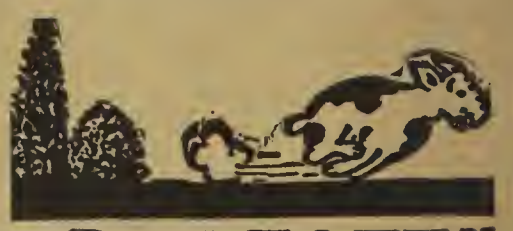
Kill Insects With BUG GUN

The easy, safe, convenient, new way. Kills insects in the garden and house, including most aphis, worms, beetles, mites, thrips, leaf hoppers, red spiders, fleas, roaches, and others.

Use "Bug Gun" on flowers, vegetables, fruits, shrubbery, for household pests, and fleas on pets.

"Bug Gun" completely loaded with 3000 deadly dust shots, ready to shoot, only **35c** each postpaid



"DOGZOFF"

If you are bothered with dogs, cats, or rabbits, "Dogzoff" is the spray you need. It's the most efficient animal repellent. One spraying lasts from three to four weeks. Non-poisonous to plants; does not injure animals. Not offensive to human beings. Its use is guaranteed to keep these animals from any place where they are not wanted.

Apply "Dogzoff" with any small insect sprayer. One application usually does the work for a season.

Price for season's supply, prepaid. 60c

Save the Soil

Stop Those Ditches While They Are Small
Black Locust Seed

Black Locusts are used by the Soil Conservation service for gulley control more extensively than any other one variety of tree. A rapid grower with a spreading root system that holds the soil from washing. They make fine fence posts too. Plant in rows three feet apart. One ounce will sow 140 feet of drill. BIG PACKET—10c; oz., 25c; ¼ lb., 80c; lb. $2.75.

"FULL OF BLOOM" ROSE COLLECTION

Every One of These Bloom This Year

All 5 only $1 postpaid

Mrs. May asked me if we couldn't give our rose lovers an outstanding rose bargain this year. This collection is what we selected for you. Think of it! 5 popular, fine, everblooming Hybrid Tea roses with 10 in. tops, properly pruned for planting. All hardy, outdoor grown, 2-yr. olds, all 5 ONLY **$1.00** POSTPAID. Here are their names, all dandies, too.

BETTY UPRICHARD. Pink with carmine. Very fragrant.

ETOILE DE HOLLANDE. Rose specialists consider this the best of the dark red roses.

TALISMAN. Most popular and famous golden yellow, copper orange and pink combination.

LADY HILLINGDON. Still our most popular fragrant yellow Hybrid Tea rose.

K. A. VICTORIA. Still the best white rose, wonderfully fragrant.

15 ROSES (3 COLLECTIONS), ALL NAMED AND LABELED. POSTPAID FOR ONLY..... $2.85

A Beautiful green Lawn all season with my MAYPARK LAWN MIXTURE

My Maypark Lawn Grass Mixture is a blend of the finest adapted lawn grasses. They are hardy, deep rooted grasses that spread and sod quickly. Fine leafed, tough, sturdy grasses that are constantly green even in dry weather.

This mixture contains plenty of good, heavy weight Kentucky Blue Grass, White Dutch Clover and other quick growing grasses. You can depend on my Maypark Mixture for a beautiful green lawn the first year, as well as for seasons to come.

30c per lb.; 3 lbs., 75c; 10 lbs., $2.00, postpaid. **5 lbs., Postpaid $1.15**

TURN TO LAWN GRASS PAGE 43 FOR OTHER KINDS OF LAWN GRASSES.

So Many People Have Said: "My, what a beautiful lawn you have at your home." So I had a picture taken of it this year and here it is so you can all see it. It was seeded with my Maypark Lawn Mixture, the same I am listing in this catalog for you.
